(57) **CLAIM**

The ornamental design for a mobile communication terminal with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image of a first embodiment of a mobile communication terminal with animated graphical user interface showing our new design;

FIG. 2 is a second image thereof;

FIG. 3 is a first image of a second embodiment of the mobile communication terminal with graphical user interface; and, FIG. 4 is a second image of the second embodiment.

The broken lines shown in the drawings of a mobile communication terminal and certain graphic features of the animated graphical user interface form no part of the claimed design.

The appearance of the animated graphical user interface transitions through each image of each embodiment. The process or period in which one image transitions to another forms no part of the claimed design.
