(57) **CLAIM**

The ornamental design for an enteral feeding connector component, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of a male component of an enteral feeding connector;
FIG. 2 is a front view thereof;
FIG. 3 is a rear view thereof;
FIG. 4 is a right side view thereof, with the left side view being a mirror image; and,
FIG. 5 is a top view thereof, with the bottom view being a mirror image.
The broken lines in the figures are shown for the purpose of illustrating boundaries of the claimed design and the areas inside the broken line boundaries form no part of the claimed design.
