(57) **CLAIM**

The ornamental design for a rail for mounting an enclosure of an electronic controller, as shown and described.

DESCRIPTION

FIG. 1 is a downward perspective view from a left rear corner of a rail for mounting an enclosure of an electronic controller showing our new design;

FIG. 2 is an upward perspective view from a right rear corner thereof;

FIG. 3 is top plan view thereof;

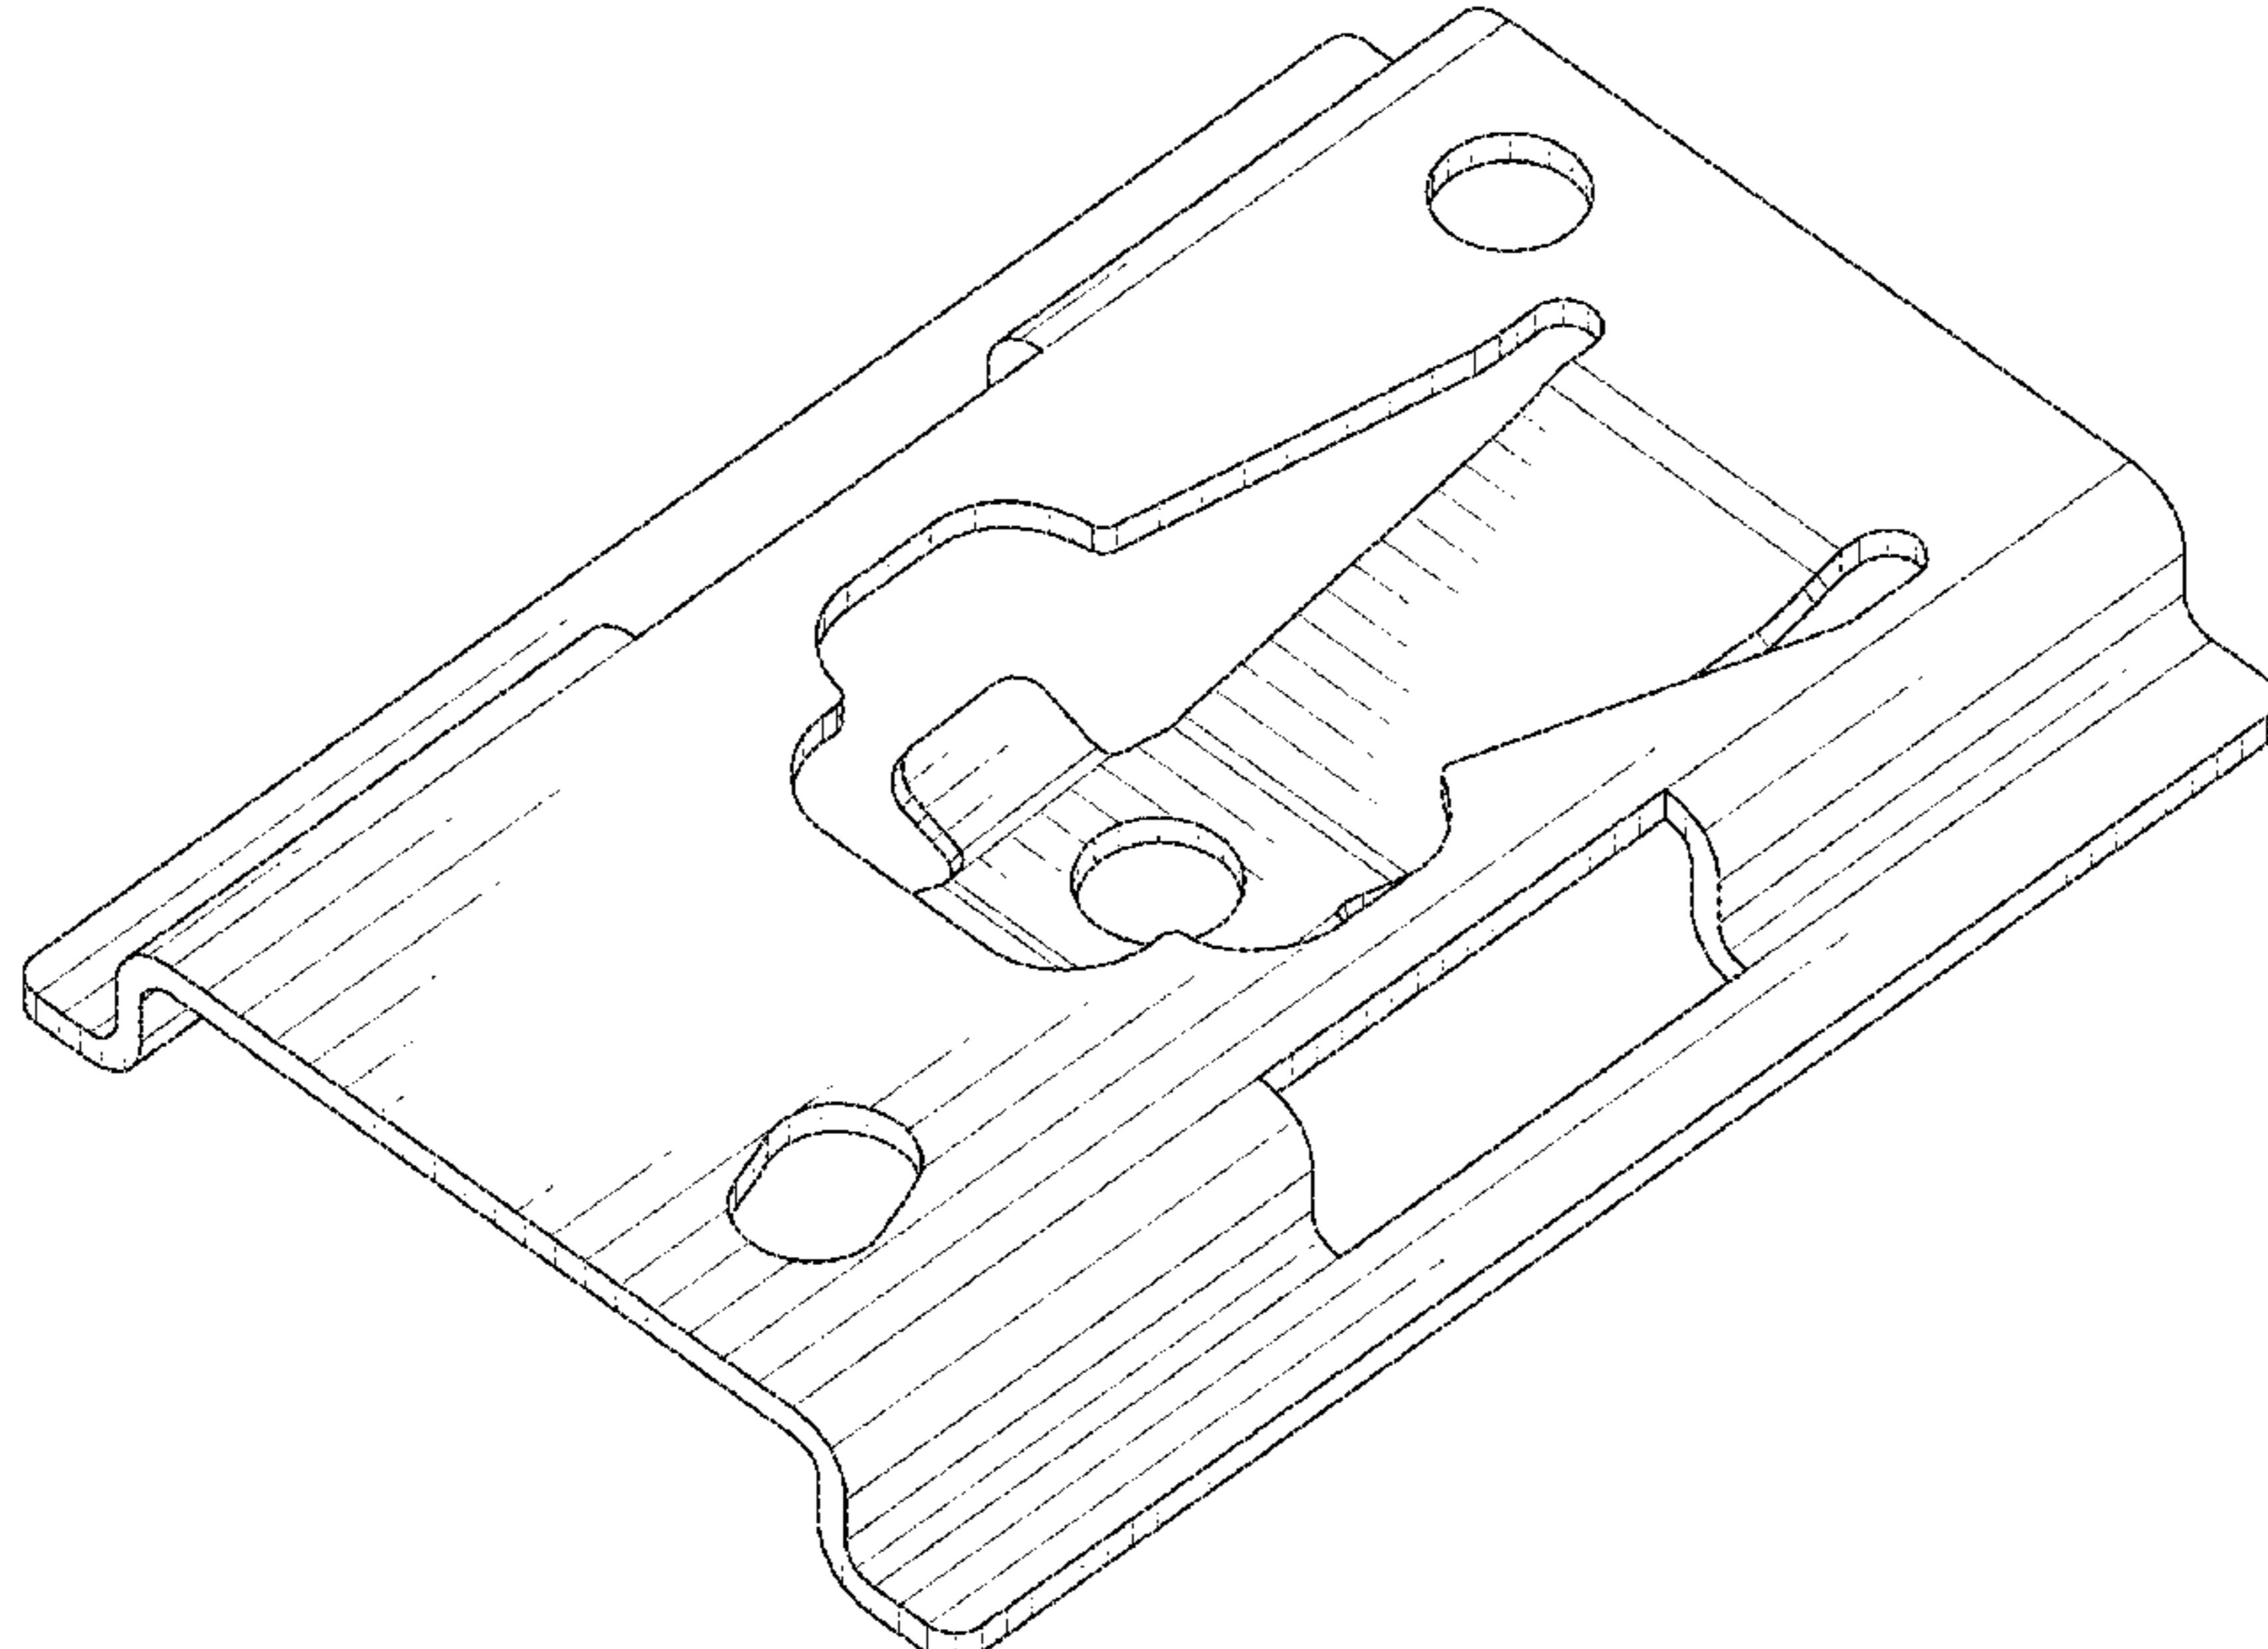

FIG. 4 is bottom plan view thereof;

FIG. 5 is a front elevational view thereof, wherein a rear elevational view is a mirror image of the front elevational view;

FIG. 6 is a right side elevational view thereof; and,

FIG. 7 is a left side elevational view thereof.
