(57) **CLAIM**

The ornamental design for a display screen or portion thereof with interactive graphical user interface, as shown and described.

**DESCRIPTION**

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first image of a display screen or portion thereof with interactive graphical user interface, according to our new design; and,

FIG. 2 is a front view of a second image of the display screen or portion thereof with interactive graphical user interface. The broken line showing of portions of display screens, text, and graphical elements is for the purpose of illustrating environment and forms no part of the claimed design. The appearance of the image interactively transitions between the images shown in FIGS. 1-2. The process by which an image transitions to another forms no part of the claimed design.
