(57) **CLAIM**

The ornamental design for a lighting attachment for mobile electronic communications device, as shown and described.

DESCRIPTION

FIG. 1 is a top, rear, right side perspective view of a lighting attachment for mobile electronic communications device in the closed configuration, with the mobile electronic communications device shown in broken lines, showing my new design;

FIG. 2 is a top plan view of the lighting attachment for mobile electronic communications device of FIG. 1;

FIG. 3 is a bottom plan view of the lighting attachment for mobile electronic communications device of FIG. 1;

FIG. 4 is a rear elevational view of the lighting attachment for mobile electronic communications device of FIG. 1;

FIG. 5 is a front elevational view of the lighting attachment for mobile electronic communications device of FIG. 1;

FIG. 6 is a left side elevational view of the lighting attachment for mobile electronic communications device of FIG. 1;

FIG. 7 is a right side elevational view of the lighting attachment for mobile electronic communications device of FIG. 1;

FIG. 8 is a top, rear, right side perspective view of the lighting attachment for mobile electronic communications device of FIG. 1 in the open configuration;

FIG. 9 is a rear elevational view of the lighting attachment for mobile electronic communications device of FIG. 8;

FIG. 10 is a front elevational view of the lighting attachment for mobile electronic communications device of FIG. 8;

FIG. 11 is a left side elevational view of the lighting attachment for mobile electronic communications device of FIG. 8;

FIG. 12 is a right side elevational view of the lighting attachment for mobile electronic communications device of FIG. 8;

FIG. 13 is a top plan view of the lighting attachment for mobile electronic communications device of FIG. 8; and, FIG. 14 is a bottom plan view of the lighting attachment for mobile electronic communications device of FIG. 8.

(Continued)

The broken line depict portions of the lighting attachment for mobile electronic communications device that form no part of the claimed design. The broken lines showing an electronic communications device is environmental subject matter which forms no part of the claimed design.
