(57) **CLAIM**

I claim the ornamental design for a “payload enclosure,” as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a payload enclosure;  
FIG. 2 is a rear perspective view of the payload enclosure  
shown in FIG. 1;

FIG. 3 is a top plan view of the payload enclosure shown in  
FIG. 1;

FIG. 4 is a bottom plan view of the payload enclosure shown  
in FIG. 1;

FIG. 5 is a front elevation view of the payload enclosure  
shown in FIG. 1;

FIG. 6 is a side elevation view of the payload enclosure  
shown in FIG. 1, wherein the non-illustrated opposite side  
elevation view of the payload enclosure is a mirror image of  
the illustrated side of the payload enclosure shown in FIG.  
6;

FIG. 7 is a front perspective view of another embodiment of  
a payload enclosure;

FIG. 8 is a rear perspective view of the payload enclosure  
shown in FIG. 7;

FIG. 9 is a top plan view of the payload enclosure shown in  
FIG. 7;

FIG. 10 is a bottom plan view of the payload enclosure  
shown in FIG. 7;

FIG. 11 is a front elevation view of the payload enclosure  
shown in FIG. 7;

FIG. 12 is a side elevation view of the payload enclosure  
shown in FIG. 7, wherein the non-illustrated opposite side  
of the payload enclosure is a mirror image of the illustrated  
side of the payload enclosure shown in FIG. 12;

FIG. 13 is a front perspective view of a further embodiment  
of a payload enclosure;

FIG. 14 is a rear perspective view of the payload enclosure  
shown in FIG. 13;

FIG. 15 is a top plan view of the payload enclosure shown  
in FIG. 13;

