Primary Examiner — Barbara Fox*Assistant Examiner* — Kristin E Reed(74) *Attorney, Agent, or Firm* — Gokalp Bayramoglu(57) **CLAIM**

The ornamental design for a display screen of a wearable device with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the first image in a sequence for a display screen of a wearable device with graphical user interface showing our new design;

FIG. 2 is a front view of the second image in the sequence for the display screen of the wearable device with graphical user interface;

FIG. 3 is a front view of the second image in the sequence for the display screen of the wearable device with graphical user interface in a usage condition;

FIG. 4 is a front view of the third image in the sequence for the display screen of the wearable device with graphical user interface;

FIG. 5 is a front view of the third image in the sequence for the display screen of the wearable device with graphical user interface in a usage condition;

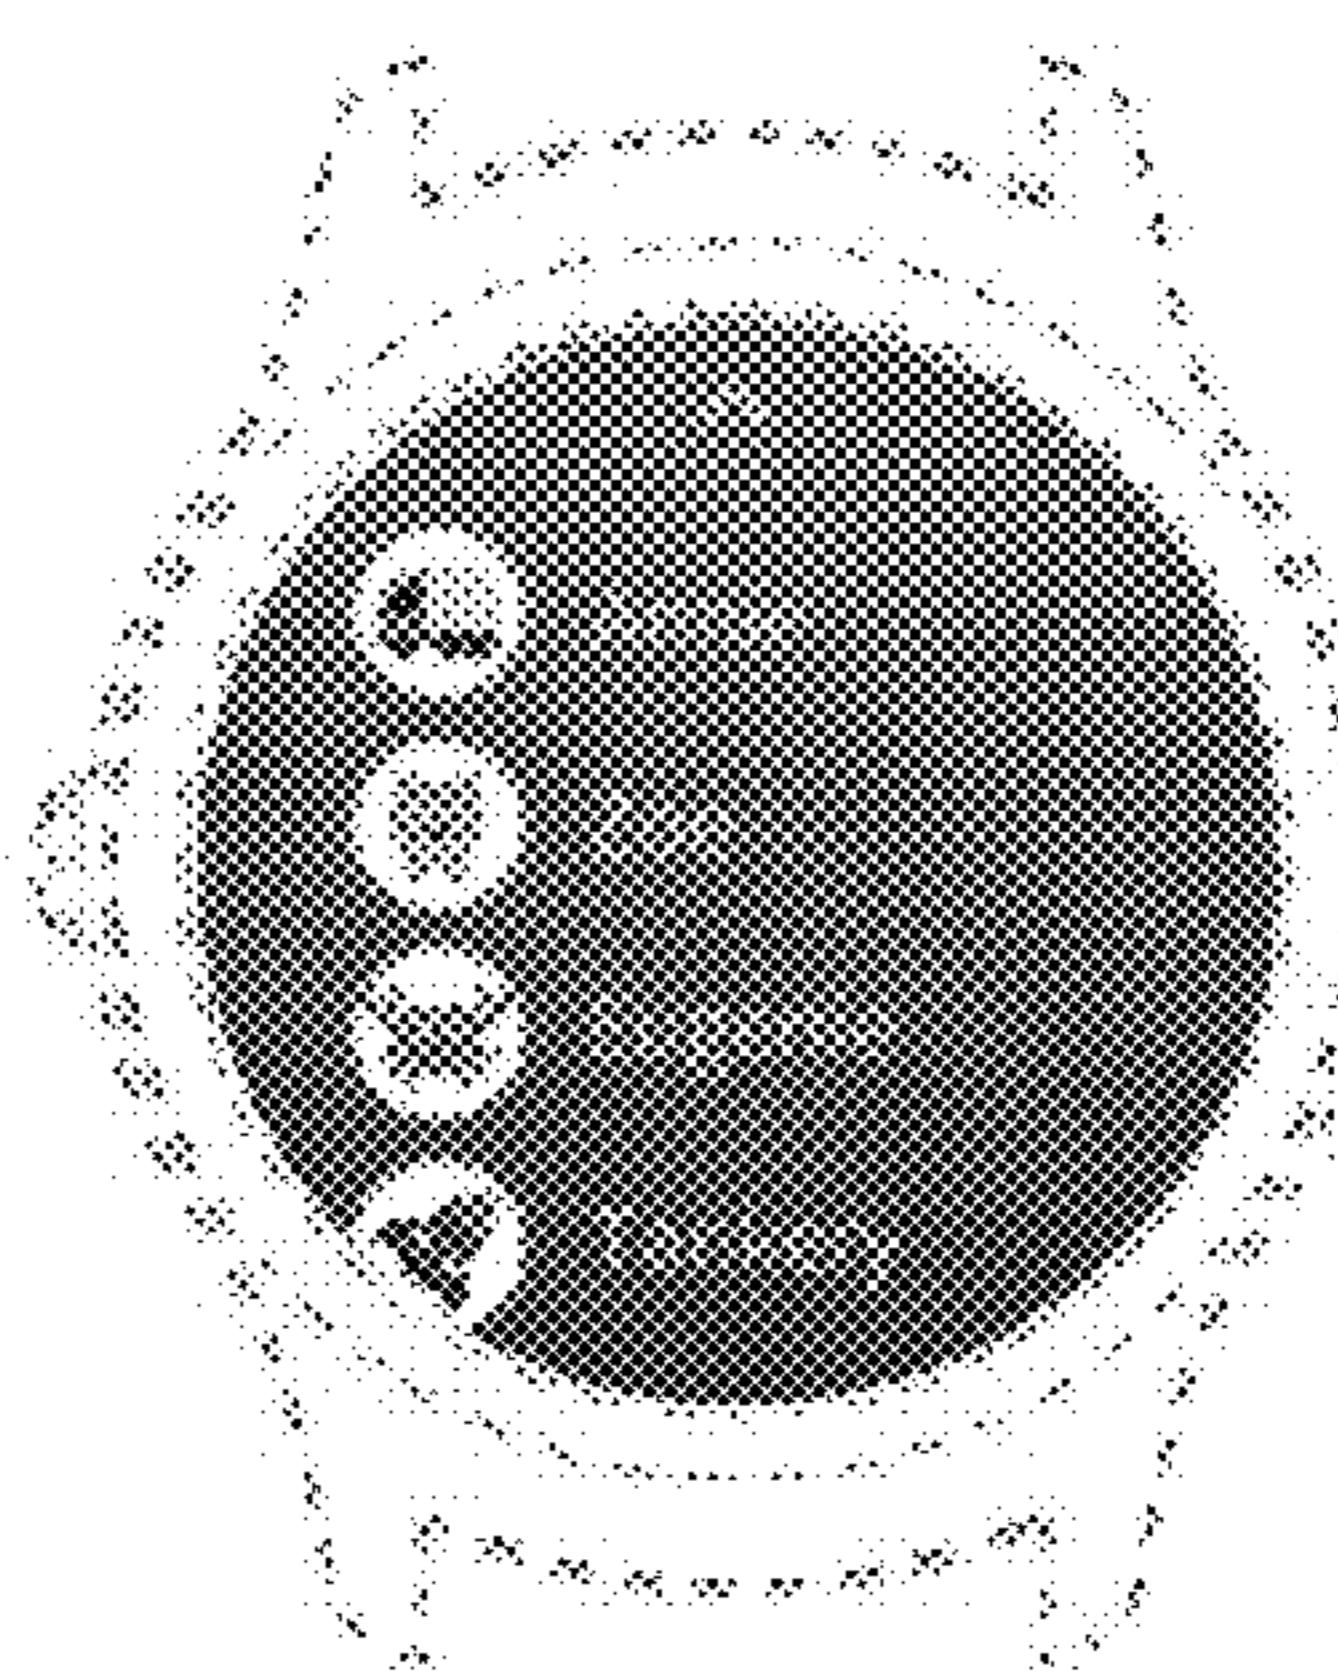

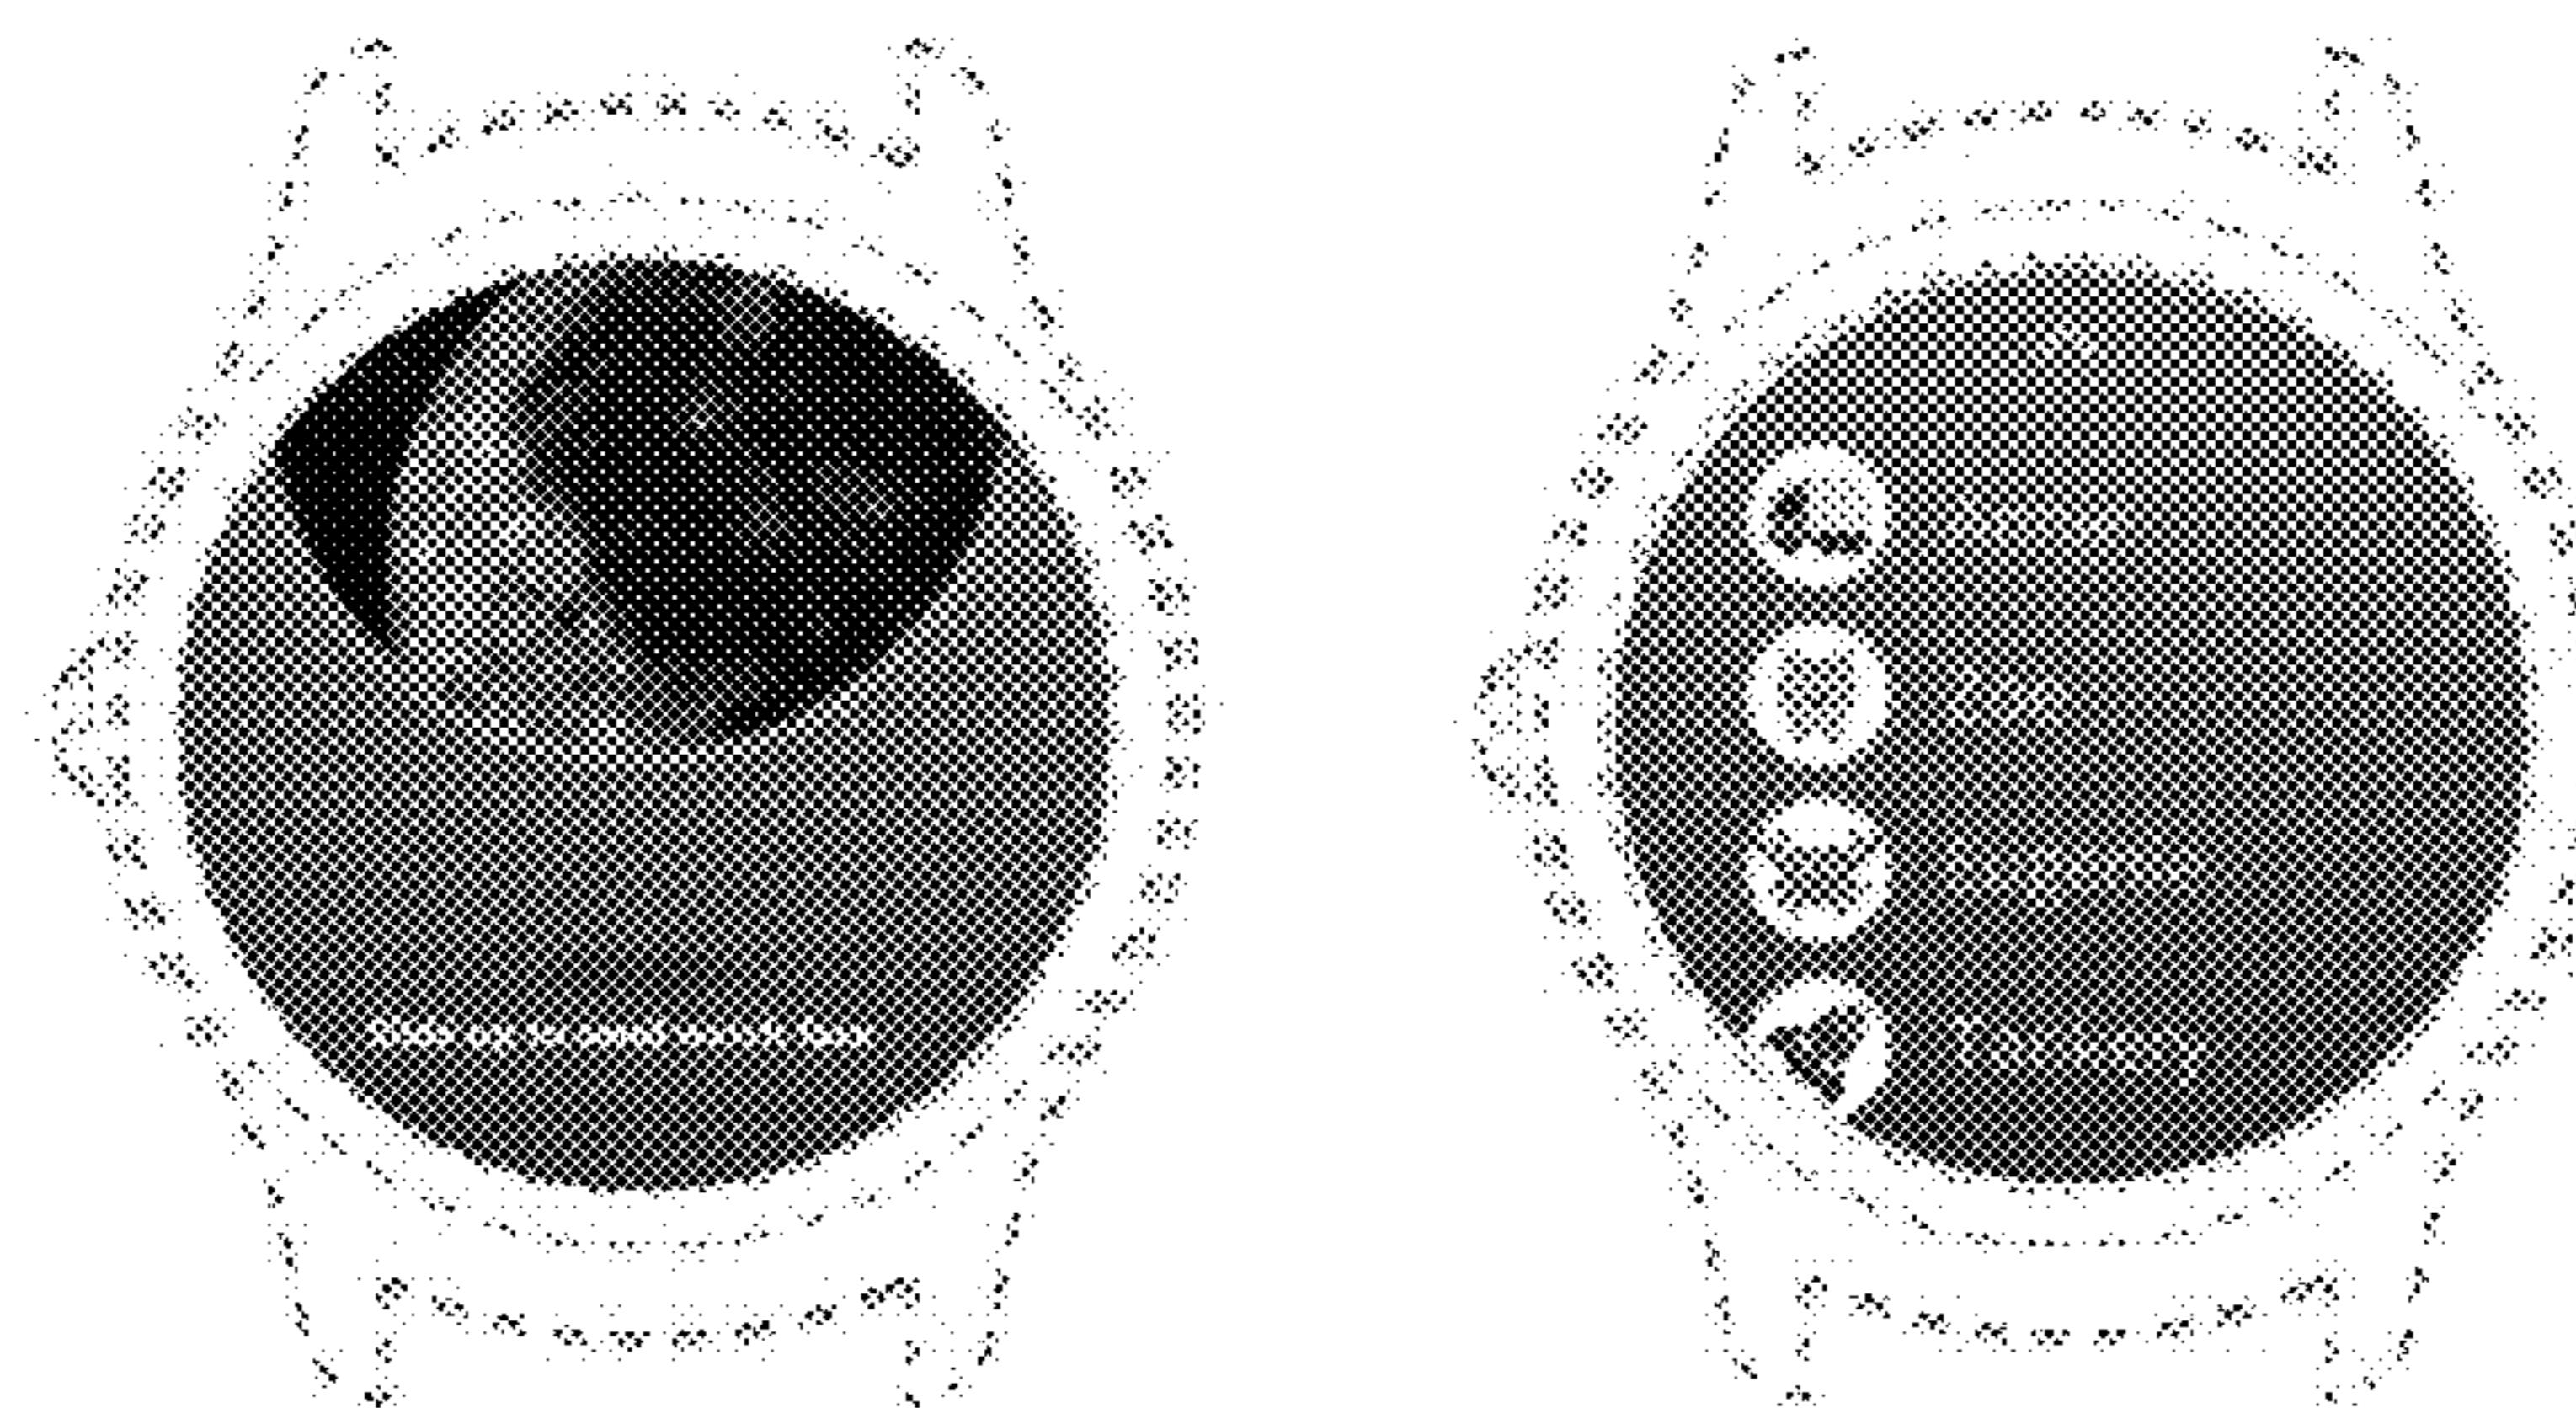

FIG. 6 is a front view of the fourth image in the sequence for the display screen of the wearable device with graphical user interface;

FIG. 7 is a front view of the fifth image in the sequence for the display screen of the wearable device with graphical user interface;

FIG. 8 is a front view of the sixth image in the sequence for the display screen of the wearable device with graphical user interface; and,

FIG. 9 is a front view of the seventh image in the sequence for the display screen of the wearable device with graphical user interface.

(Continued)

The subject matter in this application includes a process or period in which an image changes into another image. The process or period forms no part of the claimed design. The broken lines shown in the drawings depict portions of the display screen of a wearable device with graphical user interface that form no part of the claimed design.
