(57) **CLAIM**

The ornamental design for a shoe, as shown and described.

DESCRIPTION

FIG. 1 is a front lateral perspective view of an embodiment of a shoe, it being understood that there is no claim being made to the bottom features, other than those visible in the views of the drawing disclosure, therefore the bottom view of this embodiment has been omitted.

FIG. 2 is a left side view of the shoe of FIG. 1.

FIG. 3 is a right side view of the shoe of FIG. 1.

FIG. 4 is a rear view of the shoe of FIG. 1; and,

FIG. 5 is an enlarged view of the portion within the broken line enlargement area 5 of FIG. 2.

The dash-dot rectangle located within certain locations of the midsole is included to indicate an enlarged view of the claimed area of the midsole only and forms no part of the claimed design. The remaining dash-dot broken lines represent an unclaimed boundary of the claimed design.

The broken lines immediately adjacent to shaded areas represent unclaimed boundaries of the claimed design. The areas surrounded by broken lines and partially obscured with translucent shading form no part of the claimed design.

The stippled surface shading in the enlarged view of the claimed area of the midsole in FIG. 5 represents a three-dimensional appearance of the entire claimed area of the midsole in FIGS. 1-4. The stippled surface shading of the entire claimed area of the midsole was omitted from FIGS. 1-4 for clarity of illustration.

The remainder of the shoe shown in broken lines is for environmental purposes only and forms no part of the claimed design.