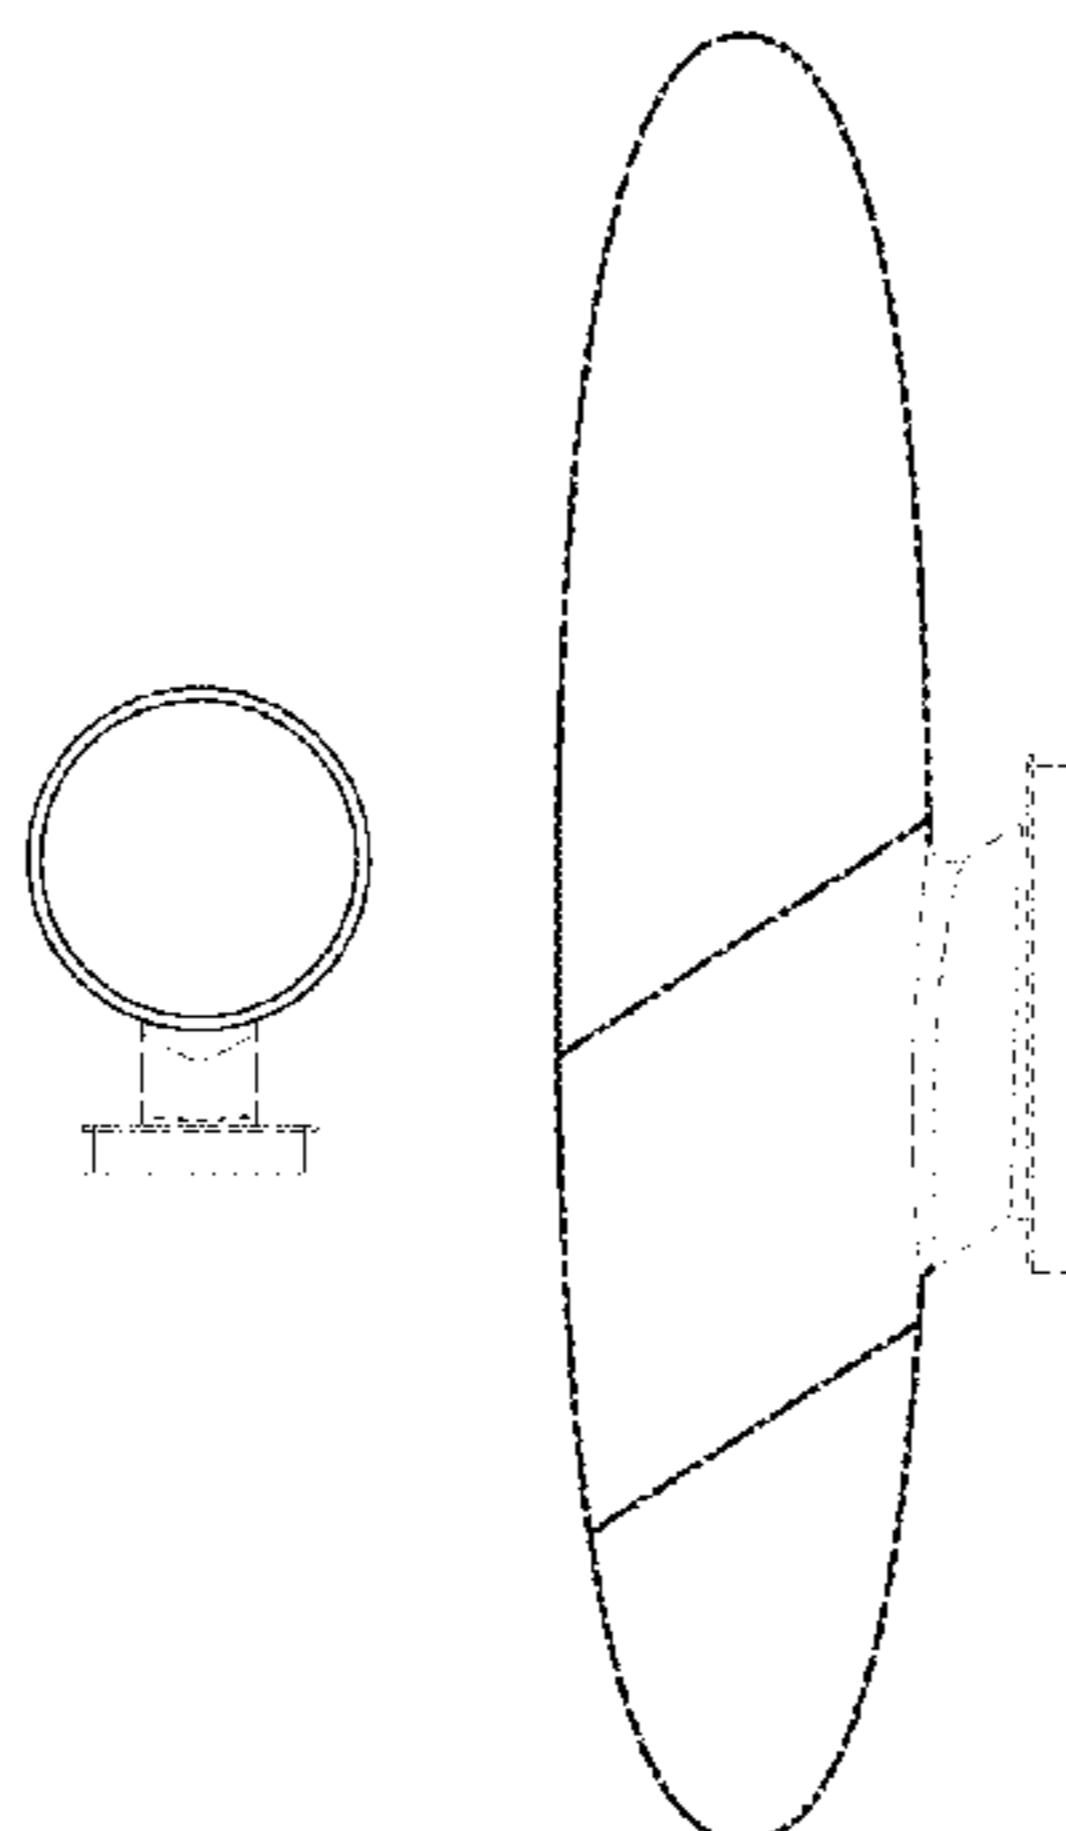

FIG. 16 is a bottom plan view of the payload enclosure  
shown in FIG. 13;

FIG. 17 is a front elevation view of the payload enclosure  
shown in FIG. 13; and,

FIG. 18 is a side elevation view of the payload enclosure  
shown in FIG. 13, wherein the non-illustrated opposite side  
of the payload enclosure is a mirror image of the illustrated  
side of the payload enclosure shown in FIG. 18.

The straight parallel shade lines in FIGS. 7 to 18 represent  
opaque material. The short curved shade lines in FIGS. 7 to  
18 represent transparent material.

(Continued)

The broken lines are only for illustrative purposes to show visible environmental structure and form no part of the claimed invention.
