(57) **CLAIM**

I claim the ornamental design for a target stand, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the target stand in accordance with the present design, which is shown as a combination of a base assembly (lower two thirds of FIG. 1) with a separate cap member (upper third of FIG. 1). In use, users may deploy a connector post (not shown) between the base assembly and the cap member, and a target may be connected and supported by the cap member.

FIG. 2 is a left side elevational view of the target stand of FIG. 1.

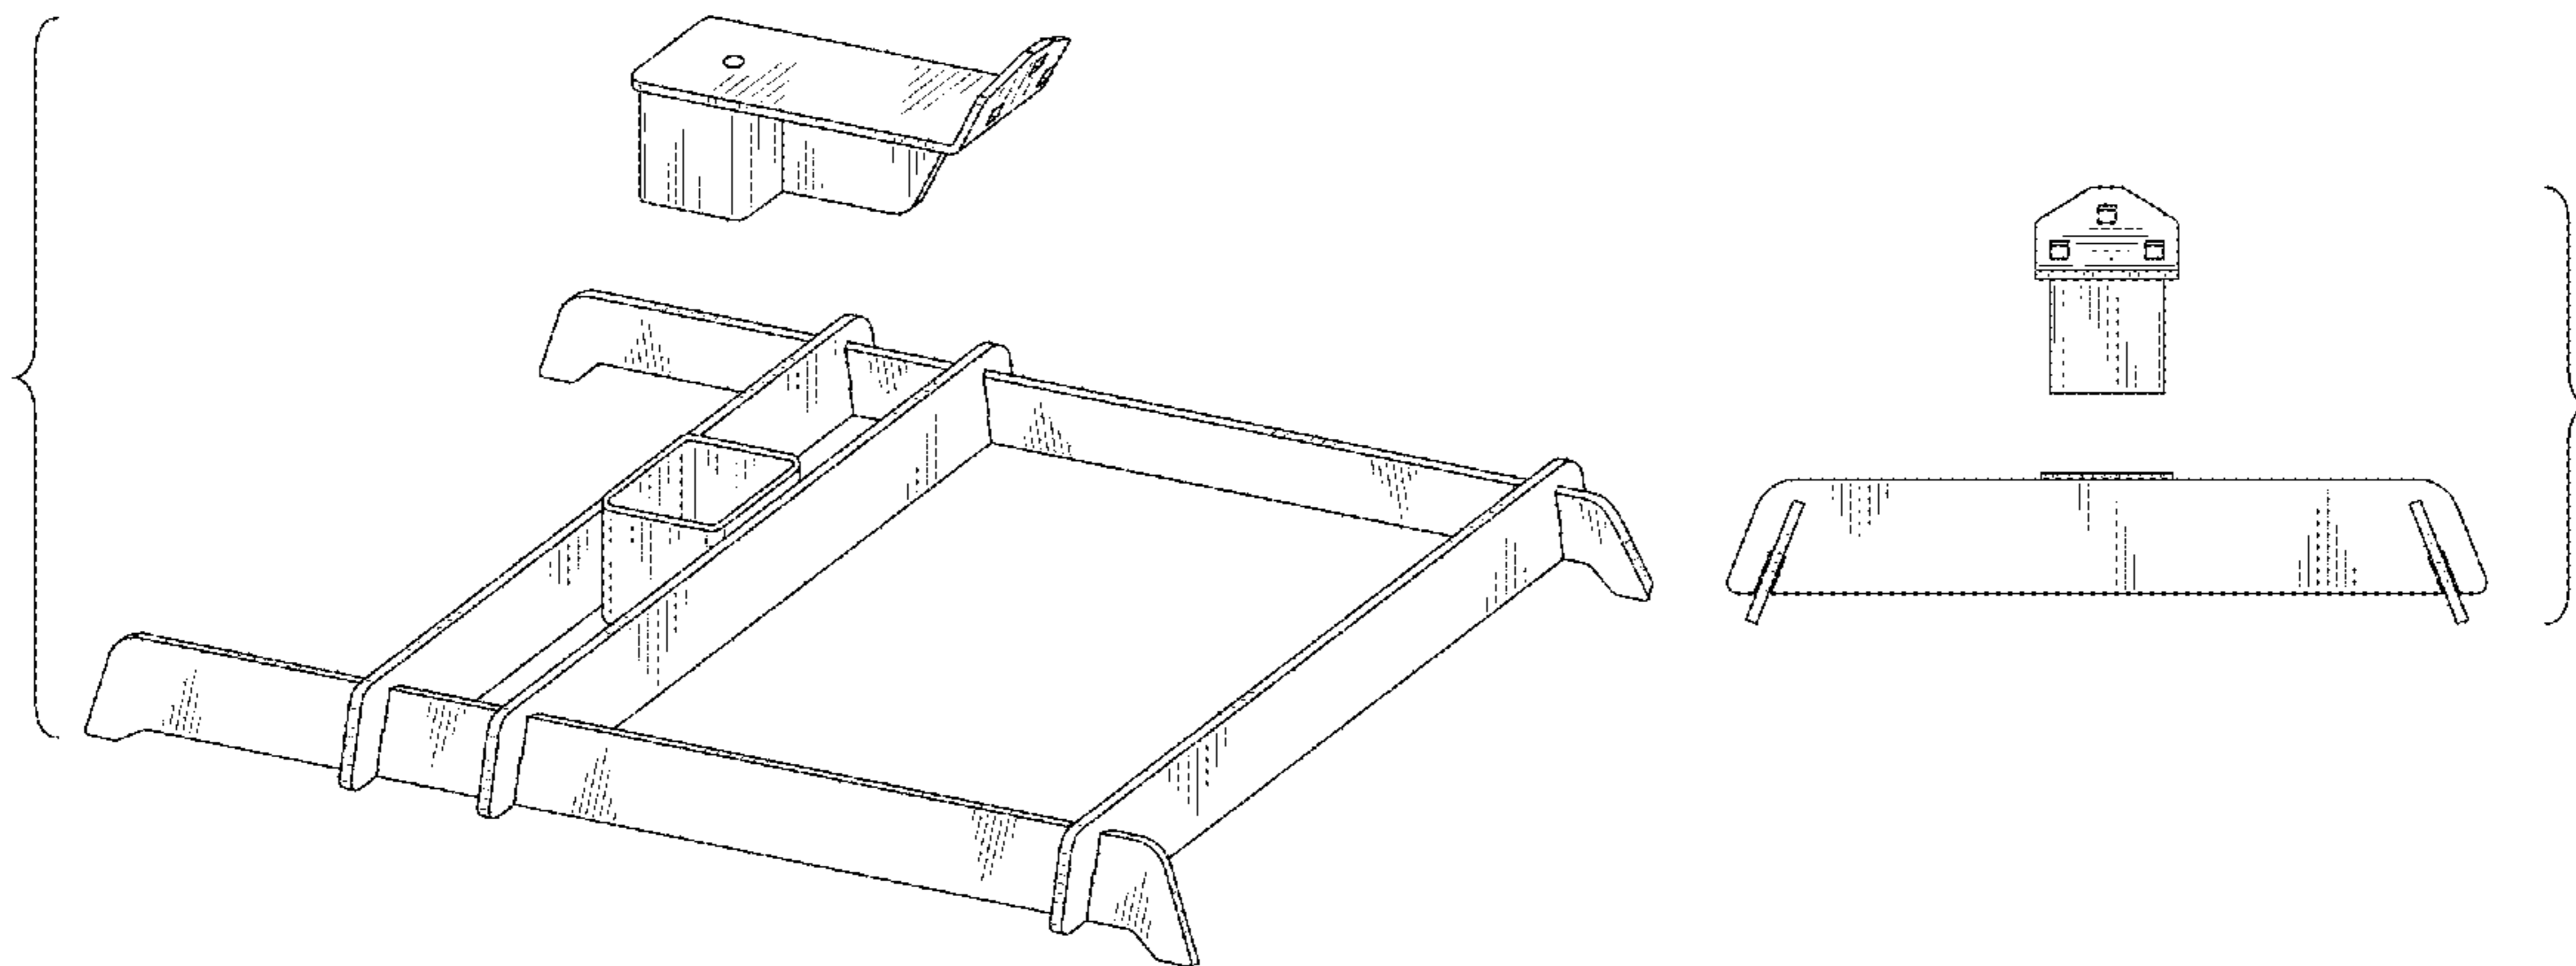

FIG. 3 is a right side elevational view of the target stand of FIG. 1.

FIG. 4 is a front elevational view of the target stand of FIG. 1.

FIG. 5 is a rear elevational view of the target stand of FIG. 1.

FIG. 6 is a top plan view of the target stand of FIG. 1; and, FIG. 7 is a bottom plan view of the target stand of FIG. 1.

1 Claim, 7 Drawing Sheets
