(57) **CLAIM**

The ornamental design for wireless communication device, as shown and described.

**DESCRIPTION**

FIGS. 1-8 are front perspective view, front view, rear view, left view, right view, top plan view, bottom plan view, and rear perspective view of a first embodiment of a wireless communication device, such as a wireless communication device capable of wireless communication with a head mounted display, a virtual reality display, an augmented reality display, or a mixed reality display, in accordance with my new design.

The broken lines immediately adjacent the claimed areas represent the bounds of the claimed design while all other broken lines are directed to environment and are for illustrative purposes only. The broken lines form no part of the claimed design.
