(57) **CLAIM**

The ornamental design for a display screen with a graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a display screen with a graphical user interface, according to a first embodiment; FIG. 2 is a front view of a second image of a display screen with a graphical user interface, according to the first embodiment;

FIG. 3 is a front view of a first image of a display screen with a graphical user interface, according to a second embodiment;

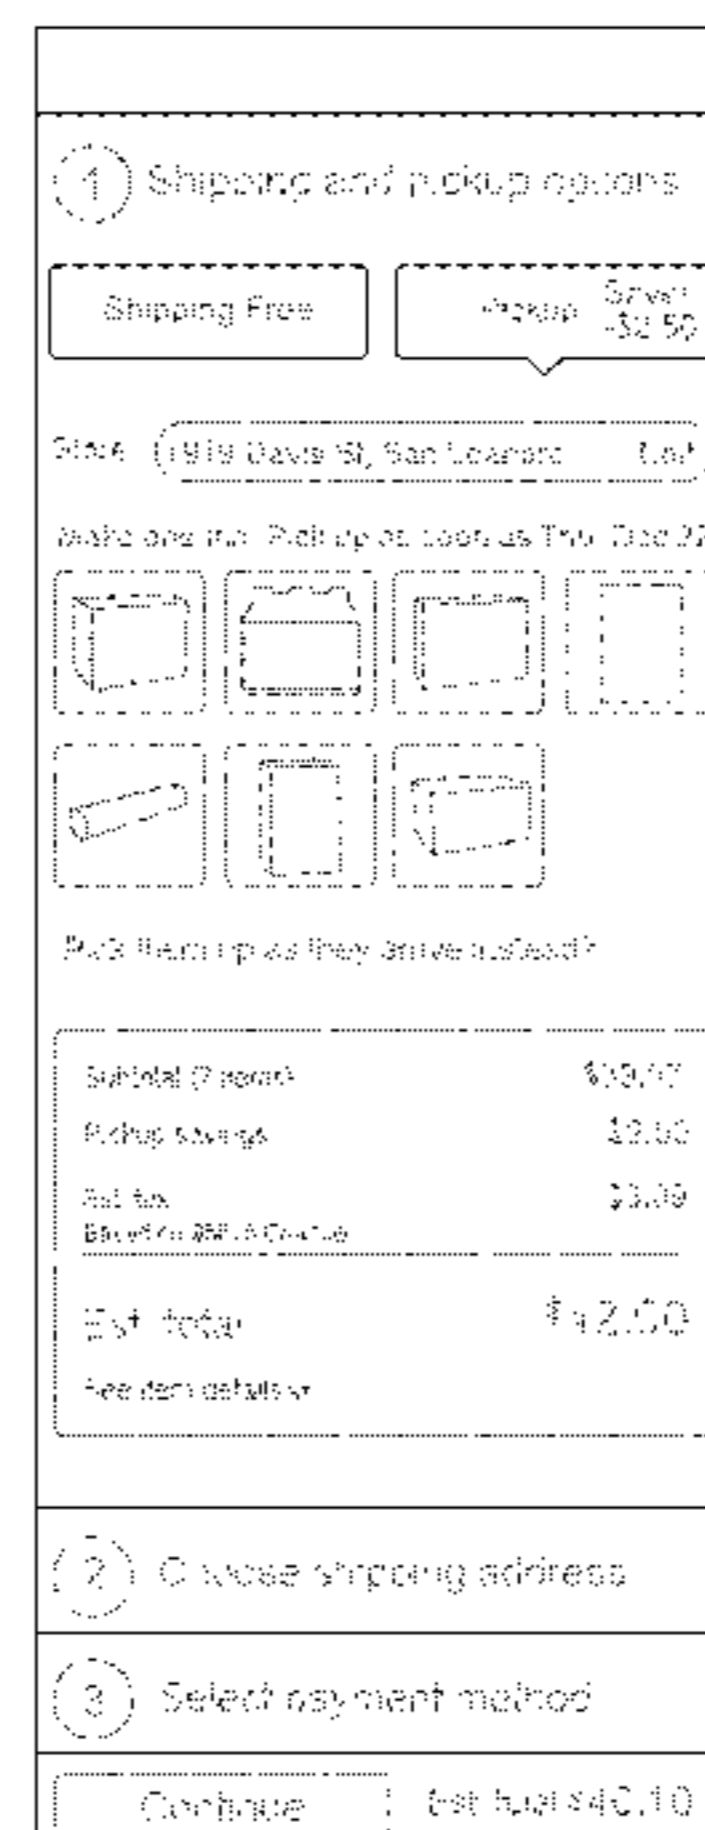

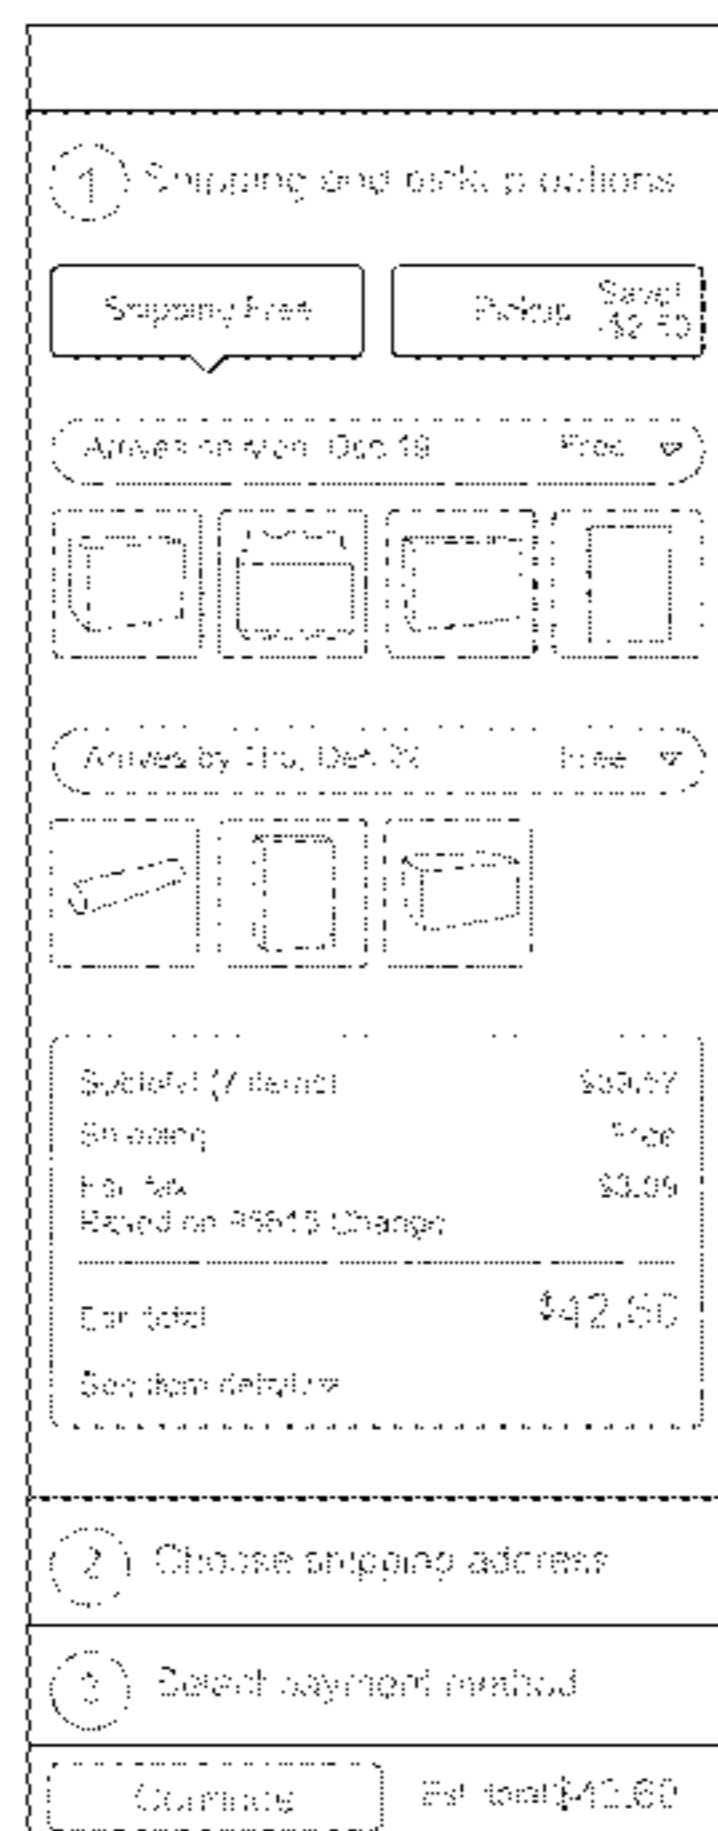

FIG. 4 is a front view of a second image of a display screen with a graphical user interface, according to the second embodiment;

FIG. 5 is a front view of a first image of a display screen with a graphical user interface, according to a third embodiment; and,

FIG. 6 is a front view of a second image of a display screen with a graphical user interface, according to the third embodiment.

The broken lines illustrate portions of the graphical user interface that form no part of the claimed design. The appearance of the image transitions in each of the first, second, and third embodiments between the images shown in FIGS. 1-2, FIGS. 3-4, and FIGS. 5-6, respectively. The process or period in which an image transitions to another image forms no part of the claimed design.
