(57) **CLAIM**

We claim the ornamental design for a display panel of a programmed computer system with a transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a face view of a first state of a display panel of a programmed computer system with a transitional graphical user interface;

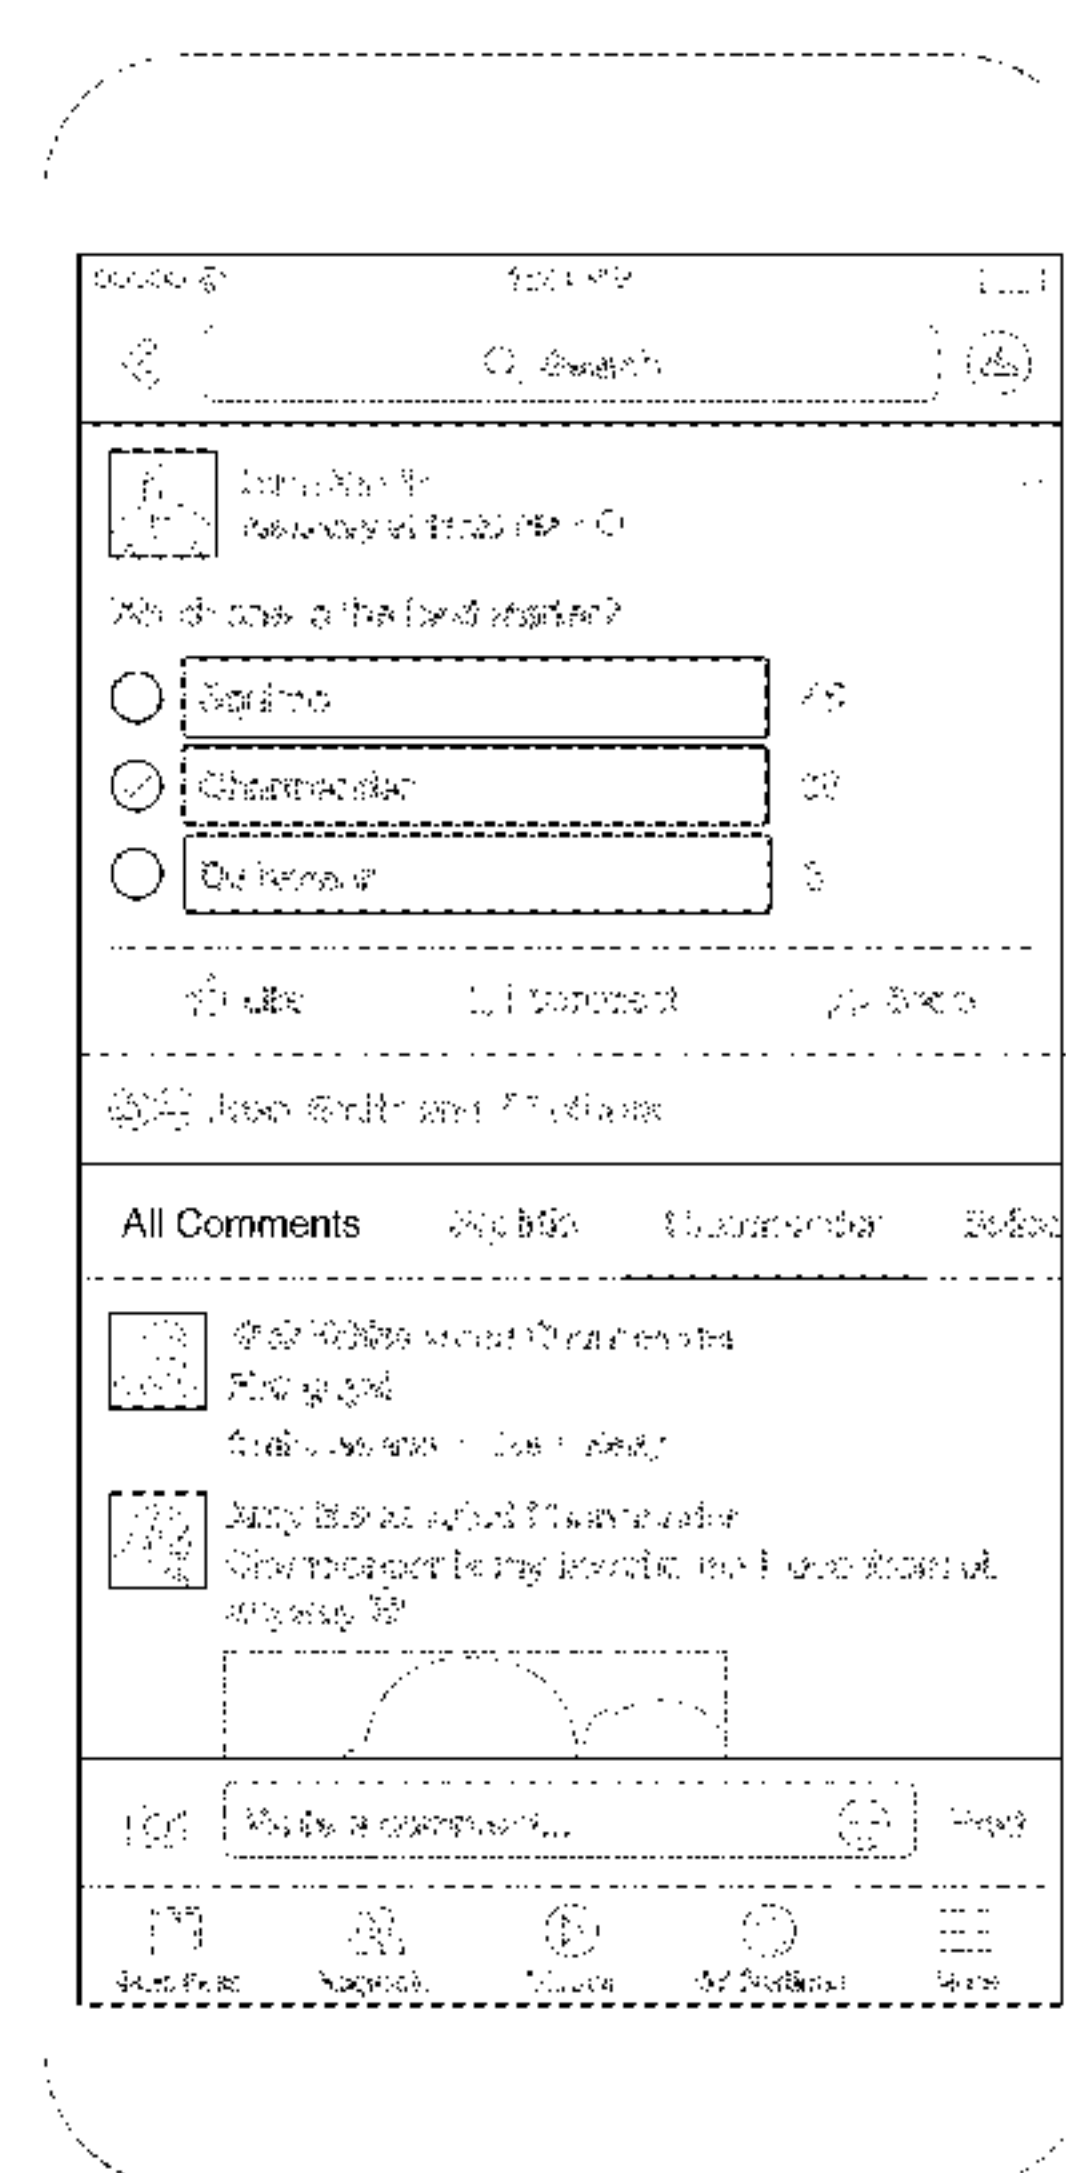

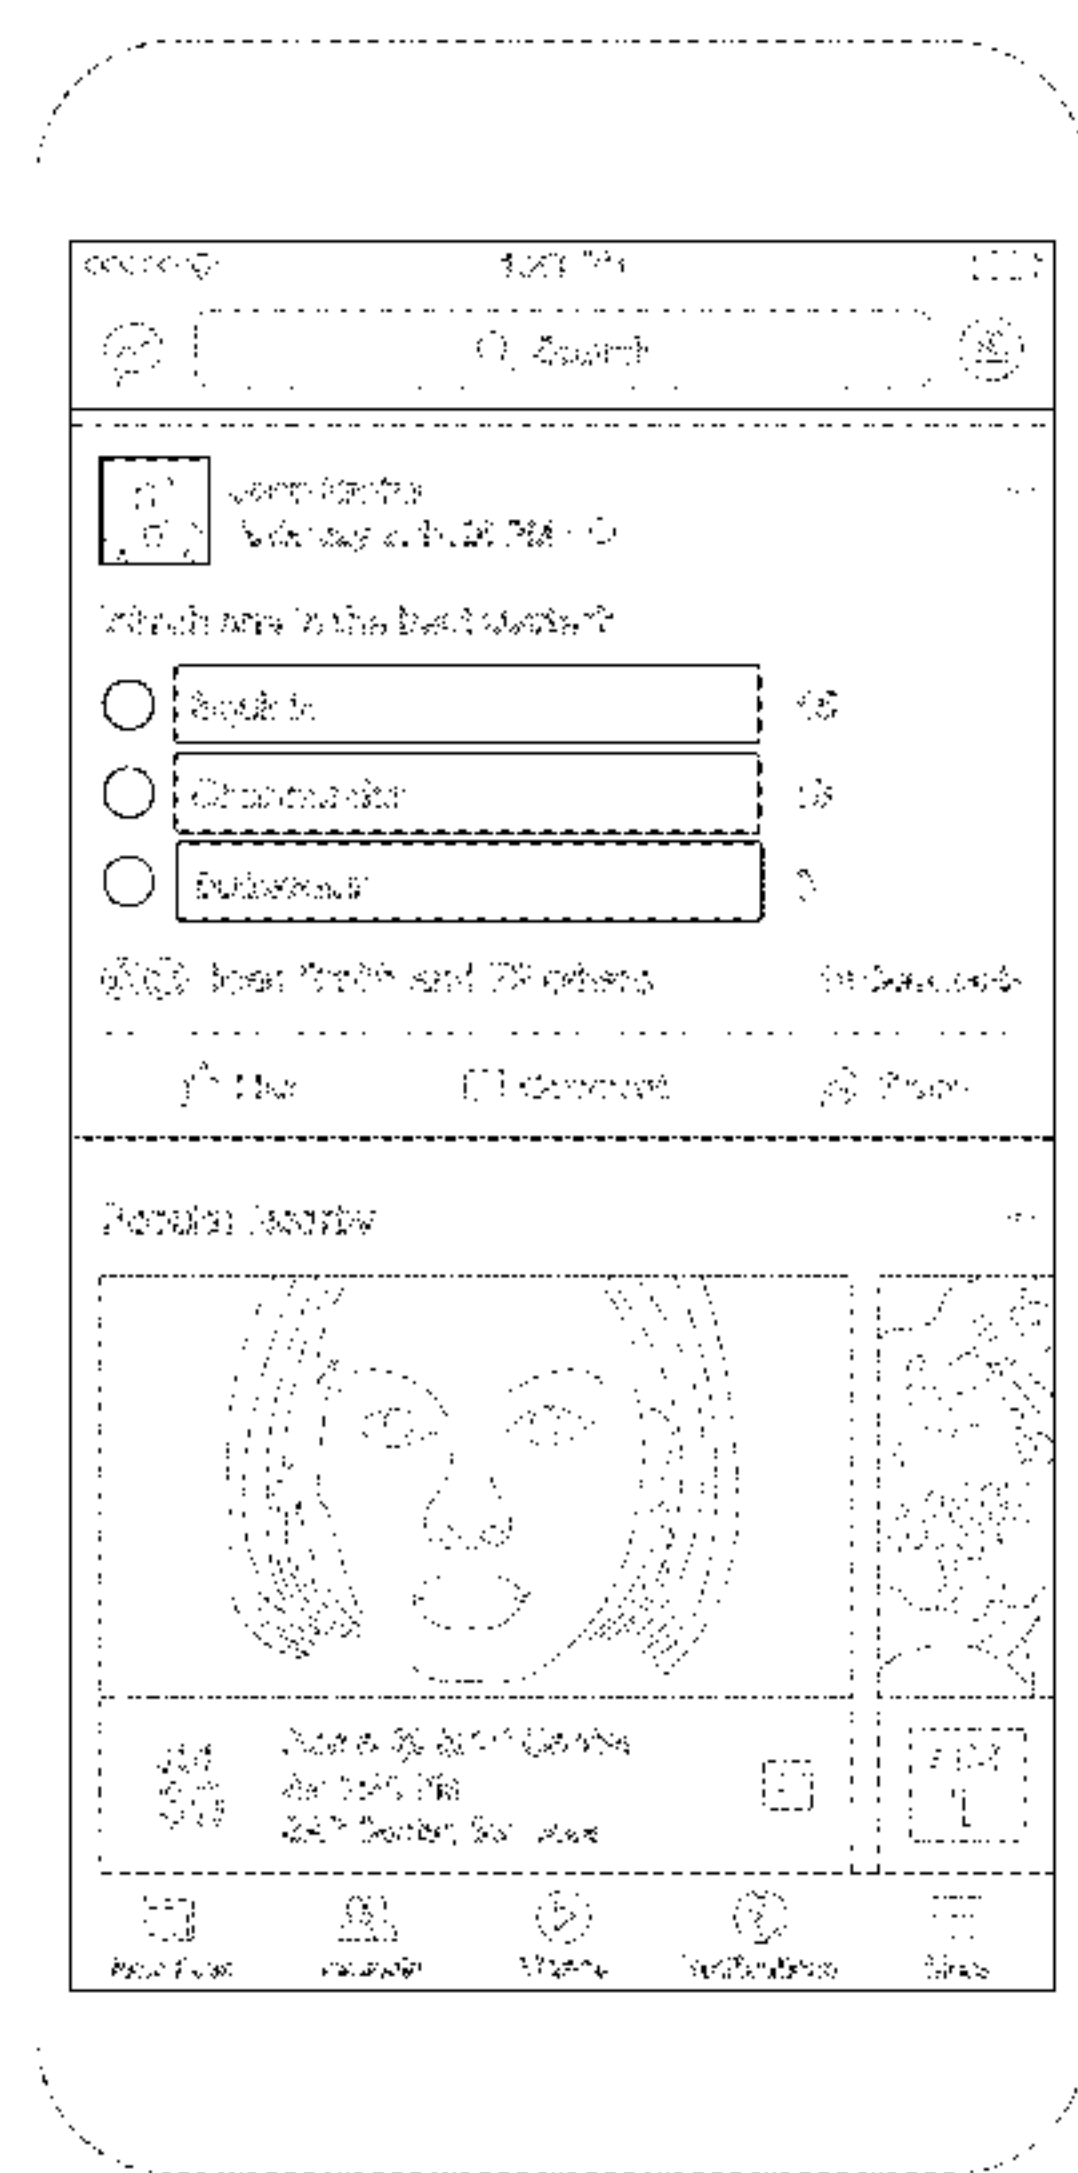

FIG. 2 is a face view of a second state of a display panel of a programmed computer system with a transitional graphical user interface; and,

FIG. 3 is a face view of a third state of a display panel of a programmed computer system with a transitional graphical user interface.

The broken lines showing the display panel and the graphical user interface are included for the purpose of illustrating environmental structure; the broken lines form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
