(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface containing icon, as shown and described.

**DESCRIPTION**

The file of this patent contains at least one drawings executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface containing icon showing the claimed design; and,

FIG. 2 is the enlarged front view thereof.

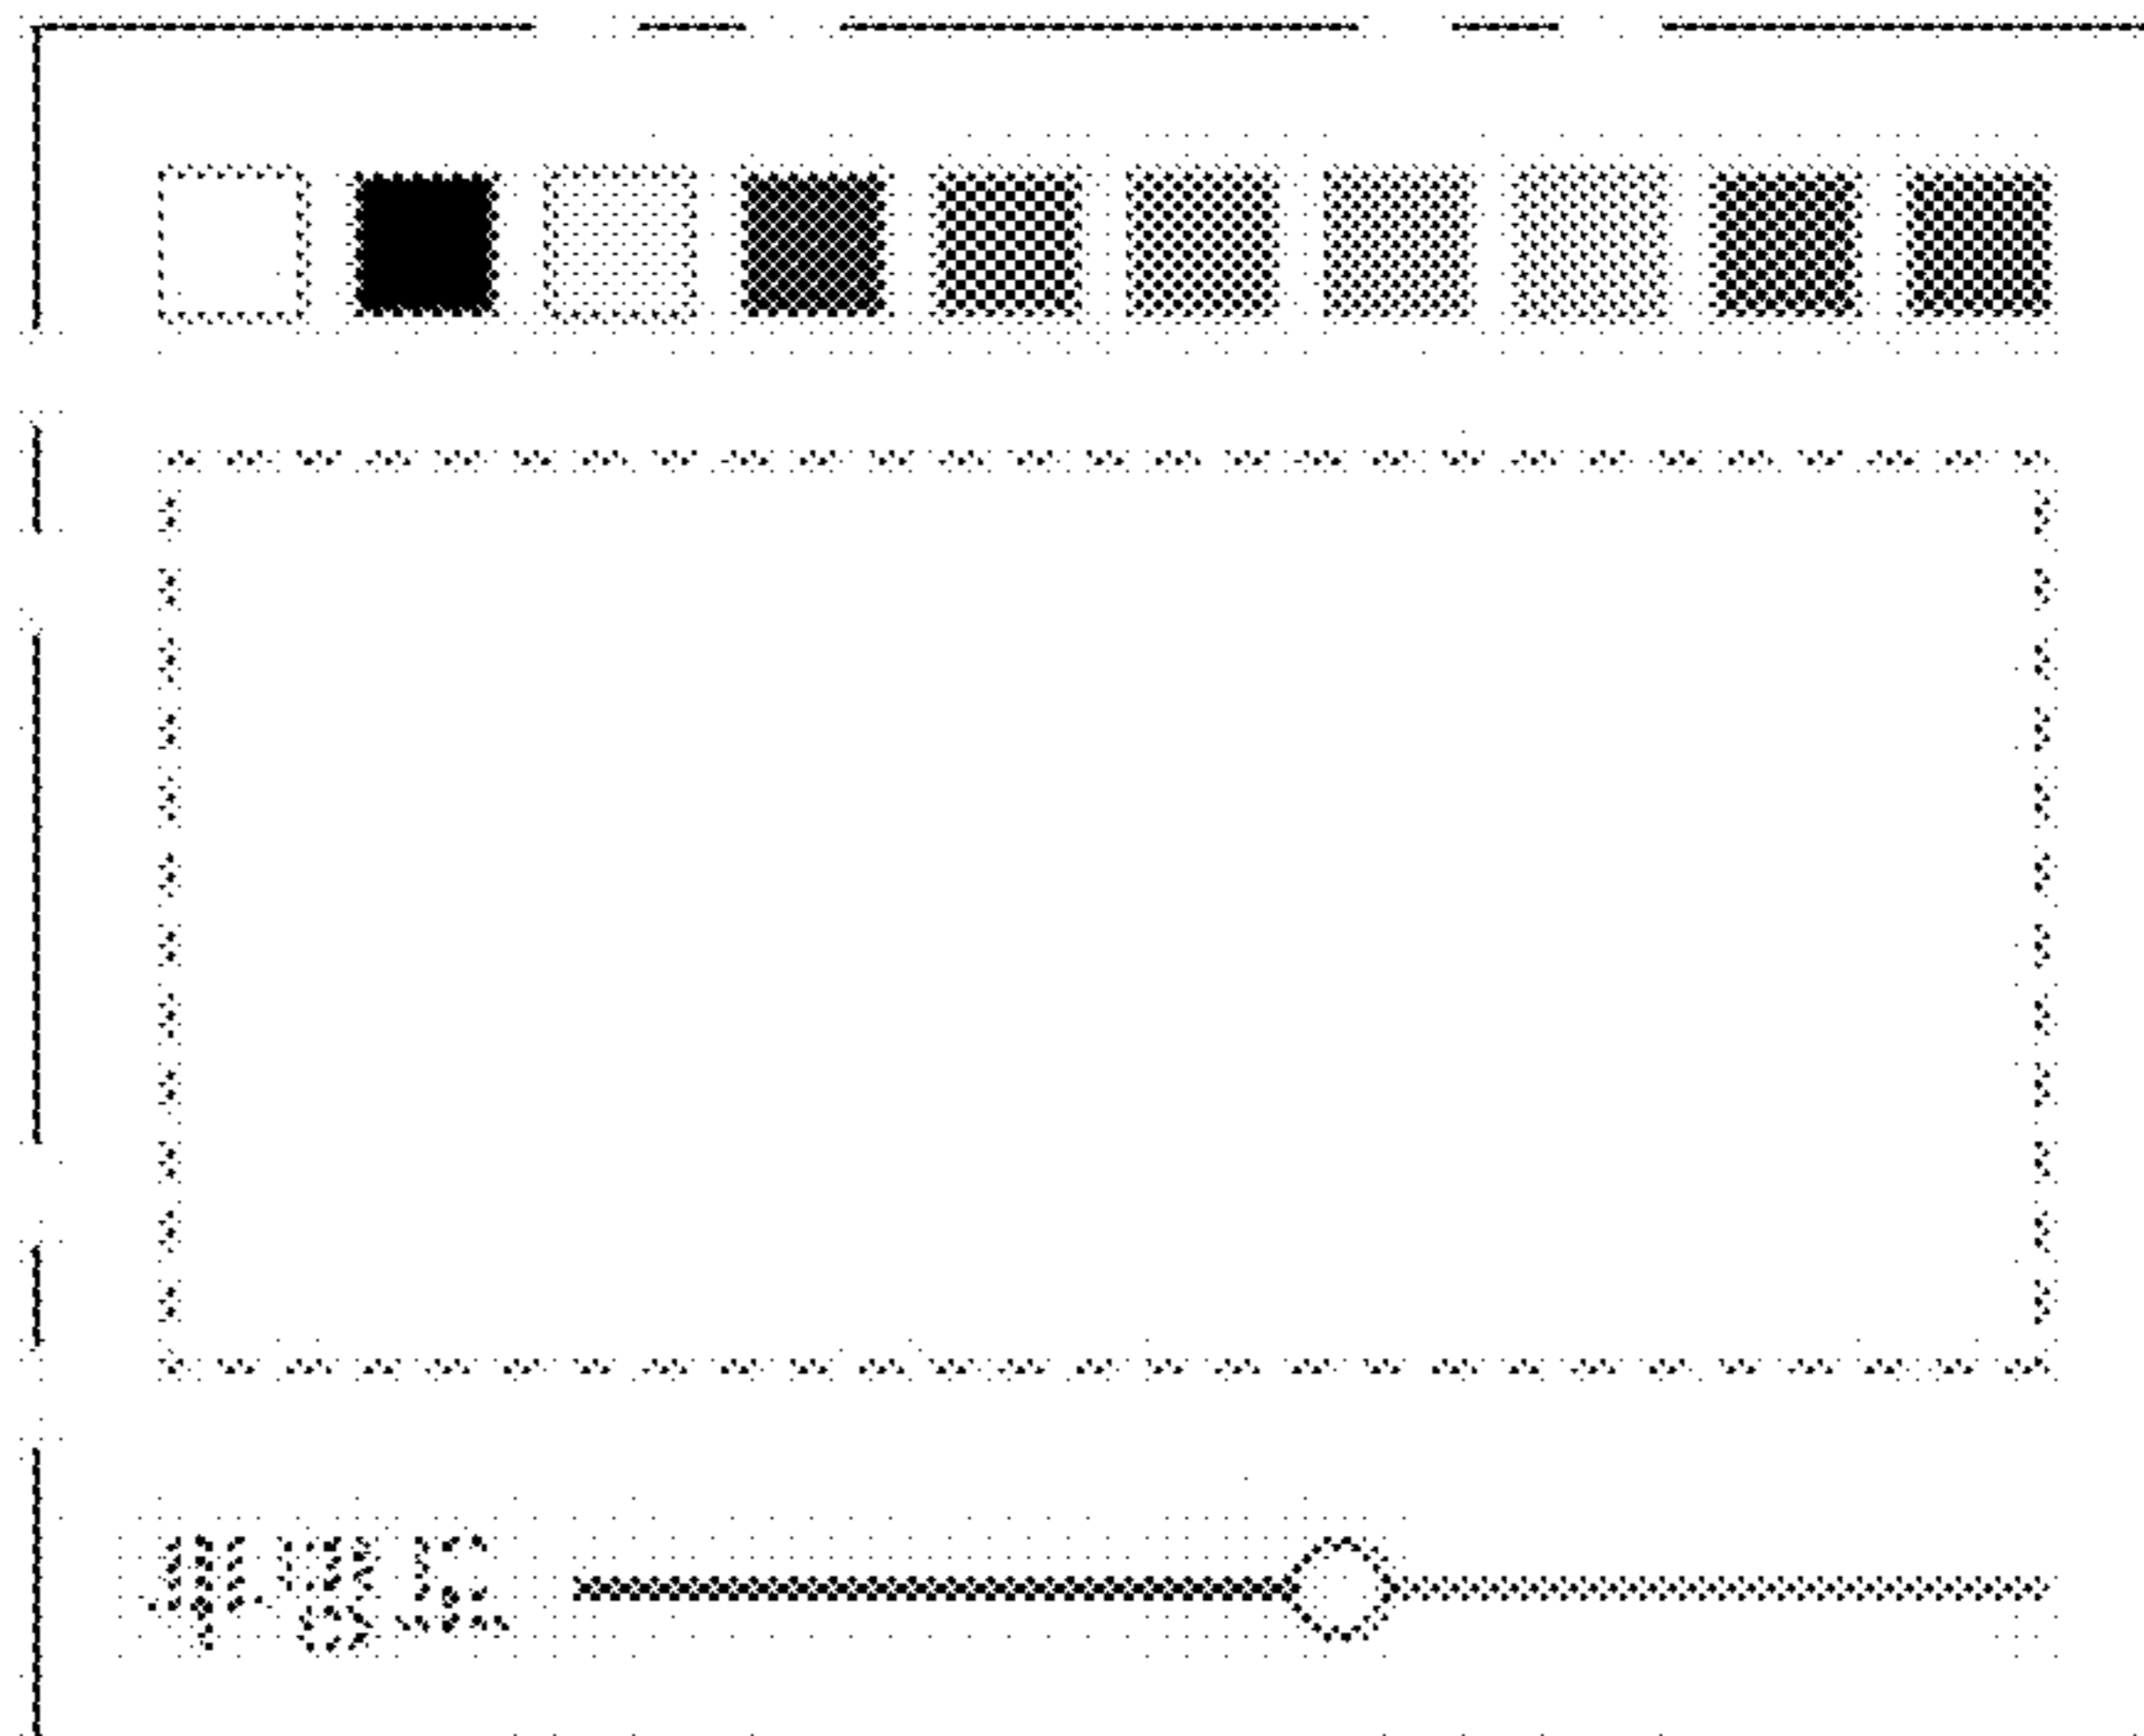

The dash-dot-dash broken lines surrounding the graphical user interface containing icon define the boundary of the claimed design and form no part thereof.

All of the evenly spaced broken lines shown outside the dash-dot-dash broken lines illustrate the display screen or portion thereof, and form no part of the claimed design.

Written letters shown in evenly spaced broken lines illustrate portions of the graphical user interface containing icon and form no part of the claimed design.

A rectangular shape shown in evenly spaced broken lines, which is inside the dash-dot-dash broken lines illustrates portions of the graphical user interface containing icon and forms no part of the claimed design.
