(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface showing a first embodiment of our new design; and, FIG. 2 is a front view of a display screen with graphical user interface showing a second embodiment of our new design. The broken line showing of the display screen and remainder of the graphical user interface illustrates environment and forms no part of the claimed design.
