(57) **CLAIM**

The ornamental design for a display screen or portion thereof with a credit score simulation interface, as shown and described.

DESCRIPTION

FIG. **1** is a front view of an embodiment of a display screen or portion thereof with a credit score simulation interface showing a first image of the new design;
FIG. **2** is a second image thereof;
FIG. **3** is a third image thereof;
FIG. **4** is a fourth image thereof;
FIG. **5** is a fifth image thereof; and,
FIG. **6** is a sixth image thereof.
The appearance of the transitional image sequence transitions between the images shown in FIGS. **1**-**6**. The process or period in which one image transitions to another image forms no part of the claimed design.
The peripheral broken line depicted in FIGS. **1**-**6** and showing of the display screen or portion thereof is included for the purpose of illustrating environment structure and forms no part of the claimed design. All other broken lines depicted in FIGS. **1**-**6** form no part of the claimed design.

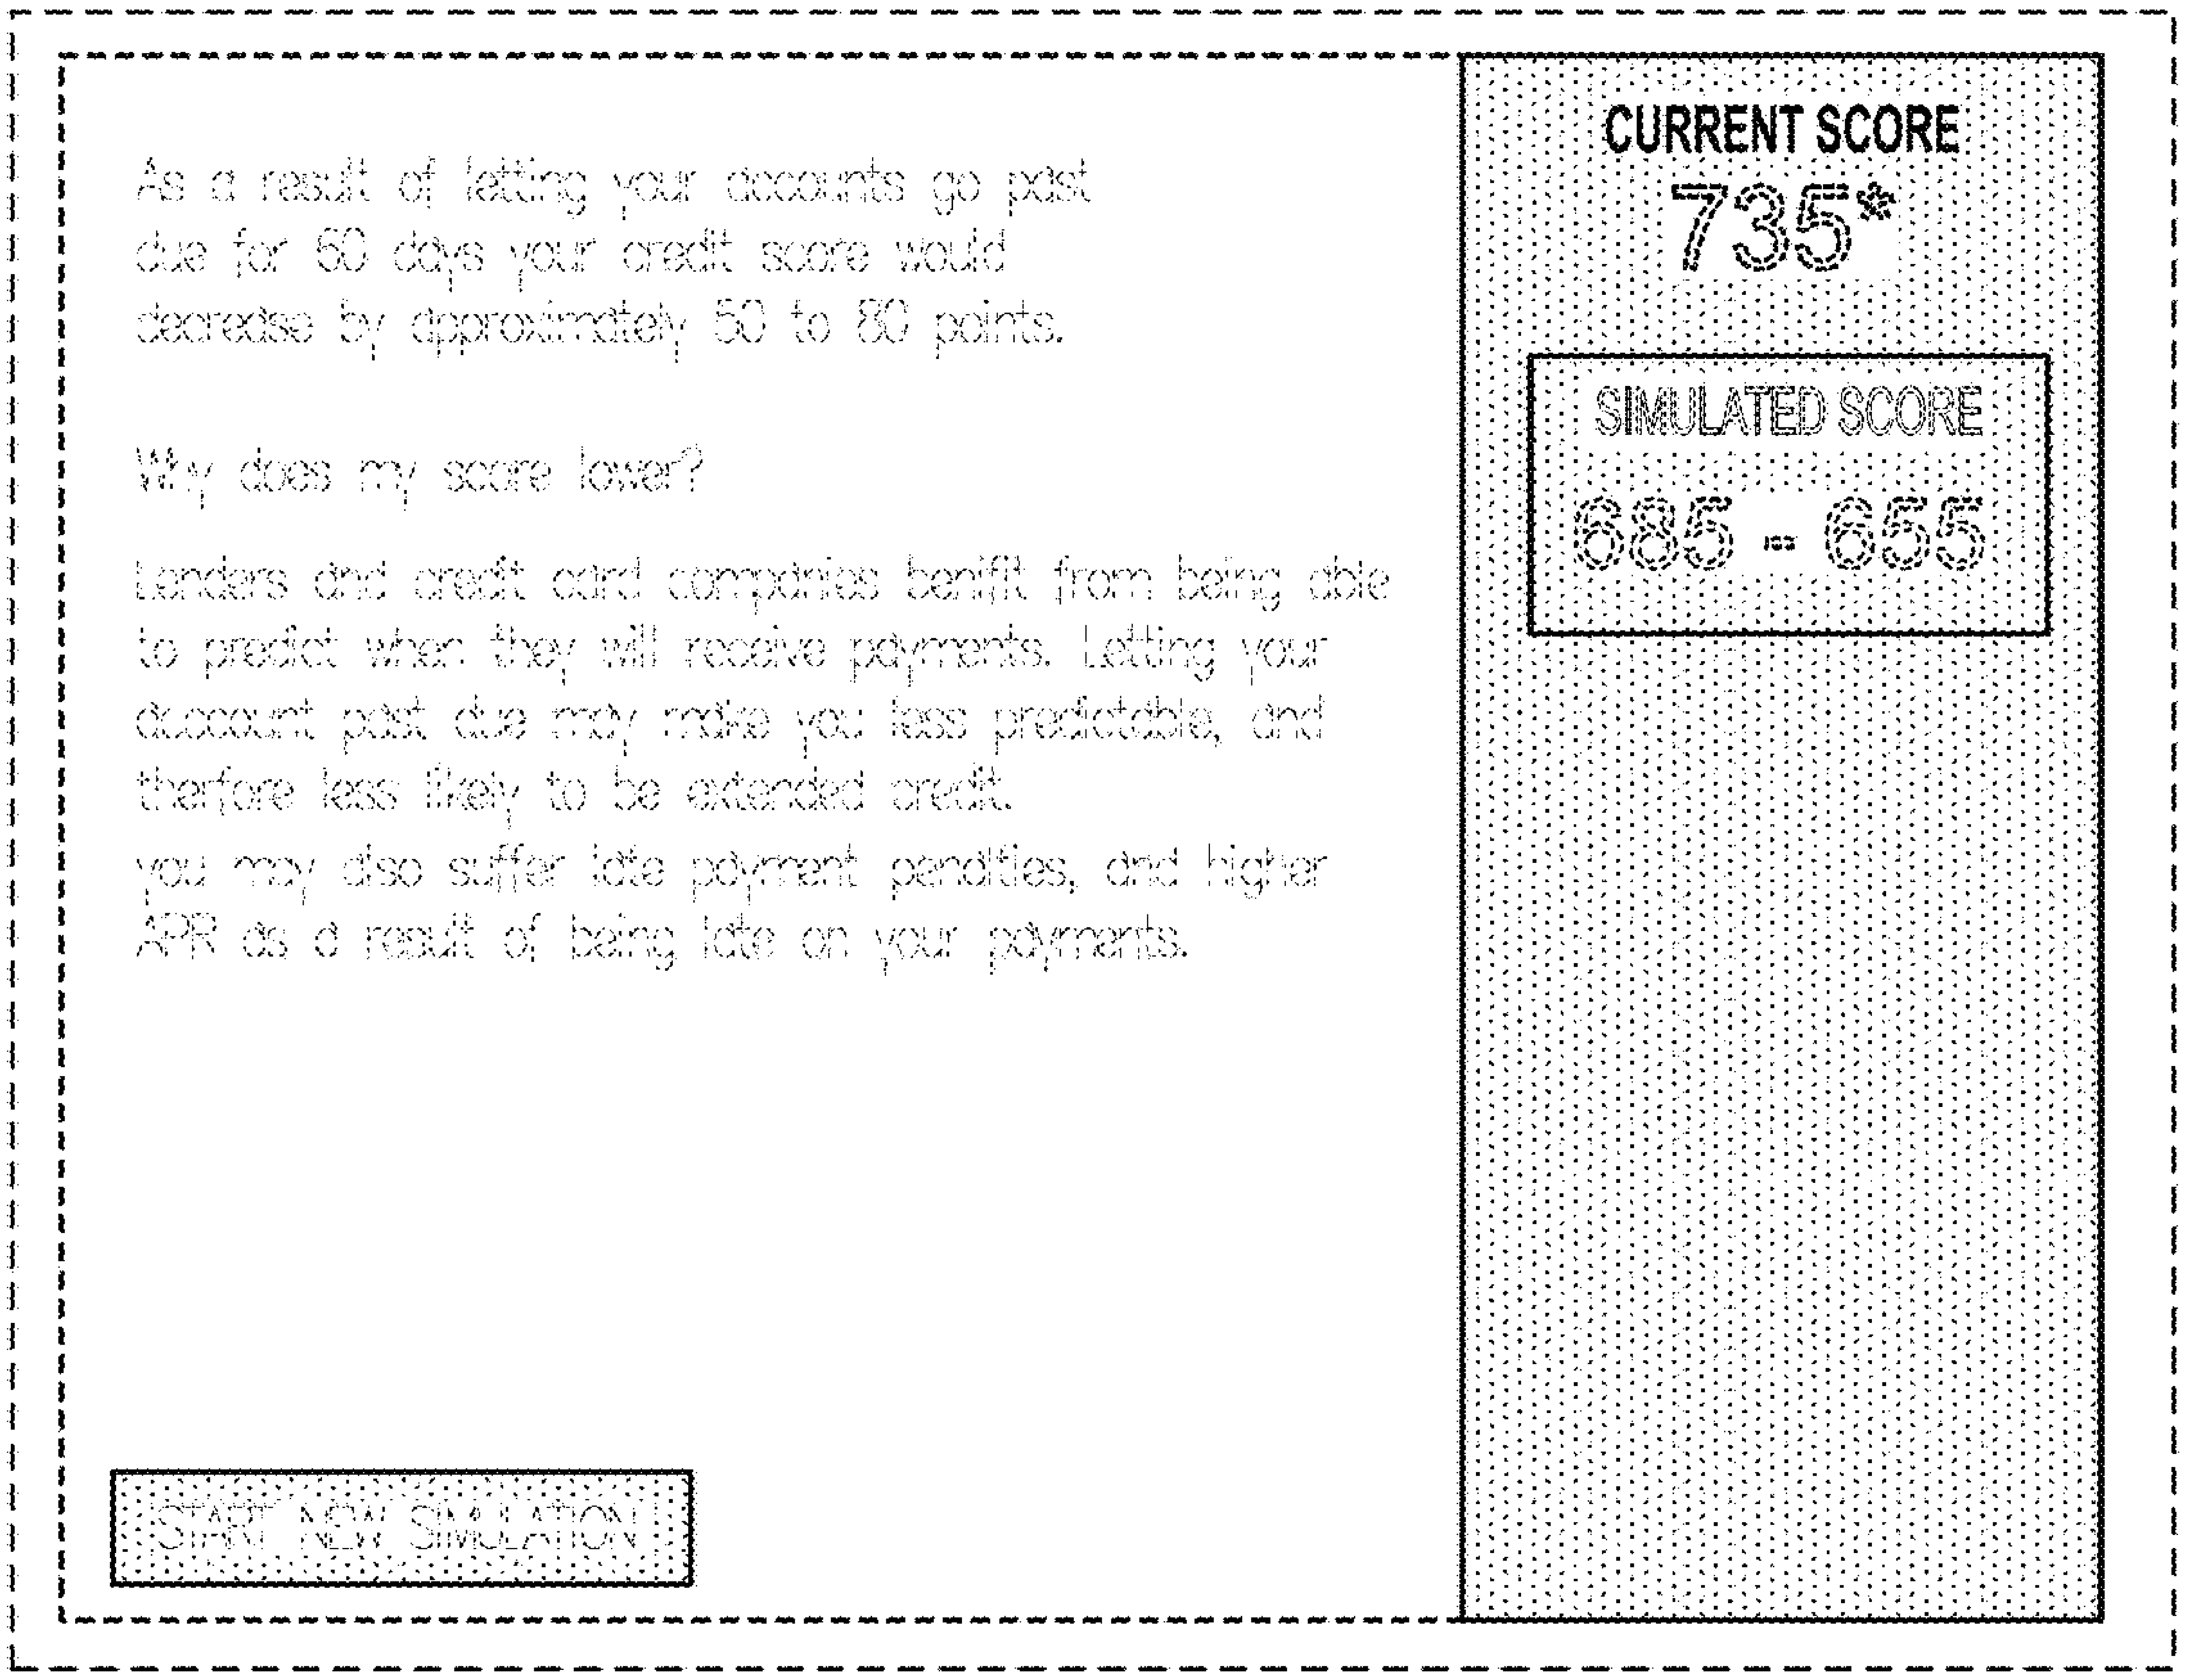
FIG. 5



As a result of letting your accounts go past
due for 60 days your credit score would
decrease by approximately 50 to 80 points.
Why does my score lower?
Lenders and credit card companies benifit from being able
to predict when they will receive payments. Letting your
account past due may make you less predictable, and
therfore less likely to be extended credit.
you may also suffer late payment penalties, and higher
APR as a result of being late on your payments.
