(57) **CLAIM**

We claim the ornamental design for a display screen with graphical user interface with an image of medical implant, as shown and described.

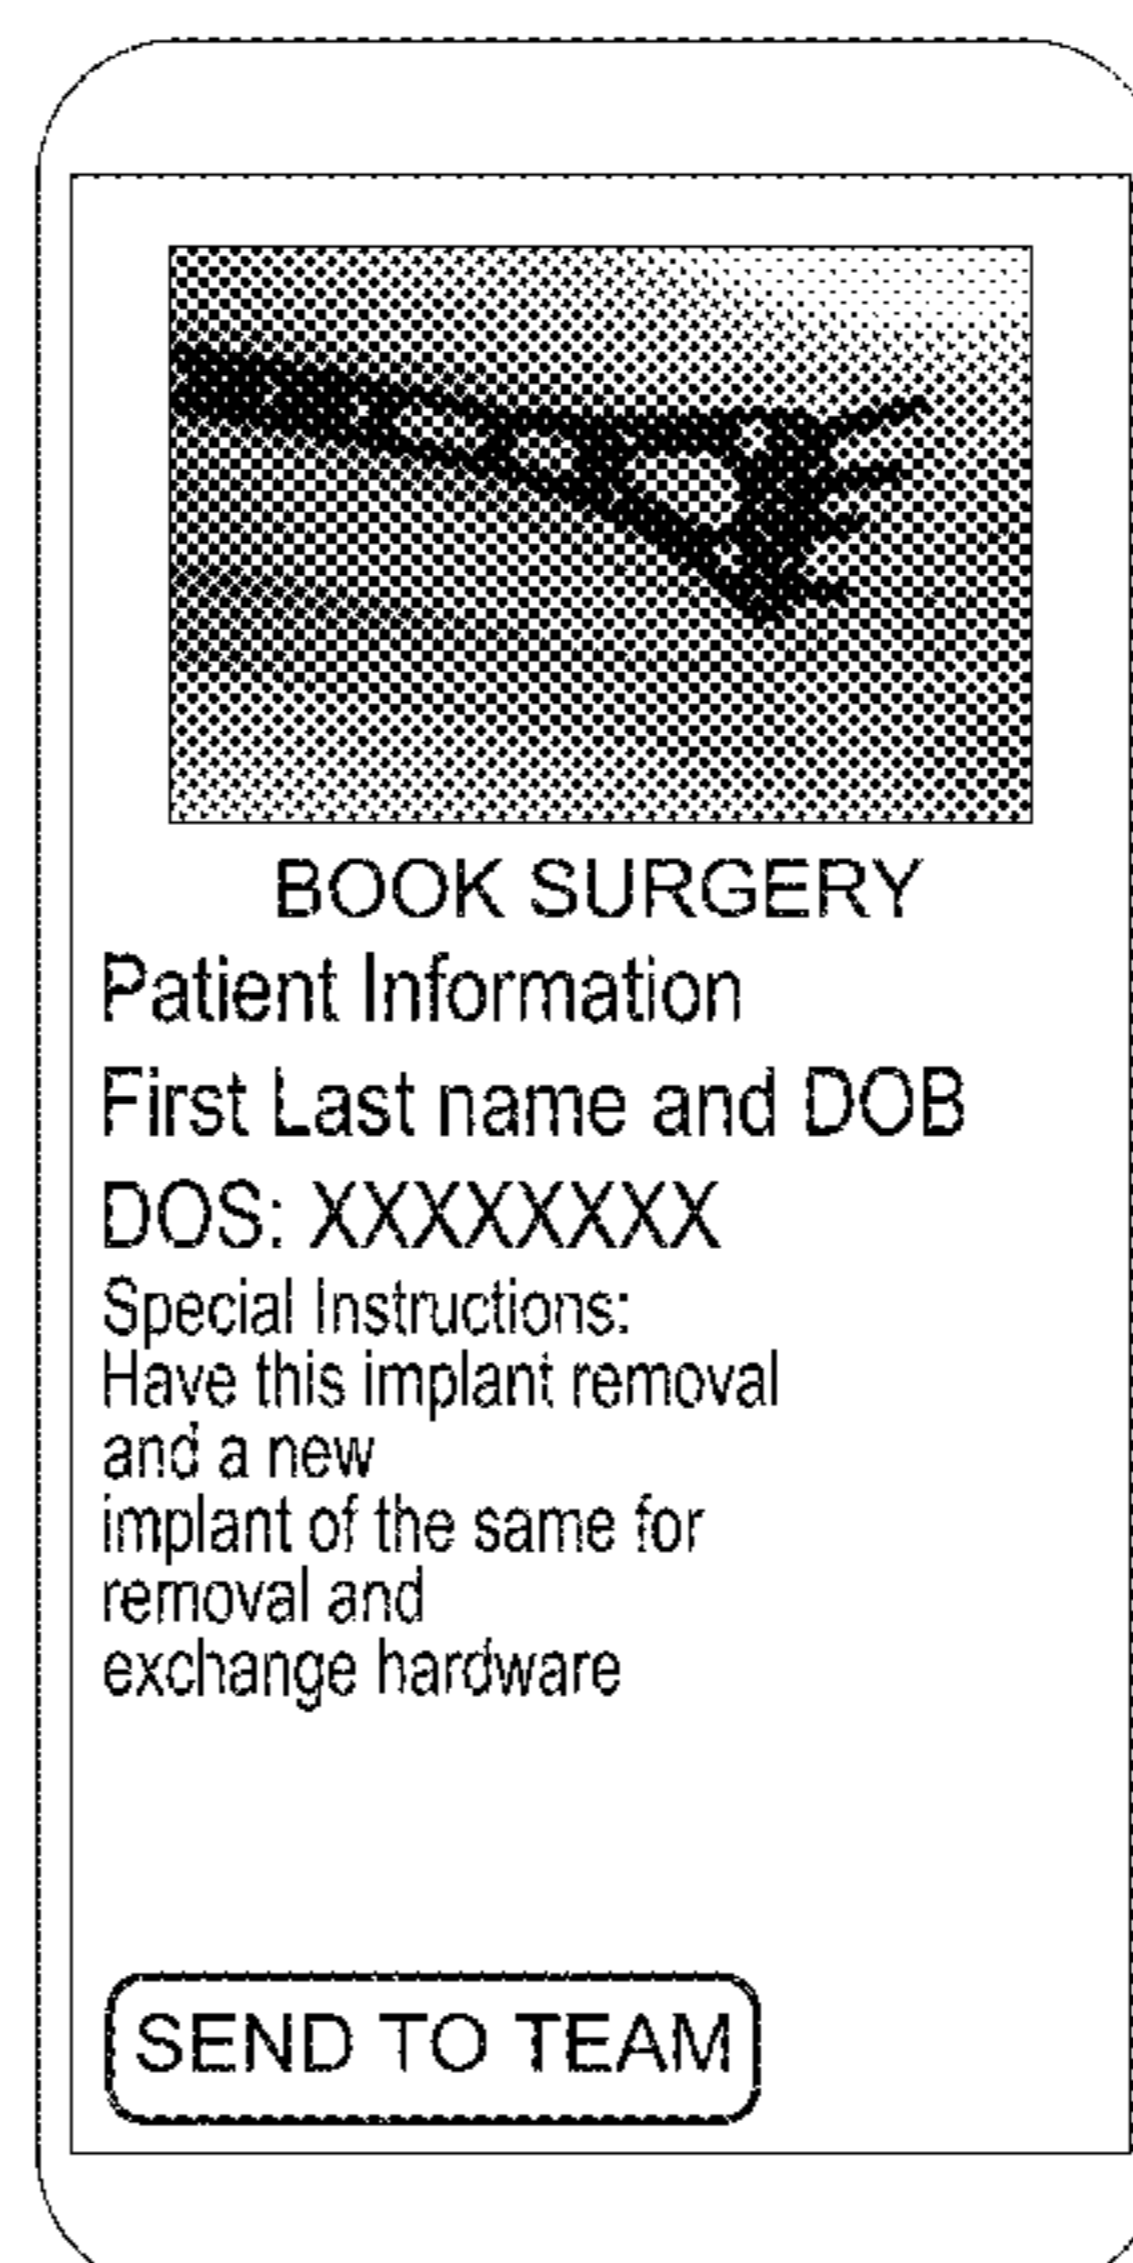

