(57) **CLAIM**

The ornamental design for a display screen portion with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a first view of a display screen portion with graphical user interface showing our new design, in accordance with a first embodiment;

FIG. 2 is an second view in accordance with a second embodiment;

FIG. 3 is a third view in accordance with a third embodiment; and,

FIG. 4 is a fourth view in accordance with a fourth embodiment.

The dashed line showing is included for the purpose of illustrating a display screen portion and forms no part of the claimed design. The remaining broken lines depict subject matter excluded from the claim.
