FIG. 1 is a front view of a display panel or portion thereof with a graphical user interface showing a first image of a sequence of our new design;

FIG. 2 is a front view of a display panel or portion thereof with a graphical user interface showing a second image in the sequence of the design;

FIG. 3 is a front view of a display panel or portion thereof with a graphical user interface showing a third image in the sequence of the design; and,

FIG. 4 is a front view of a display panel or portion thereof with a graphical user interface showing a fourth image in the sequence of the design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-4. The subject matter of the present disclosure includes a process or period during which one computer graphical user interface component changes into another. This process or period forms no part of the claimed design.

The outermost broken line rectangle depicting a display screen or portion thereof is included for the purpose of illustrating portions of the article and forms no part of the claimed design. All other broken lines depicting portions of the graphical user interface form no part of the claimed design.