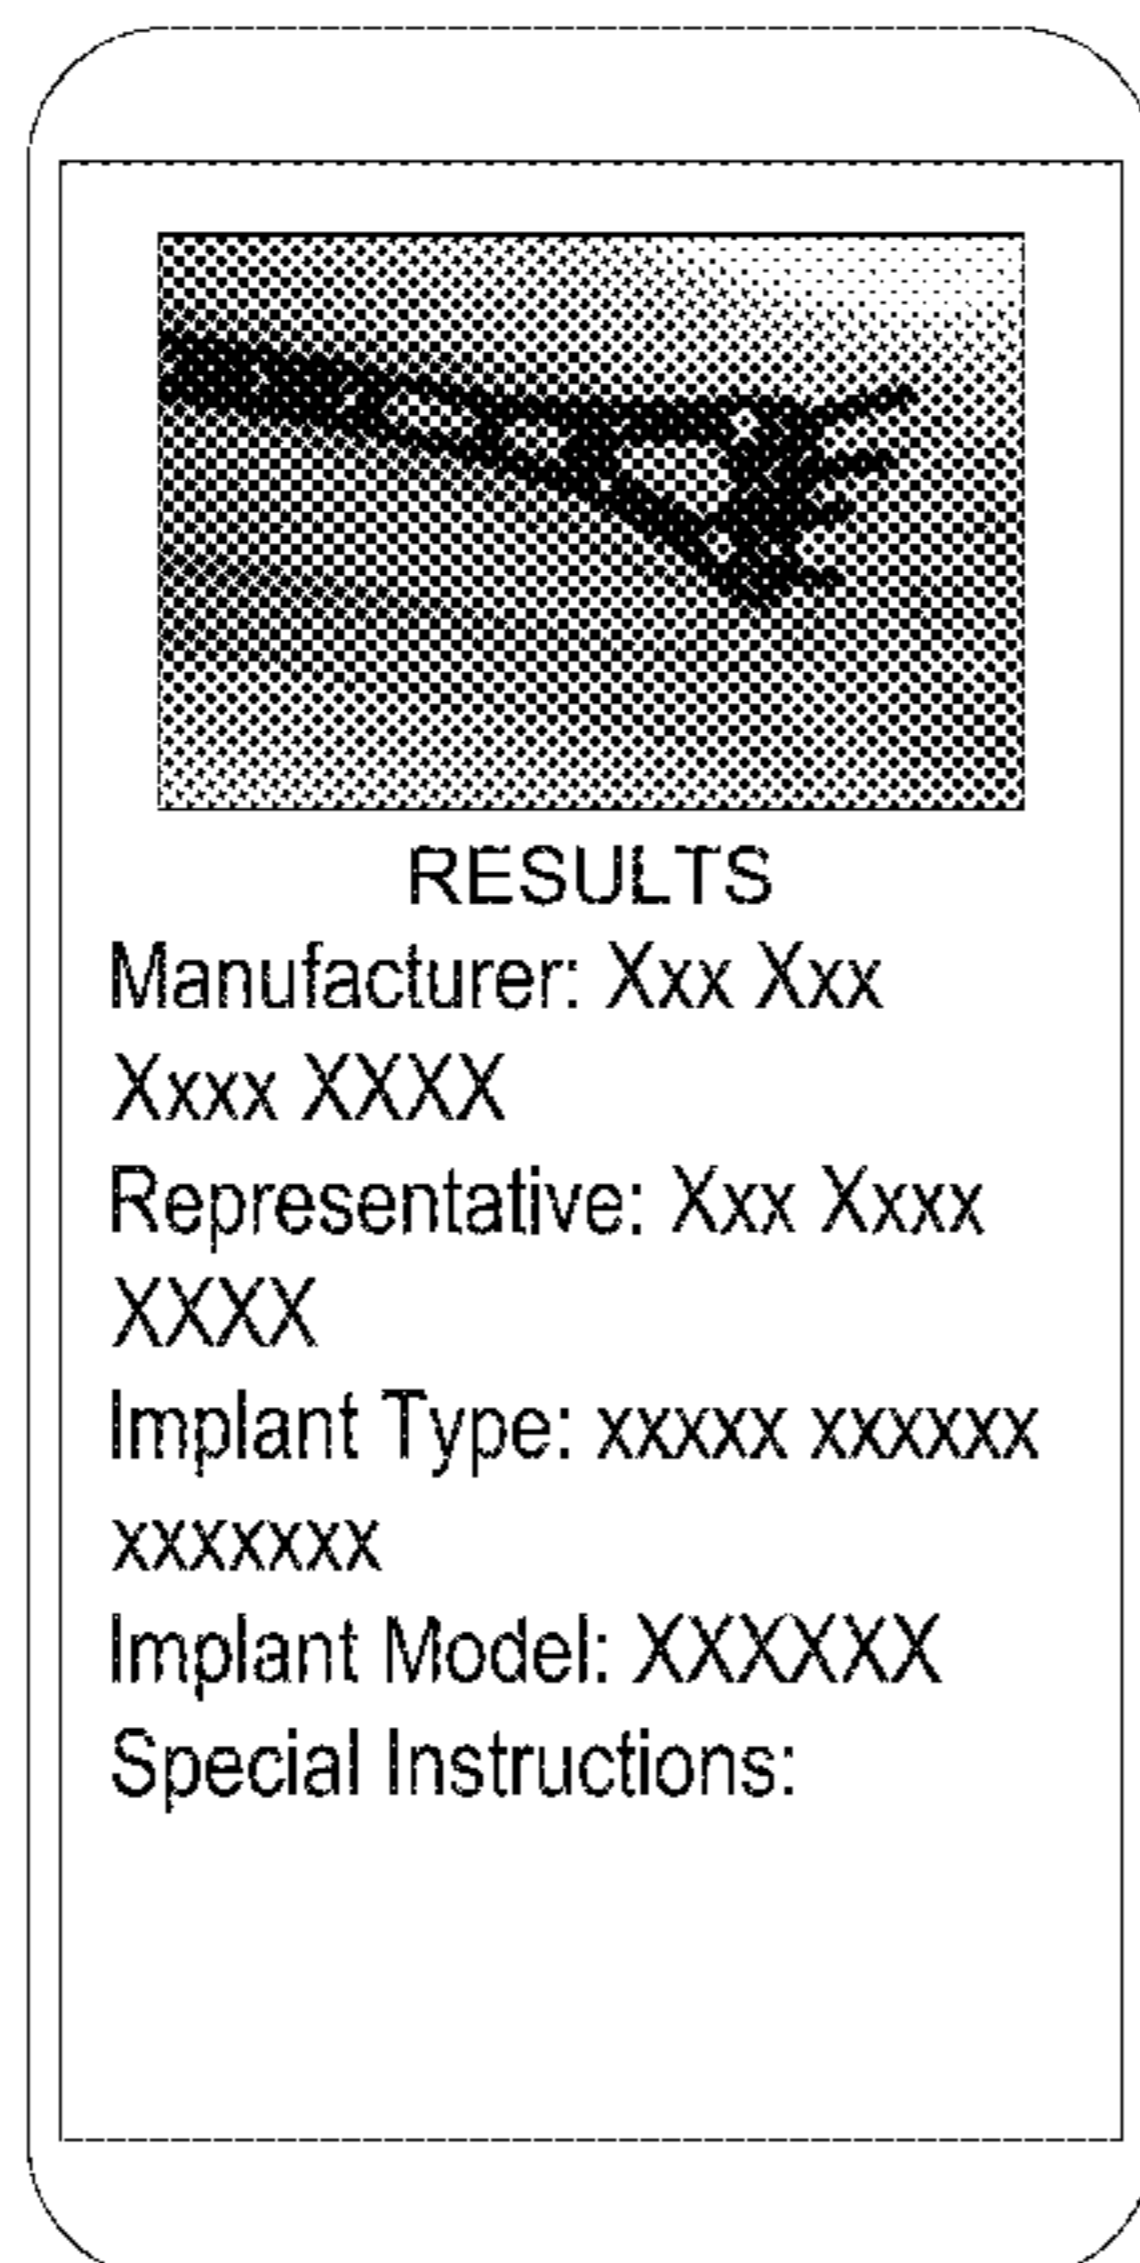

**DESCRIPTION**

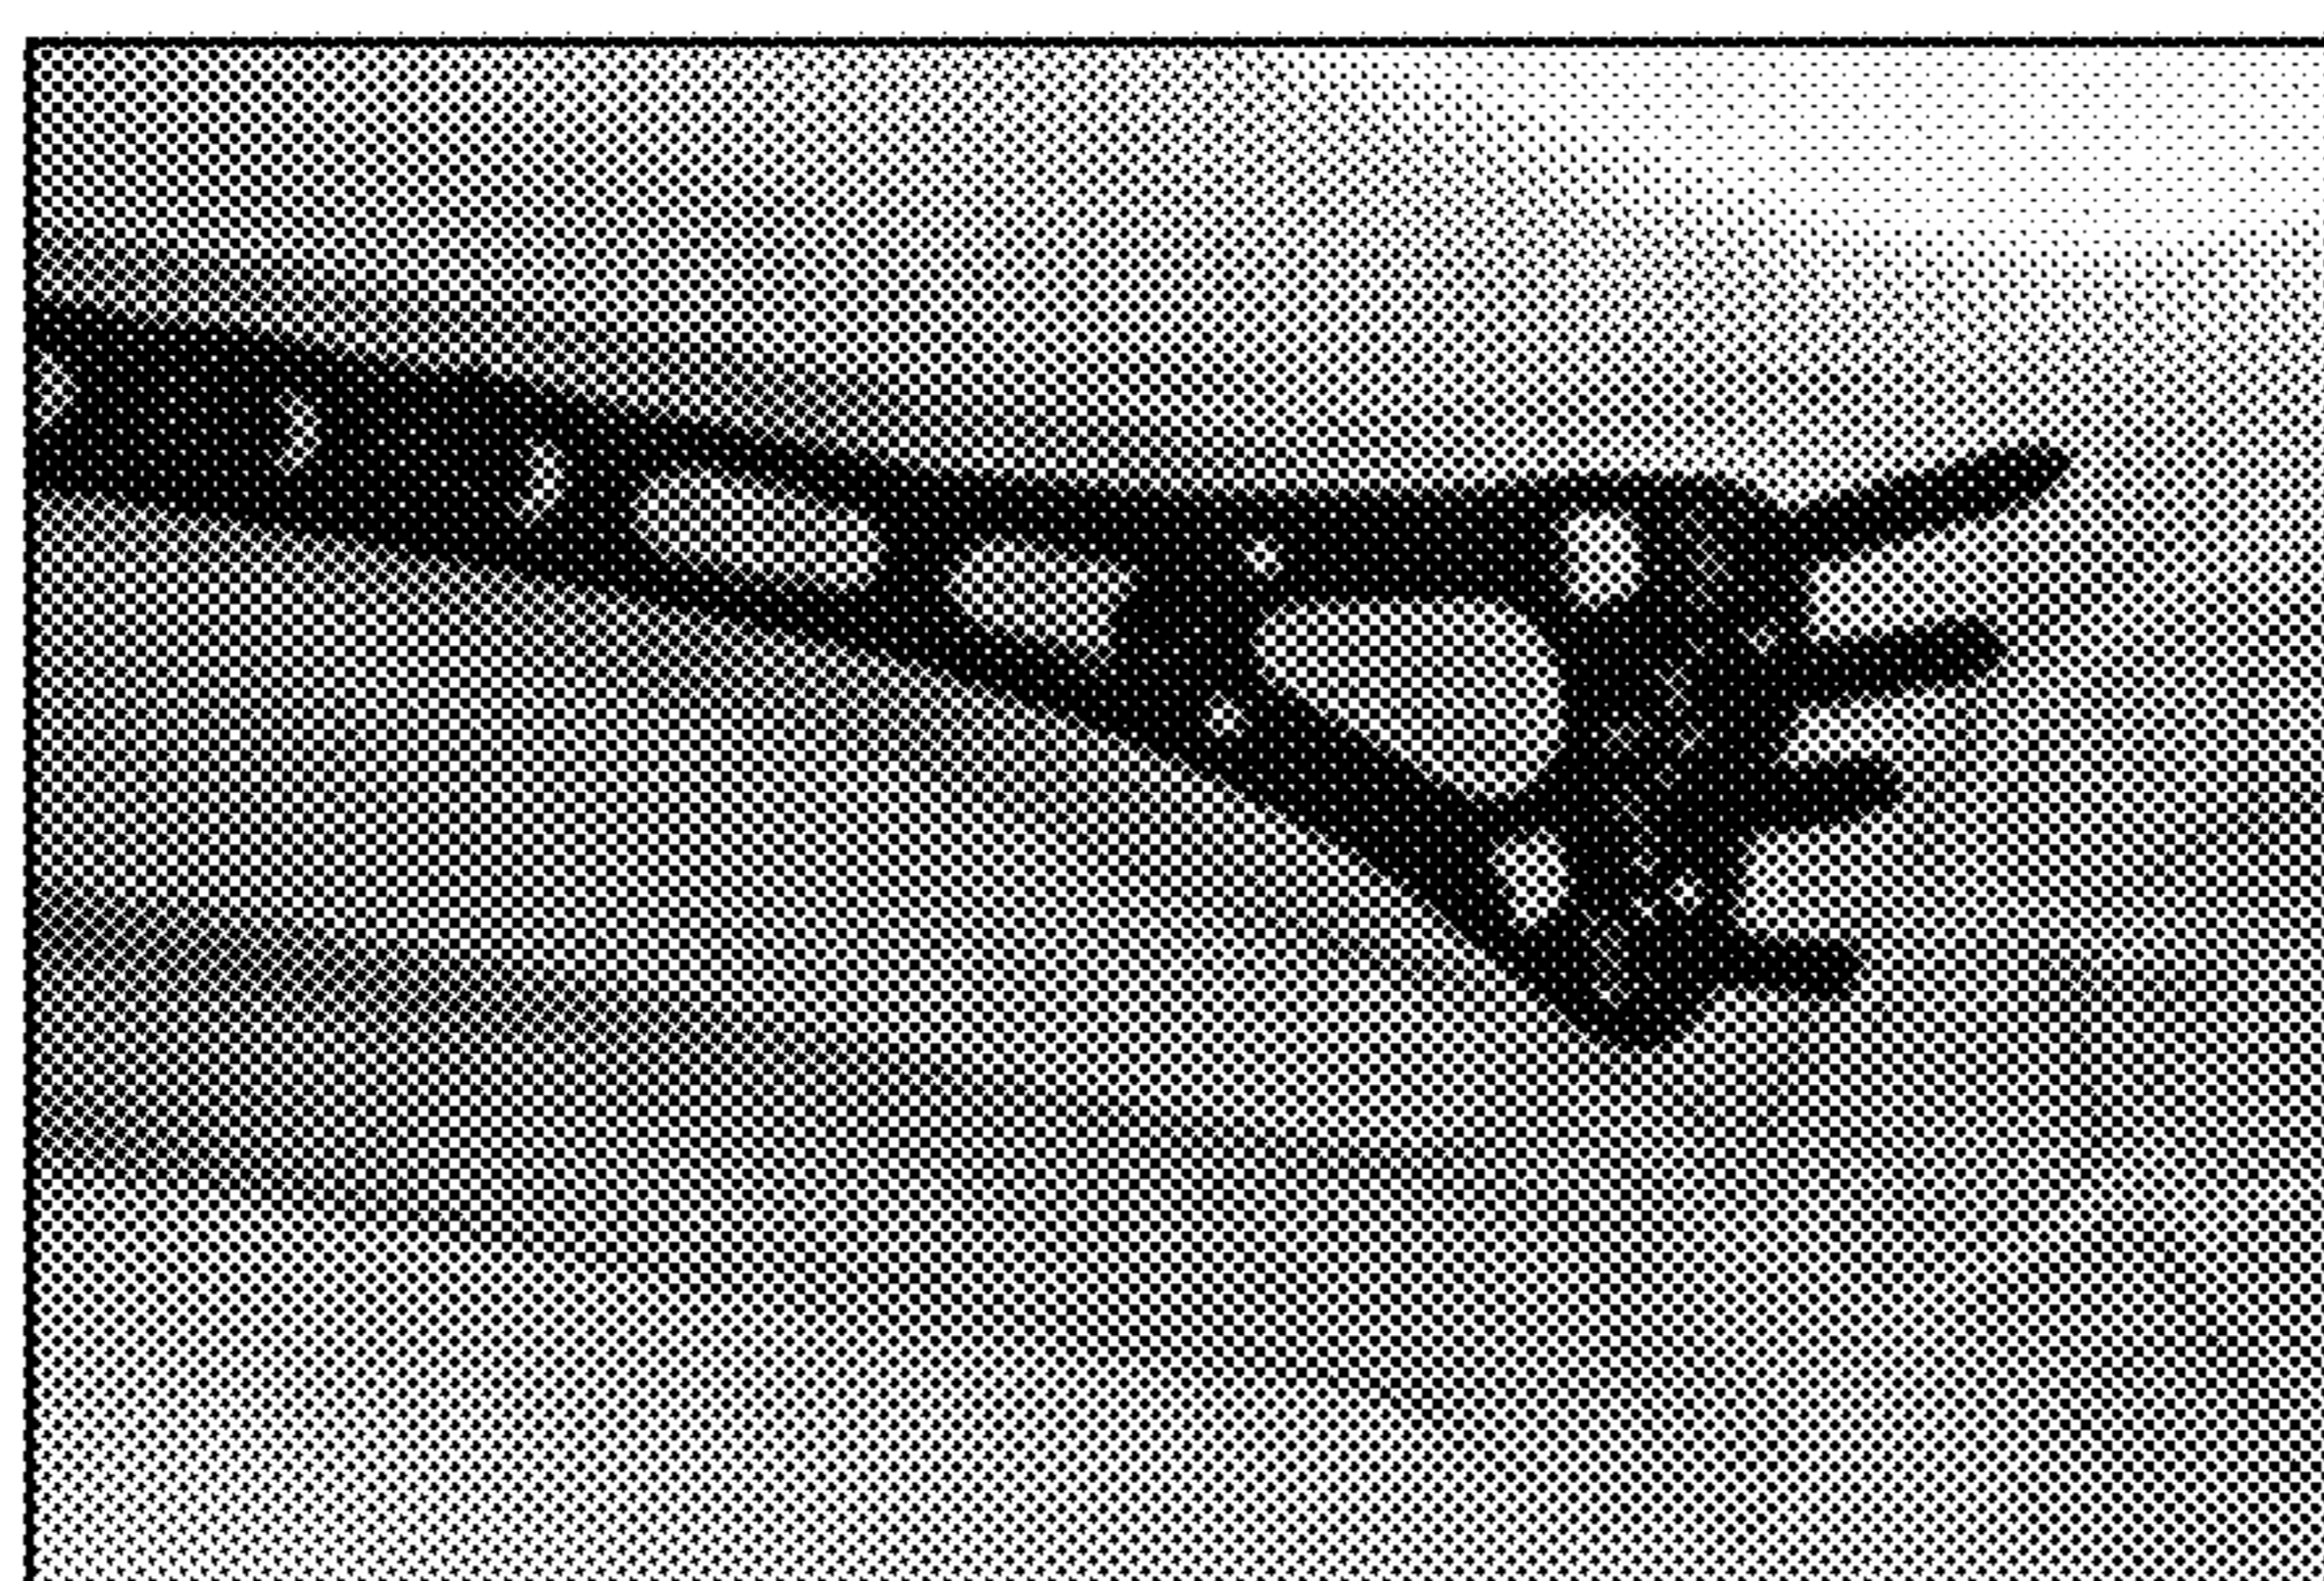

FIG. 1 is a front view of a display screen with a graphical user interface with an image of a medical implant, showing a first image in a sequence; and,

FIG. 2 is a front view of a display screen with graphical user interface with an image of a medical implant, showing a second image in a sequence.

The subject matter of FIGS. 1 and 2 includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
