FIG. 1 is a front perspective view of a water detection assembly having a water detection housing;
FIG. 2 is a front perspective view of the water detection assembly having a water detection housing;
FIG. 3 is a back perspective view of the water detection assembly having a water detection housing;
FIG. 4 is a front elevational view of the water detection assembly having a water detection housing;
FIG. 5 is a back elevational view of the water detection assembly having a water detection housing;
FIG. 6 is a right side elevational view of the water detection assembly having a water detection housing;
FIG. 7 is a left side elevational view of the water detection assembly having a water detection housing;
FIG. 8 is a top plan view of the water detection assembly having a water detection housing; and,
FIG. 9 is a bottom pan view of the water detection assembly having a water detection housing.
Phantom lines, where utilized, are for illustrative purposes only and form no part of the claimed design.
