(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

**DESCRIPTION**

A portion of the disclosure of this patent document contains material to which a claim for copyright and trademark is made. The copyright and trademark owner has no objection to the reproduction of the patent document of the patent disclosure, as it appears in the U.S. Patent Office records, but reserves all other copyright and trademark rights whatsoever.

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front elevational view of a first embodiment of a display screen or portion thereof with graphical user interface.

FIG. 2 is a front elevational view of a second embodiment of a display screen or portion thereof with graphical user interface.

FIG. 3 is a front elevational view of a third embodiment of a display screen or portion thereof with graphical user interface.

FIG. 4 is a front elevational view of a fourth embodiment of a display screen or portion thereof with graphical user interface.

FIG. 5 is a front elevational view of a fifth embodiment of a display screen or portion thereof with graphical user interface.

FIG. 6 is a front elevational view of a sixth embodiment of a display screen or portion thereof with graphical user interface; and,

FIG. 7 is a front elevational view of a seventh embodiment of a display screen or portion thereof with graphical user interface.

The broken lines showing portions of the display screen and the graphical user interface are for environmental purposes only and form no part of the claimed design.
