(57) **CLAIM**

The ornamental design for a display screen with a graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a display screen with a graphical user interface, showing our new design; and,

FIG. 2 is a front view of a second embodiment of a display screen with a graphical user interface, showing our new design;

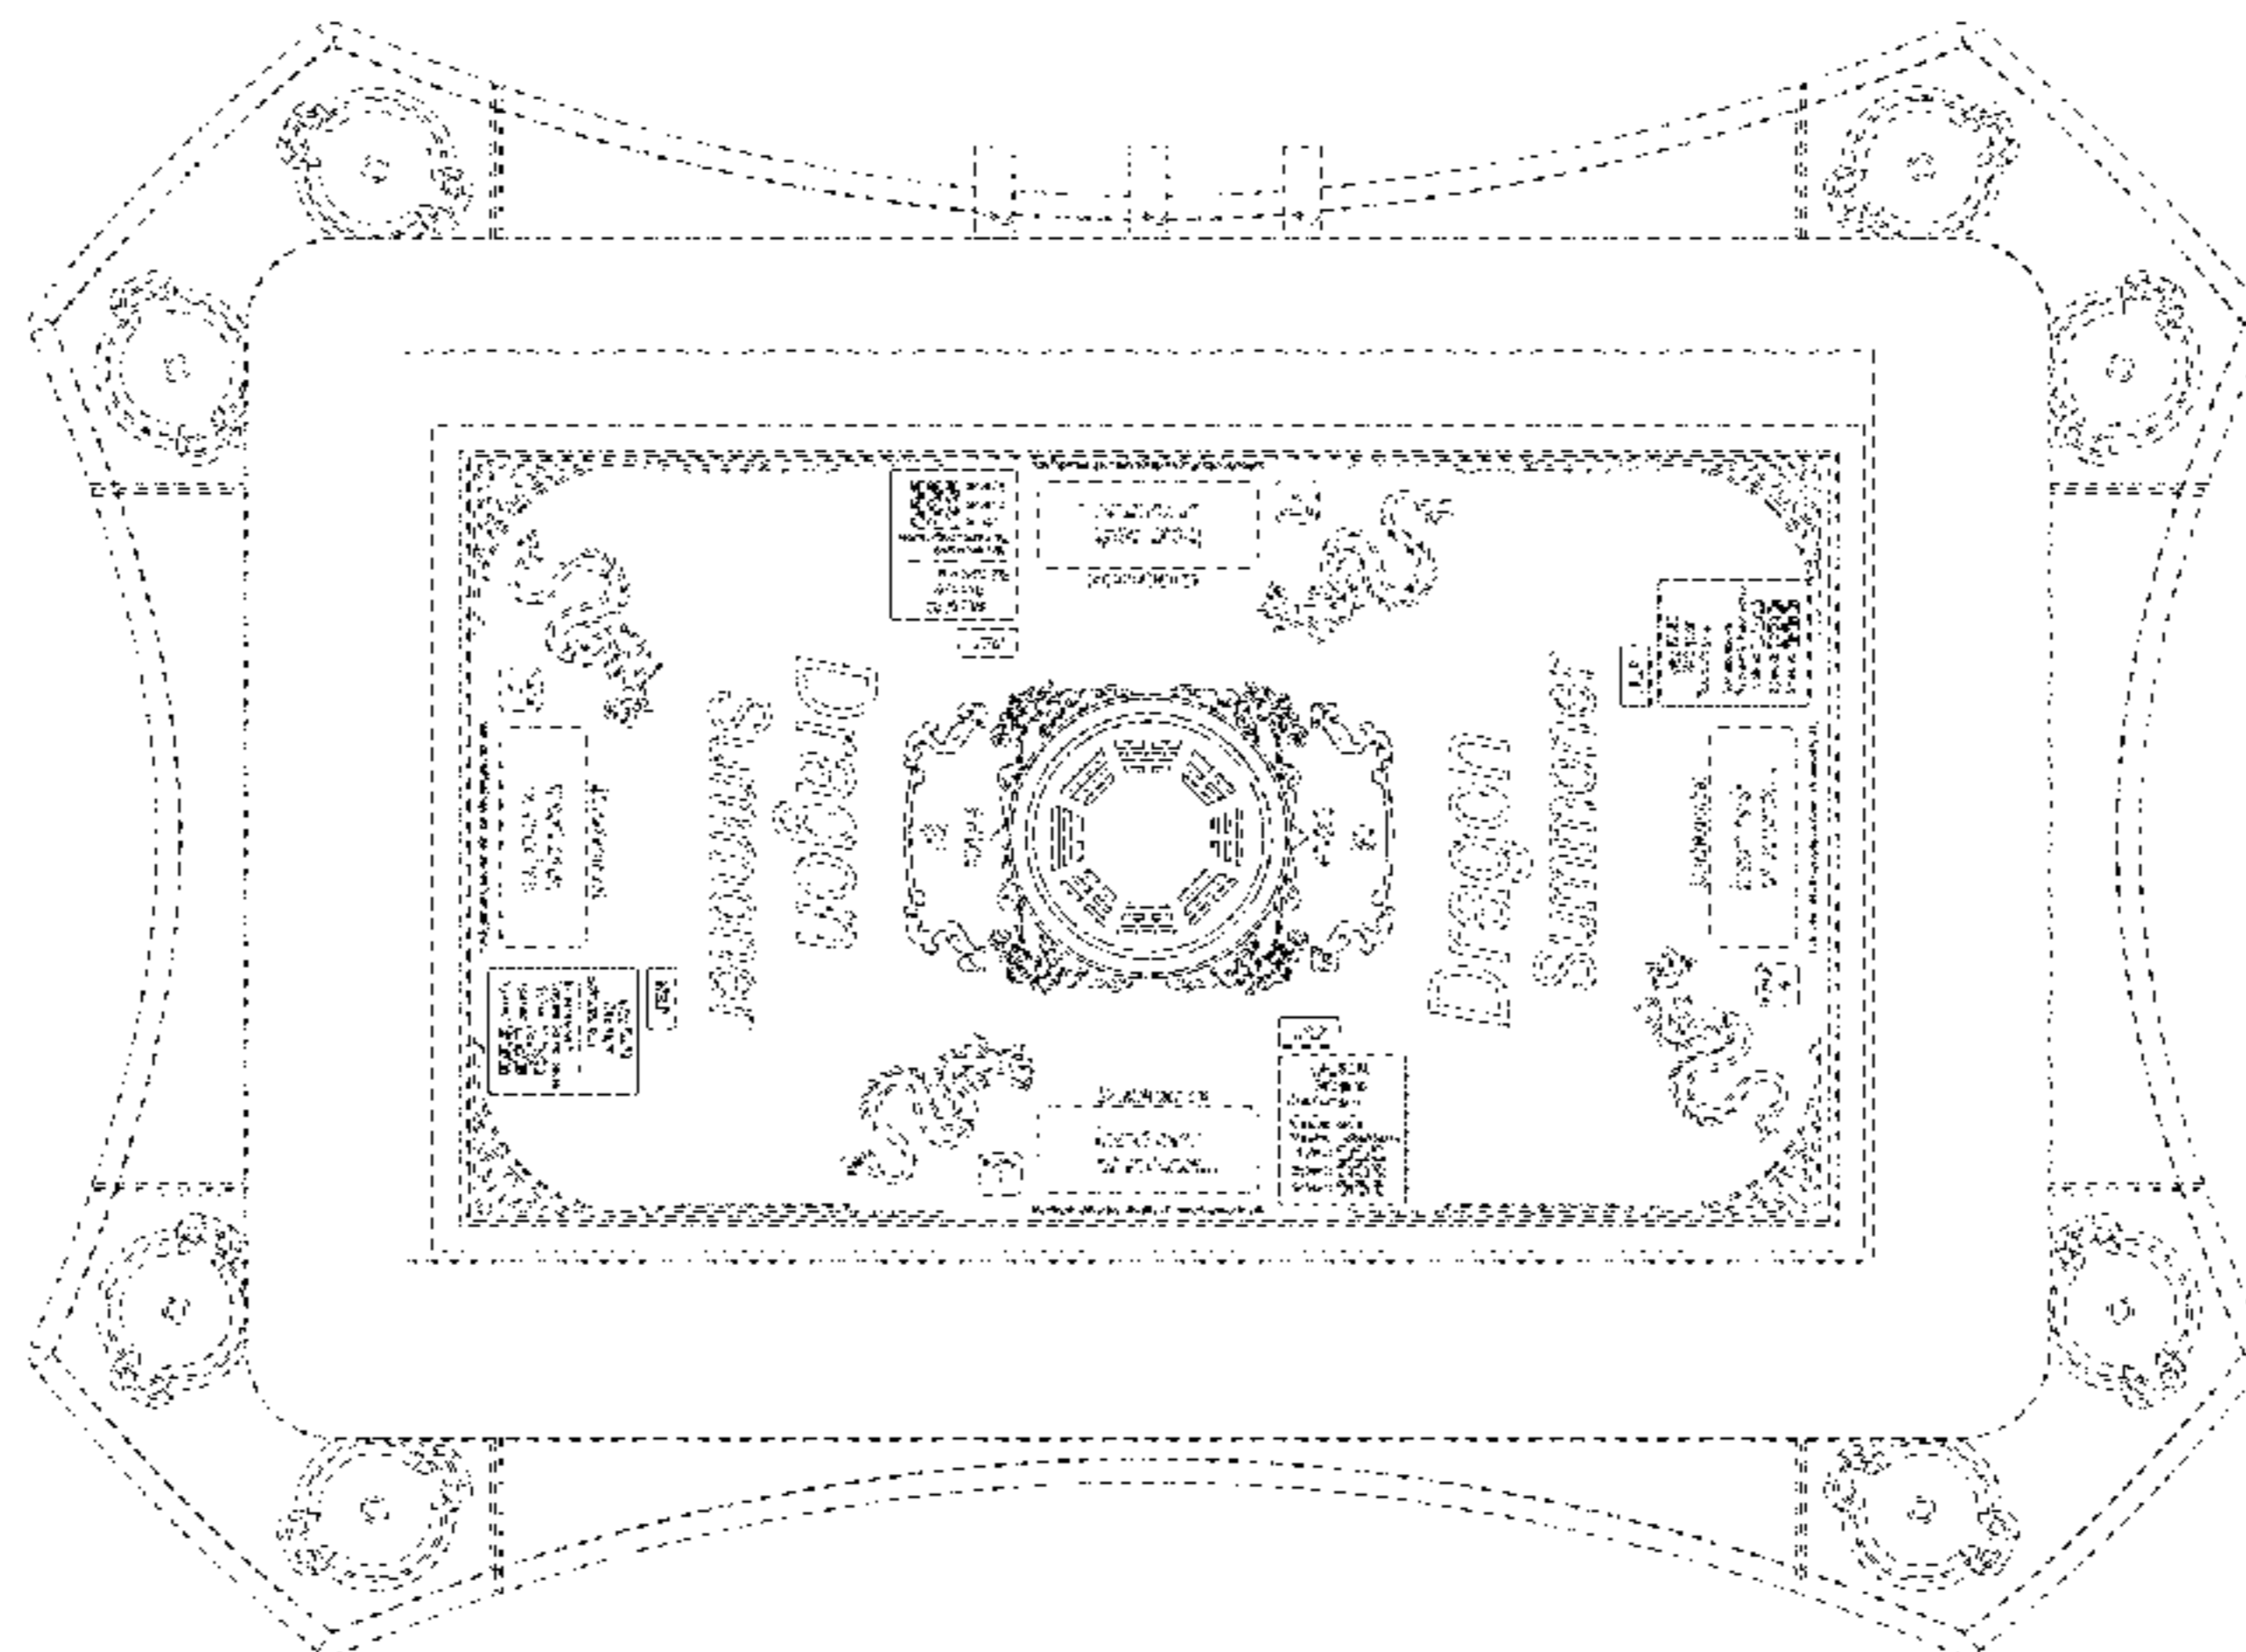

The outermost dual set of broken lines, outer circular features, and rounded rectangle illustrate an electronic device. The outermost broken line rectangle with square corners illustrates a display screen. The broken lines within the display screen illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
