(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for controlling an electronic candle, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface for controlling an electronic candle. The outermost broken lines shown in the drawing illustrate a display screen or portion thereof. The remaining broken lines, including the dotted lines illustrating all text and the two icons to the left and right of the slider-like element, illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
