(57) **CLAIM**

The ornamental design for the “surgical port closure device,” as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of the surgical port closure device, showing the handle portion of the surgical port closure device without the needle portion of the surgical port closure device inserted therein.

FIG. 2 is a reduced front view thereof.

FIG. 3 is a reduced rear view thereof.

FIG. 4 is a left side view thereof.

FIG. 5 is a right side view thereof.

FIG. 6 is a top view thereof.

FIG. 7 is a bottom view thereof.

FIG. 8 is a perspective view of a second embodiment of the surgical port closure device, showing the handle portion of the surgical port closure device without the needle portion of the surgical port closure device inserted therein.

FIG. 9 is a reduced front view thereof.

FIG. 10 is a reduced rear view thereof.

FIG. 11 is a left side view thereof.

FIG. 12 is a right side view thereof.

FIG. 13 is a top view thereof; and,

FIG. 14 is a bottom view thereof.

The broken lines depict environmental and non-claimed subject matter and form no part of the claimed design.

1 Claim, 14 Drawing Sheets
