(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

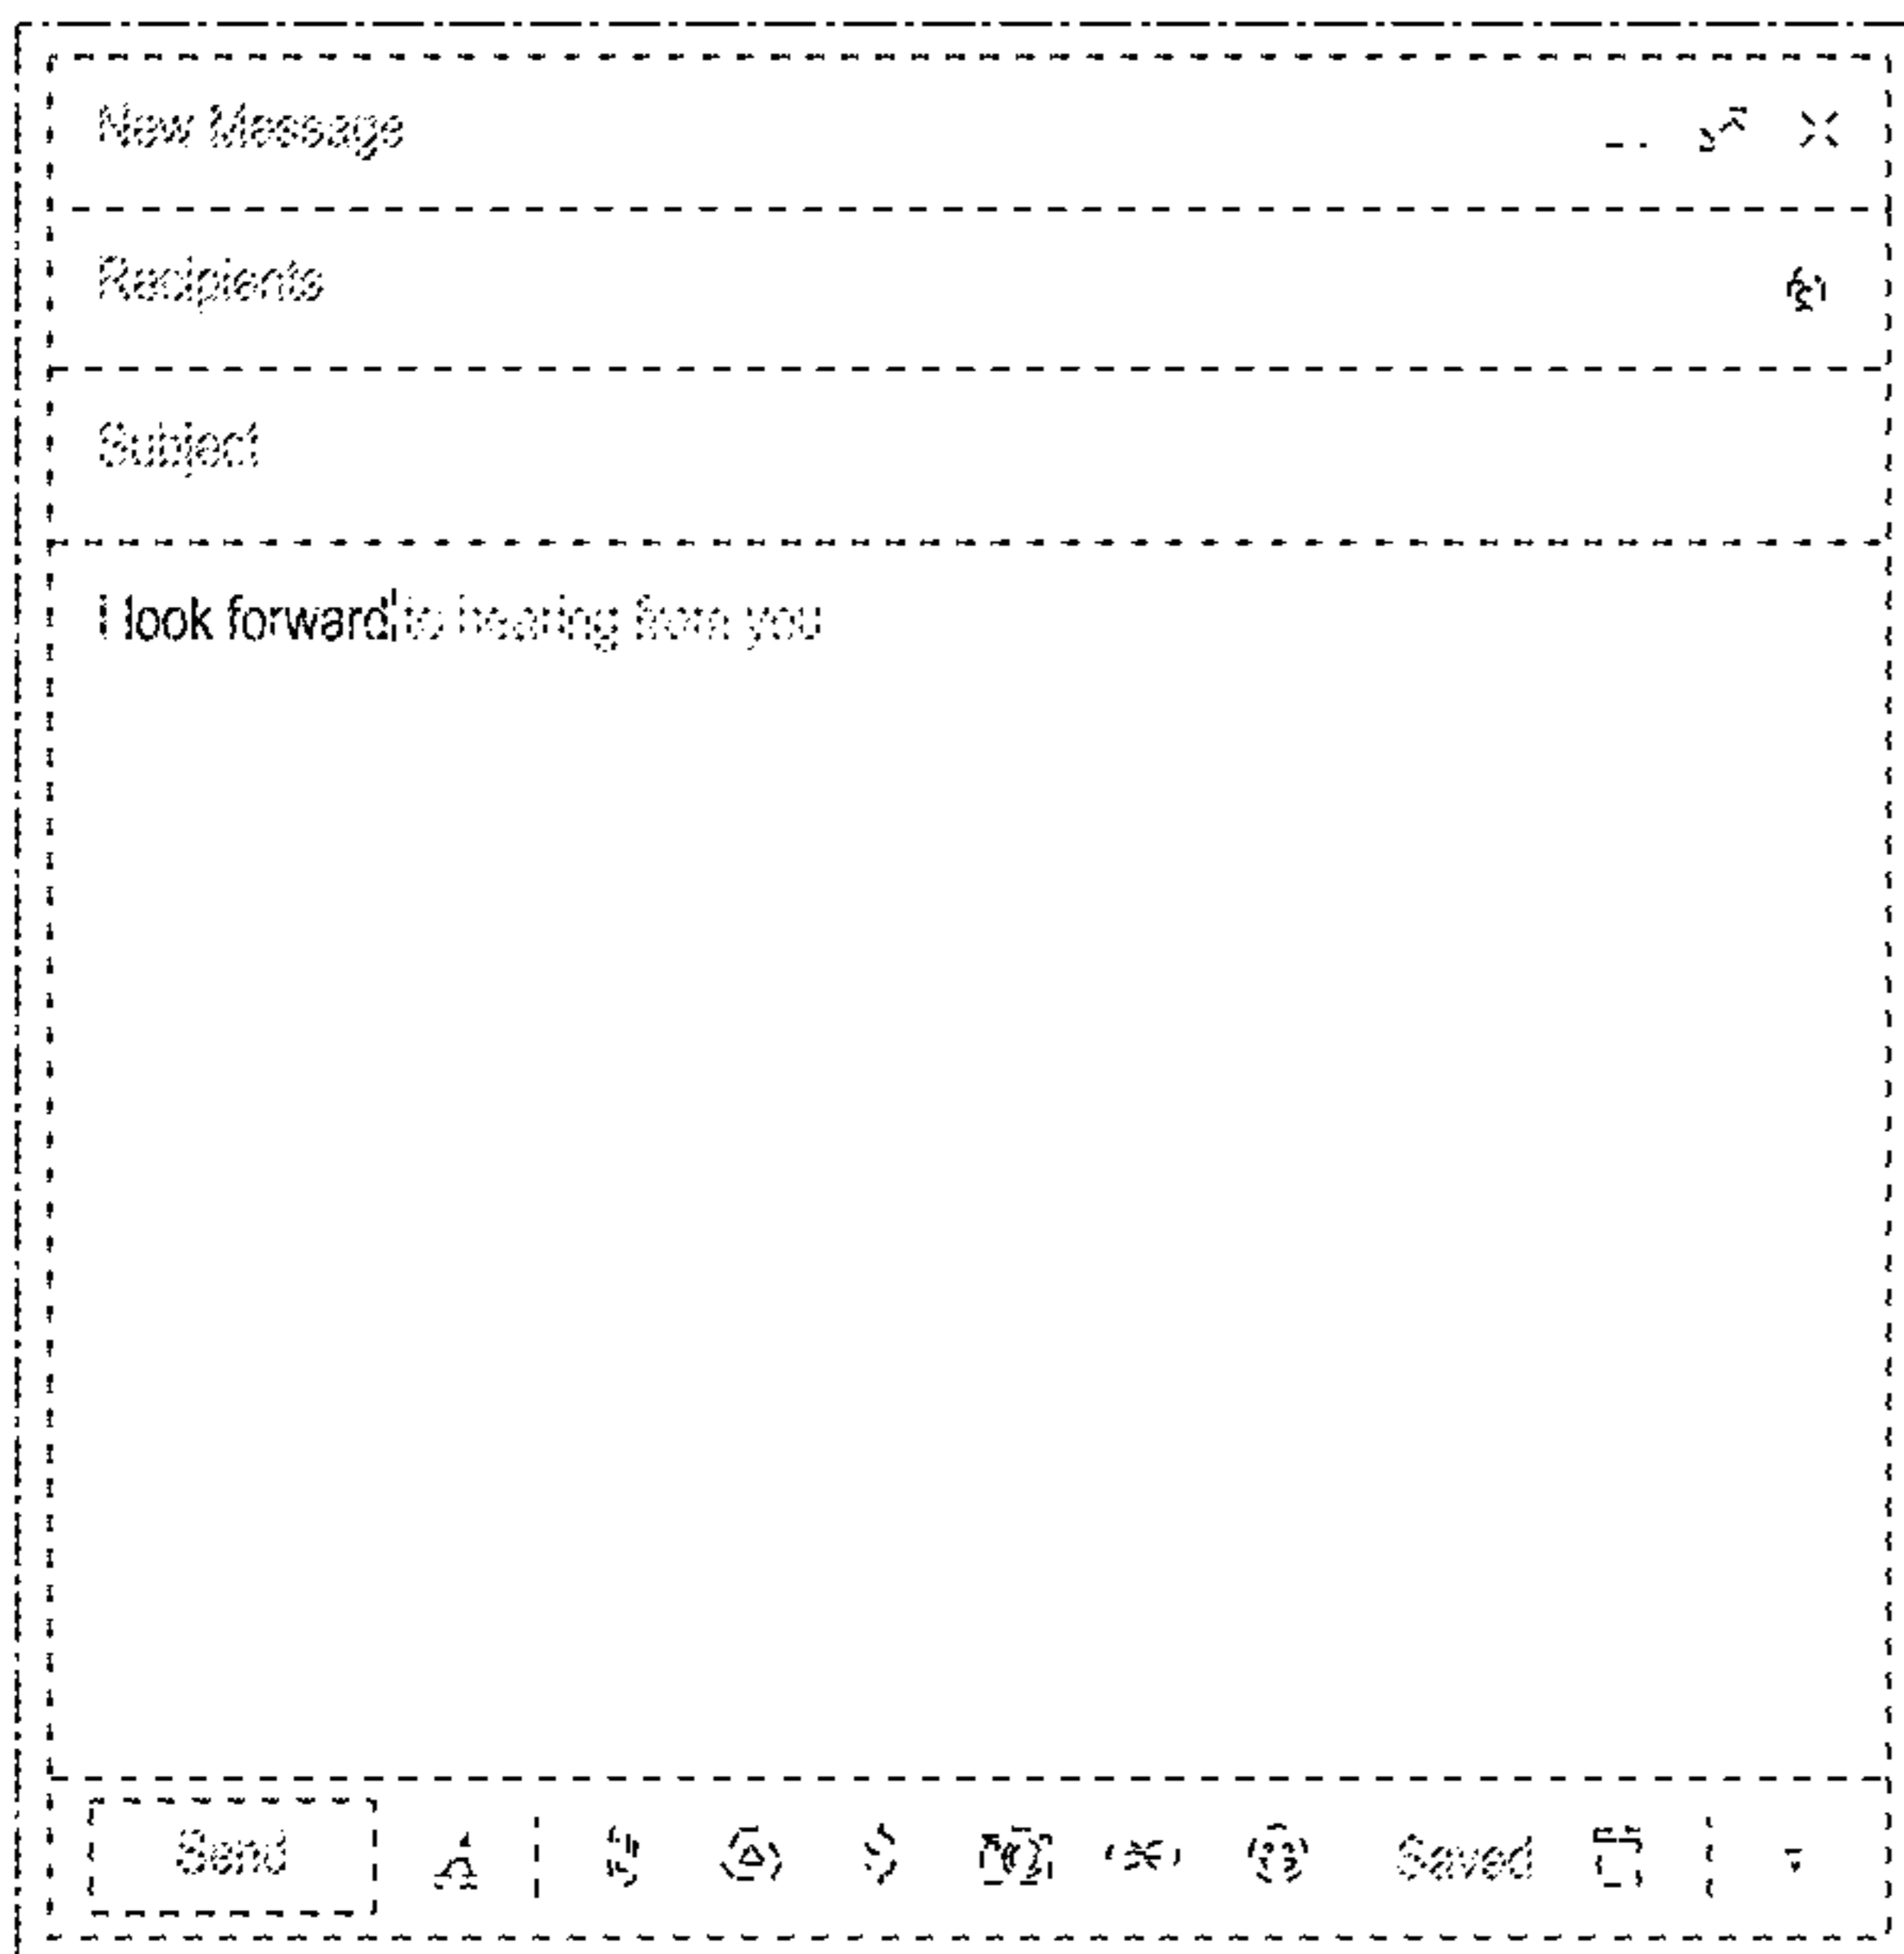

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a first image in a sequence of a display screen with animated graphical user interface, showing our new design; FIG. 2 is a second image thereof; and, FIG. 3 is a third image thereof.

The appearance of the image transitions between the images shown in FIGS. 1-3. The process or period in which an image transitions to another image forms no part of the claimed design.

The broken lines of uneven length show the display screen and form no part of the claimed design. The broken lines of even length shown in the drawing illustrate portions of the display screen with animated graphical user interface that form no part of the claimed design.
