(57) **CLAIM**

The ornamental design for a display device with a finder animation for a user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of the first image in a sequence for a display device with a finder animation for a user interface.

FIG. 2 is a second image thereof.

FIG. 3 is a third image thereof.

FIG. 4 is a fourth image thereof; and,

FIG. 5 is a fifth image thereof.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.

The broken lines showing the display device, text, and portions of the user interface form no part of the claimed design.

The solid black lines and fill in the claimed design show a contrasting appearance.
