(57) **CLAIM**

The ornamental design for a computer screen display or
portion thereof with graphical user interface, as shown and
described.

DESCRIPTION

The FIGURE is a front view of a computer screen display or
portion thereof with graphical user interface showing the
new design.

The outermost broken line illustrates the computer screen
display, and the broken line showings of text within the
outermost broken line illustrate portions of the graphical
user interface. None of the broken lines form part of the
claimed design.
