(57) **CLAIM**

We claim the ornamental design for a display screen, or portion thereof, with a transitional user interface search component, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyright rights whatsoever.

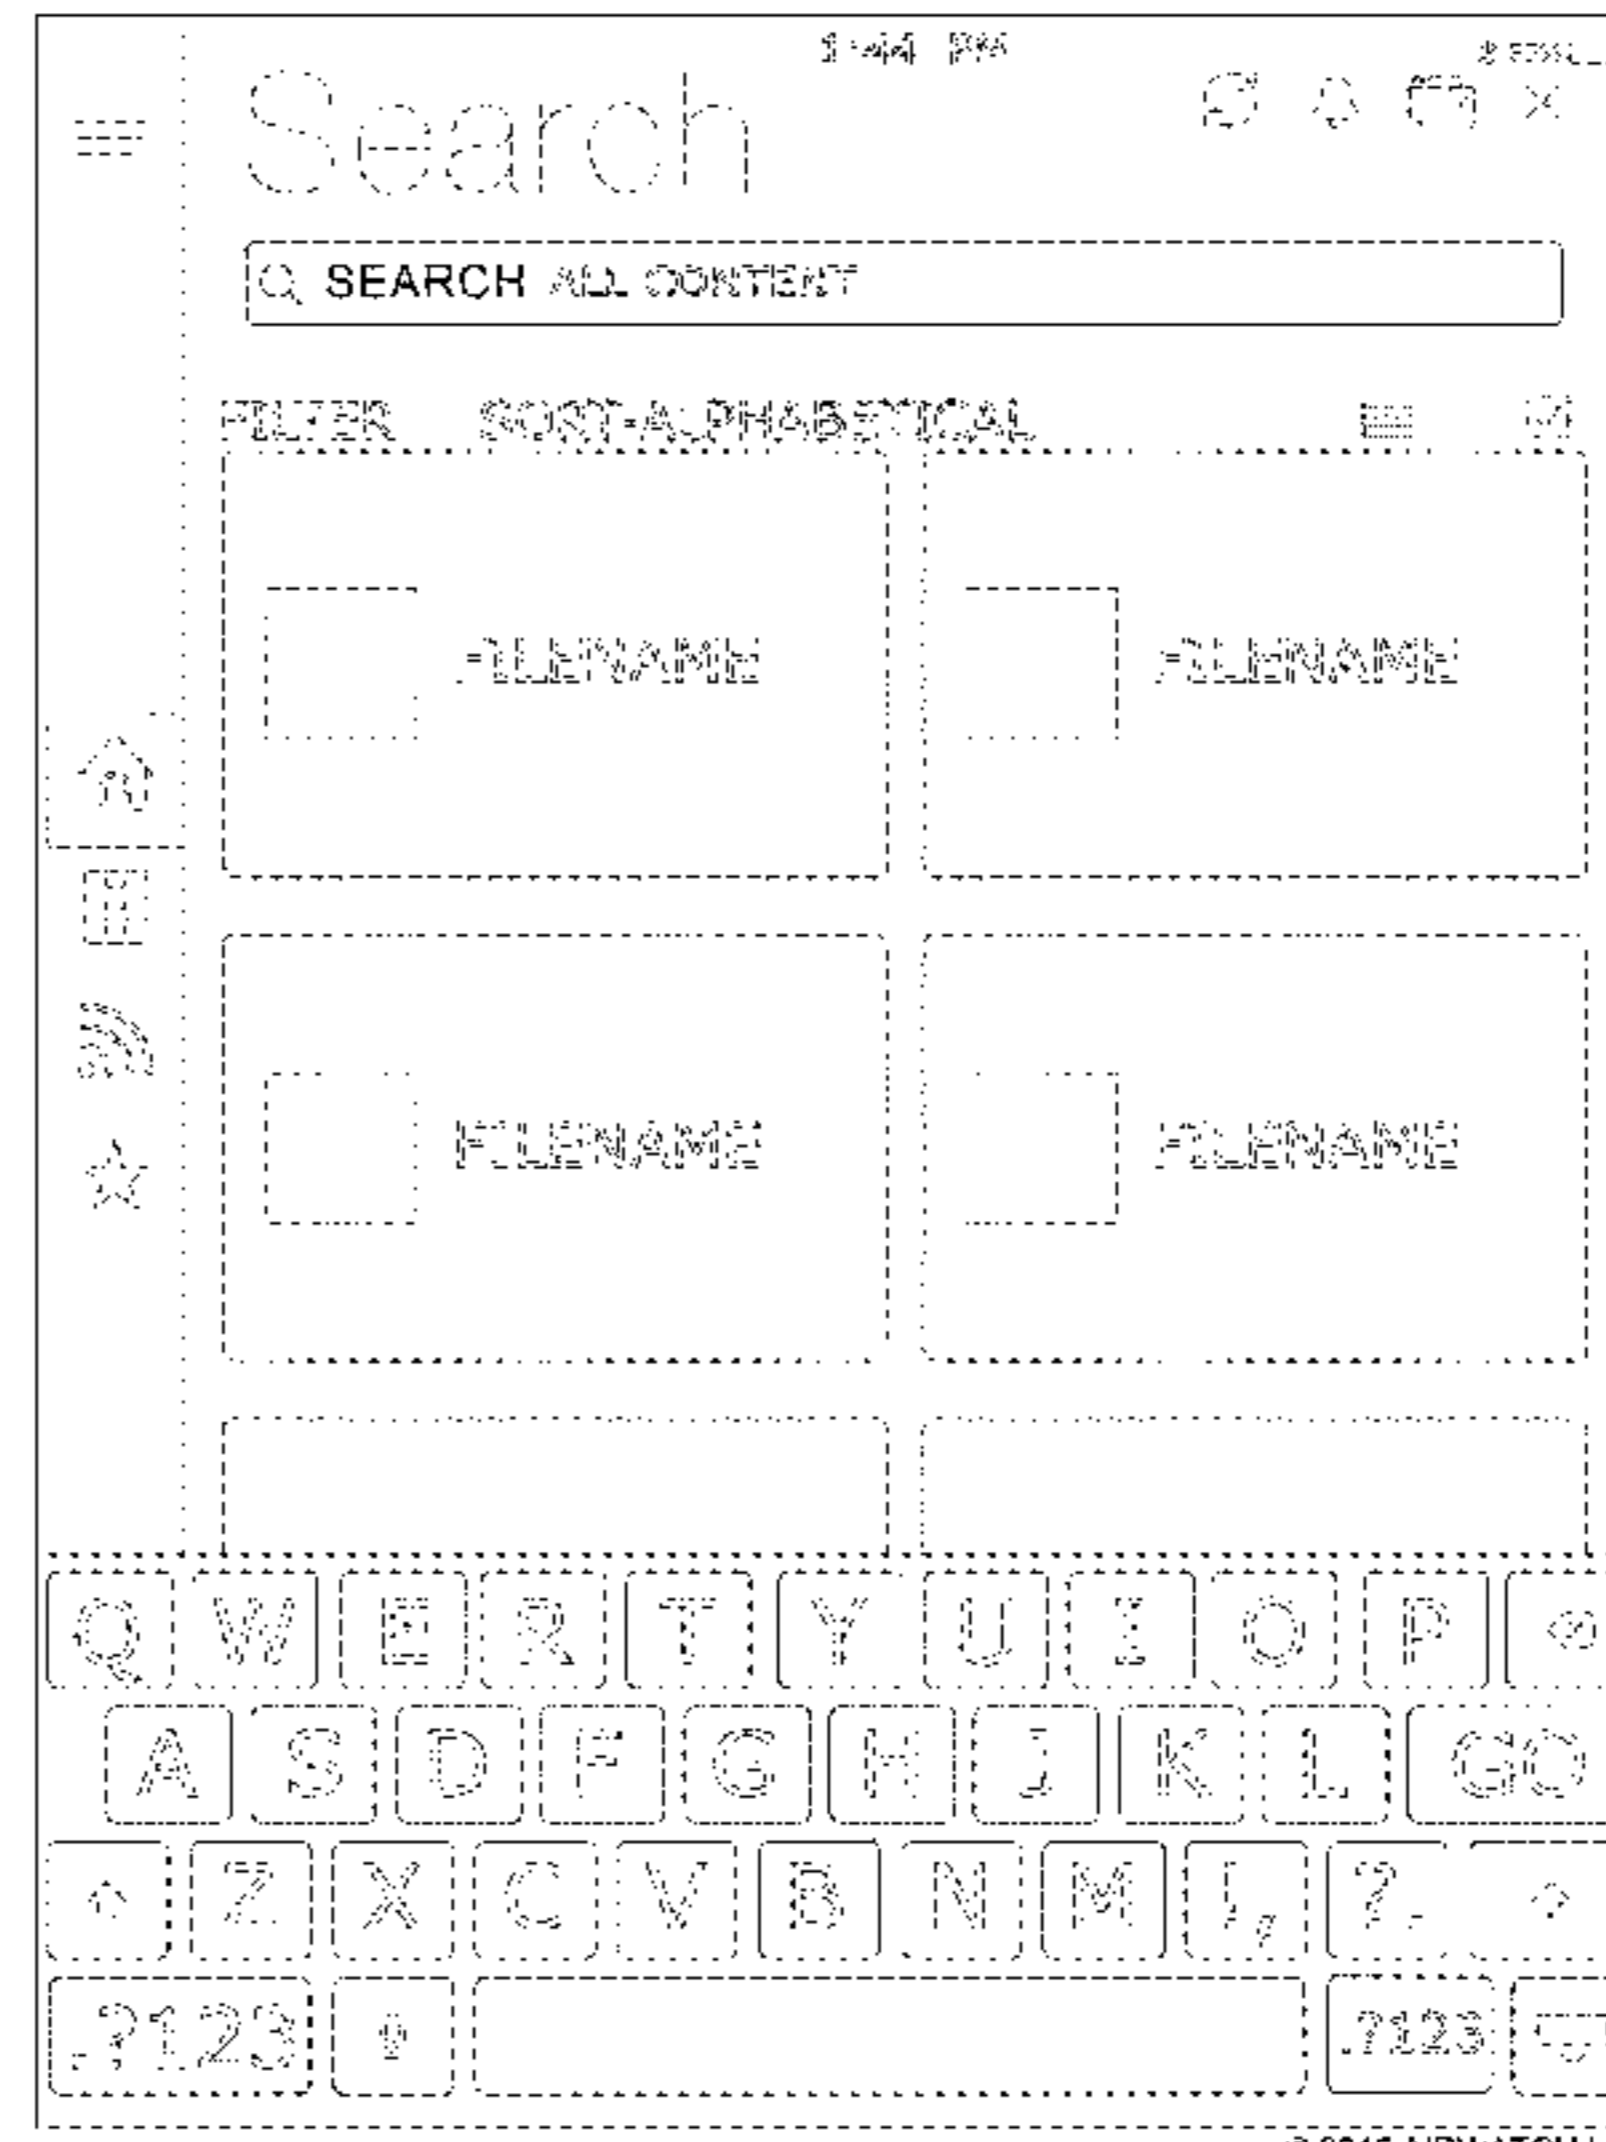

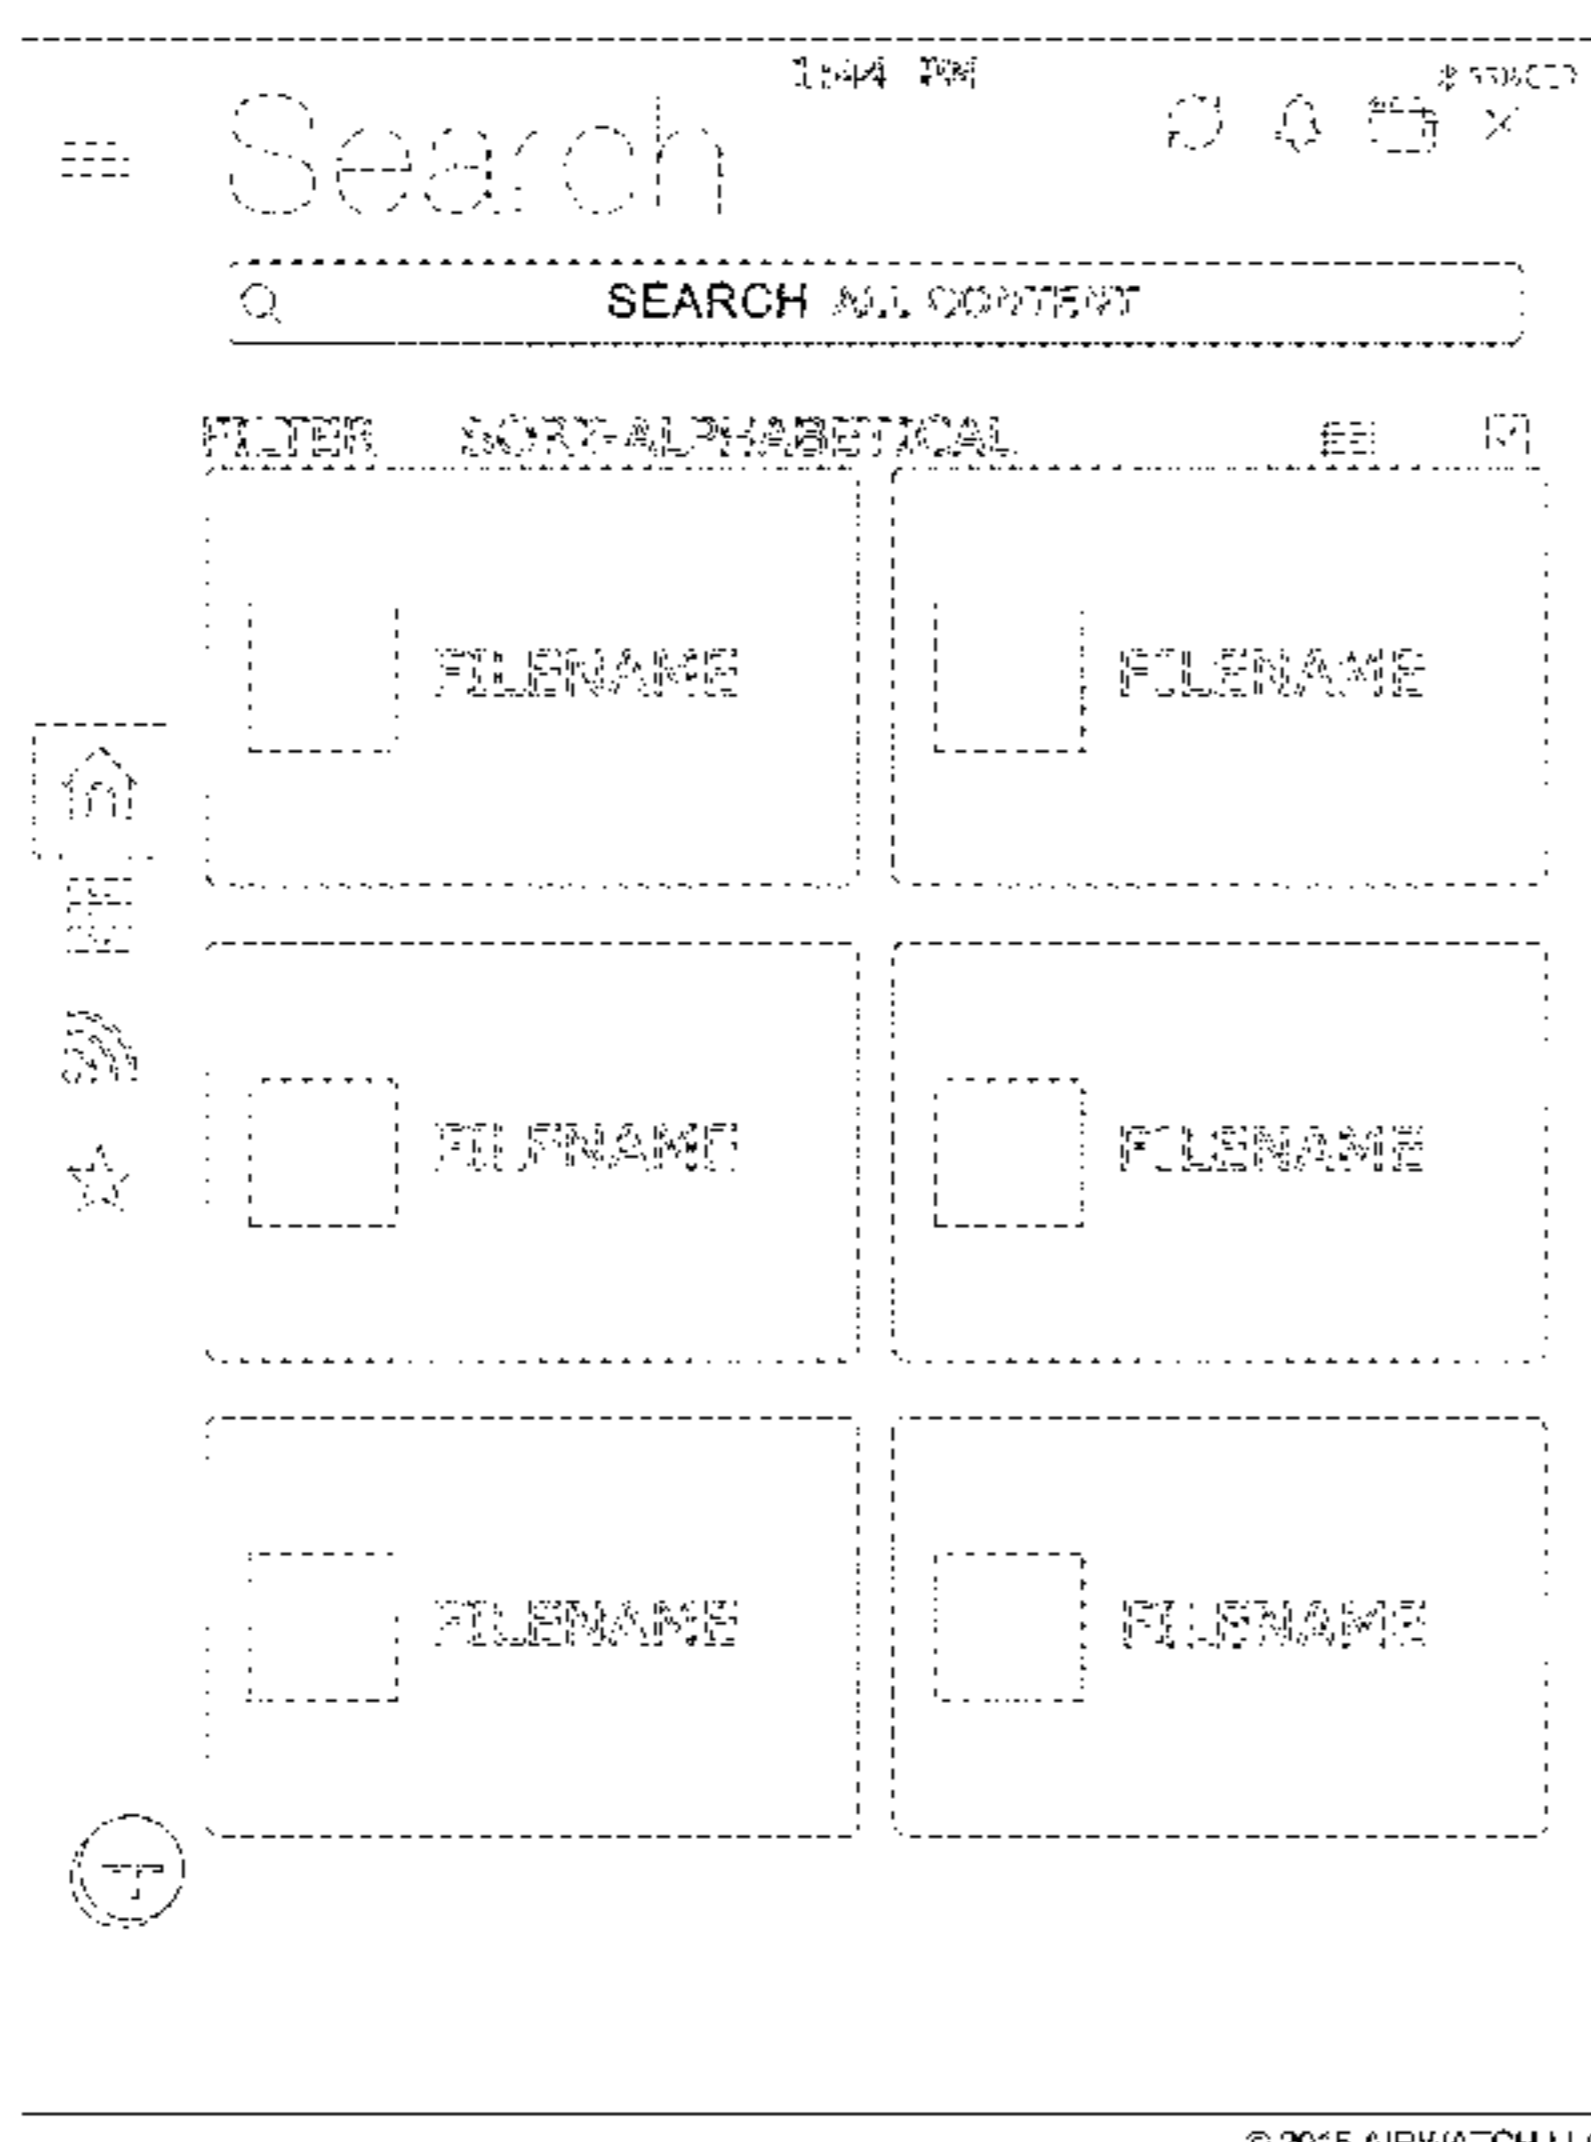

FIG. 1 is the first image in a sequence for a display screen, or portion thereof, with a transitional user interface search component showing a first embodiment of the new design; FIG. 2 is a second image thereof;

FIG. 3 is the first image in a sequence for a display screen, or portion thereof, with a transitional user interface search component showing a second embodiment of the new design; and,

FIG. 4 is the second image thereof.

The appearance of the transitional graphical user interface sequentially transitions between the images shown in FIGS. 1-2 and FIGS. 3-4. The process or period in which one image transitions to another forms no part of the claimed design. The broken line showing of the text, the remainder of the user interface, and of the device is for environmental purposes only and forms no part of the claimed design.
