CLAIM

The ornamental design for a pair of garments for applying topical medication to a lower body, as shown and described.

FIG. 1 is a perspective view of a pair of garments for applying topical medication to a lower body showing a first embodiment of the present invention.

FIG. 2 is a front elevation view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 1 in an open configuration.

FIG. 3 is a front elevation view one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 1 in a closed configuration.

FIG. 4 is a rear elevation view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 1 in an open configuration.

FIG. 5 is a rear elevation view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 1 in a closed configuration.

FIG. 6 is a side elevation view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 1 in a closed configuration.

FIG. 7 is a top plan view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 1 in a closed configuration.

FIG. 8 is a bottom plan view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 1 in a closed configuration.

FIG. 9 is a perspective view of a pair of garments for applying topical medication to a lower body showing a second embodiment of the present invention.

FIG. 10 is a front elevation view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 9 in an open configuration.

FIG. 11 is a front elevation view of one of the pair of garments apparel for applying topical medication to a lower body illustrated in FIG. 9 in a closed configuration.

FIG. 12 is a rear elevation view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 9 in an open configuration.

FIG. 13 is a rear elevation view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 9 in a closed configuration.

FIG. 14 is a side elevation view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 9 in a closed configuration.

(Continued)

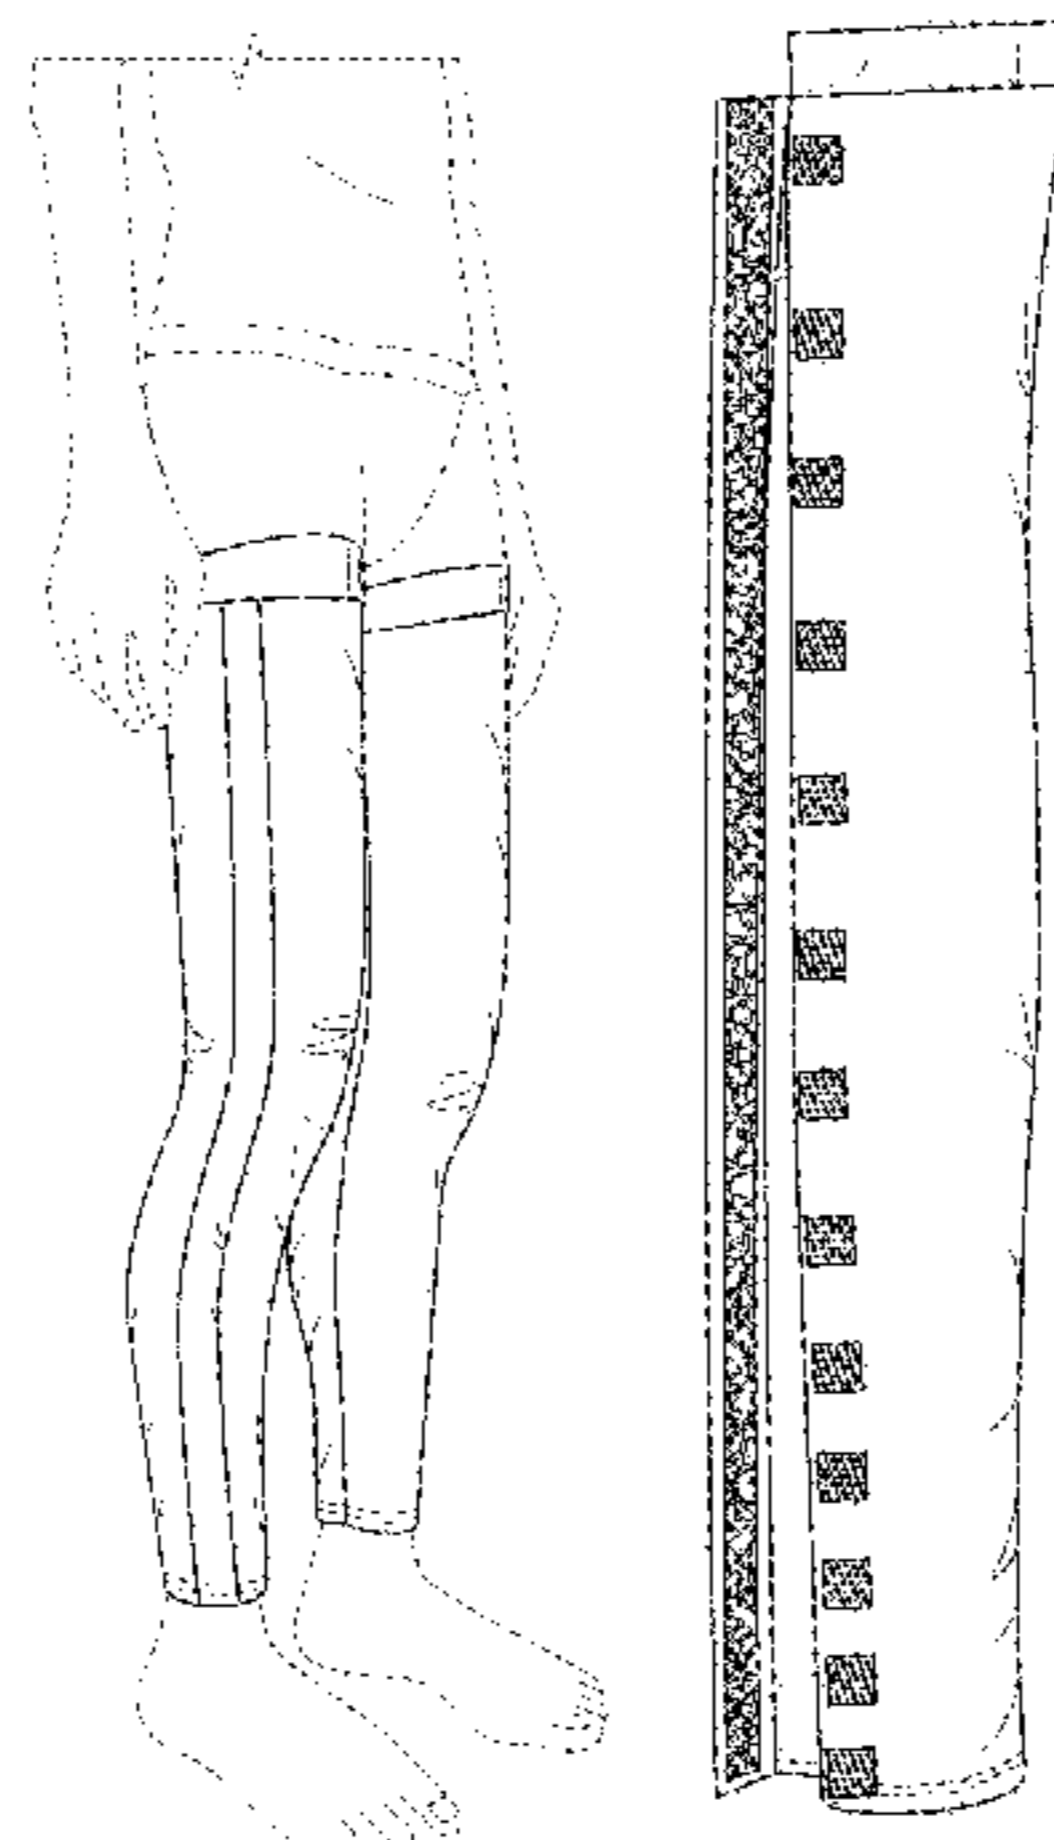

FIG. 15 is a top plan view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 9 in a closed configuration; and, FIG. 16 is a bottom plan view of one of the pair of garments for applying topical medication to a lower body illustrated in FIG. 9 in a closed configuration. The broken lines depict environment elements that form no part of the claimed design.
