(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains a drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee. The FIGURE is a front view of a display screen with graphical user interface, showing our new design. The broken lines of even length illustrate portions of the display screen with graphical user interface that form no part of the claimed design. The broken lines of uneven length illustrate the display screen and the boundary of the claimed design, and form no part thereof.
