DESCRIPTION

FIG. 1 is a front elevation view of a first embodiment of a mobile communication terminal with graphical user interface showing our new design; and, FIG. 2 is a front elevation view of a second embodiment of the mobile communication terminal with graphical user interface.

The solid-line rectangle illustrates the perimeter of a display screen. The broken lines outside this perimeter illustrate portions of a mobile communication terminal and form no part of the claimed design. The broken lines within this perimeter illustrate portions of the animated graphical user interface and form no part of the claimed design.
