(57) **CLAIM**

The ornamental design for a two part modular garment bag, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view from the front and right side of the two part modular garment bag showing my new design, showing the design in an assembled position;
 FIG. 2 is an elevational view of the front of the present invention;
 FIG. 3 is an elevational view of the back of the present invention;
 FIG. 4 is an elevational view of the left side of the present invention;
 FIG. 5 is an elevational view of the right side of the present invention;
 FIG. 6 is a plan view of the top thereof;
 FIG. 7 is a plan view of the bottom thereof;
 FIG. 8 is an exploded perspective view from the front and right side of the present invention; and,
 FIG. 9 is a perspective view of the bottom module in an extended configuration, illustrating the folded appearance of the module is a result of rolling a sheet of material that selectively receives a garment. The smaller top module is not shown for convenience of illustration.
 The broken lines illustrating clothing in FIG. 9 represent environment. The remaining broken lines illustrate portions of the two part modular garment bag. None of the broken lines form part of the claimed design.
