(57) **CLAIM**

The design for a combined juice extractor and slicer, as shown and described.

DESCRIPTION

FIG. 1 is a side and top exploded perspective view of axially separated parts of the combined juice extractor and slicer showing the lid removed from the transparent bowl portion and parts there between. The third part from the top is shown inverted from its in-use position to show how the parts are positioned for packaging.

FIG. 2 is a top and side perspective view of the main body of the combined juice extractor and slicer as shown in FIG. 1 with a cutter positioned in the main body.

FIG. 3 is a side and top perspective view of the main body and slicer part of the combined juice extractor and slicer as shown in FIG. 1 inserted in the main body of the juice extractor and slicer.

FIG. 4 is a bottom and side perspective view of the main body of the combined juice extractor and slicer as shown in FIGS. 1-3.

FIG. 5 is a side and top exploded perspective view of the main body and slicer part of the combined juice extractor and slicer inserted in the main body and top having a rotatable center with pins for inserting into the slicer part within the main body of the juice extractor and slicer as shown in FIGS. 1 and 3.

FIG. 6 is a side and top perspective view of the main body and slicer part of the combined juice extractor and slicer inserted in the main body and top with rotatable center and pins for extending into the slicer part of the juice extractor and slicer as shown in FIGS. 1 and 5 showing a bottom of the juice extractor and slicer.

FIG. 7 is a top view of the upper juicer and strainer part of the combined juice extractor and slicer shown in FIG. 1.

FIG. 8 is a side and top perspective view of an assembled combined juice extractor and slicer; and,

FIG. 9 is an opposite side and top perspective view of the combined juice extractor and slicer shown in FIG. 8.
