(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface, showing the new design. The outermost rectangular broken line showing of the display screen forms no part of the claimed design. Tick marks around and within the circular dial do form part of the claimed design. All other broken lines showing portions of the graphical user interface form no part of the claimed design.
