FIG. 1 is a front perspective view of the fully assembled football shaped beverage container showing my new design. FIG. 2 is a front elevational view of the football shaped beverage container shown in FIG. 1.

FIG. 3 is a rear elevational view of the football shaped beverage container shown in FIG. 1.

FIG. 4 is an elevational view of the left side of the football shaped beverage container shown in FIG. 1.

FIG. 5 is an elevational view of the right side of the football shaped beverage container shown in FIG. 1.

FIG. 6 is a top plan view of the football shaped beverage container shown in FIG. 1.

FIG. 7 is a bottom plan view of the football shaped beverage container shown in FIG. 1; and,

FIG. 8 is an exploded perspective view of the football shaped beverage container shown in FIG. 1.

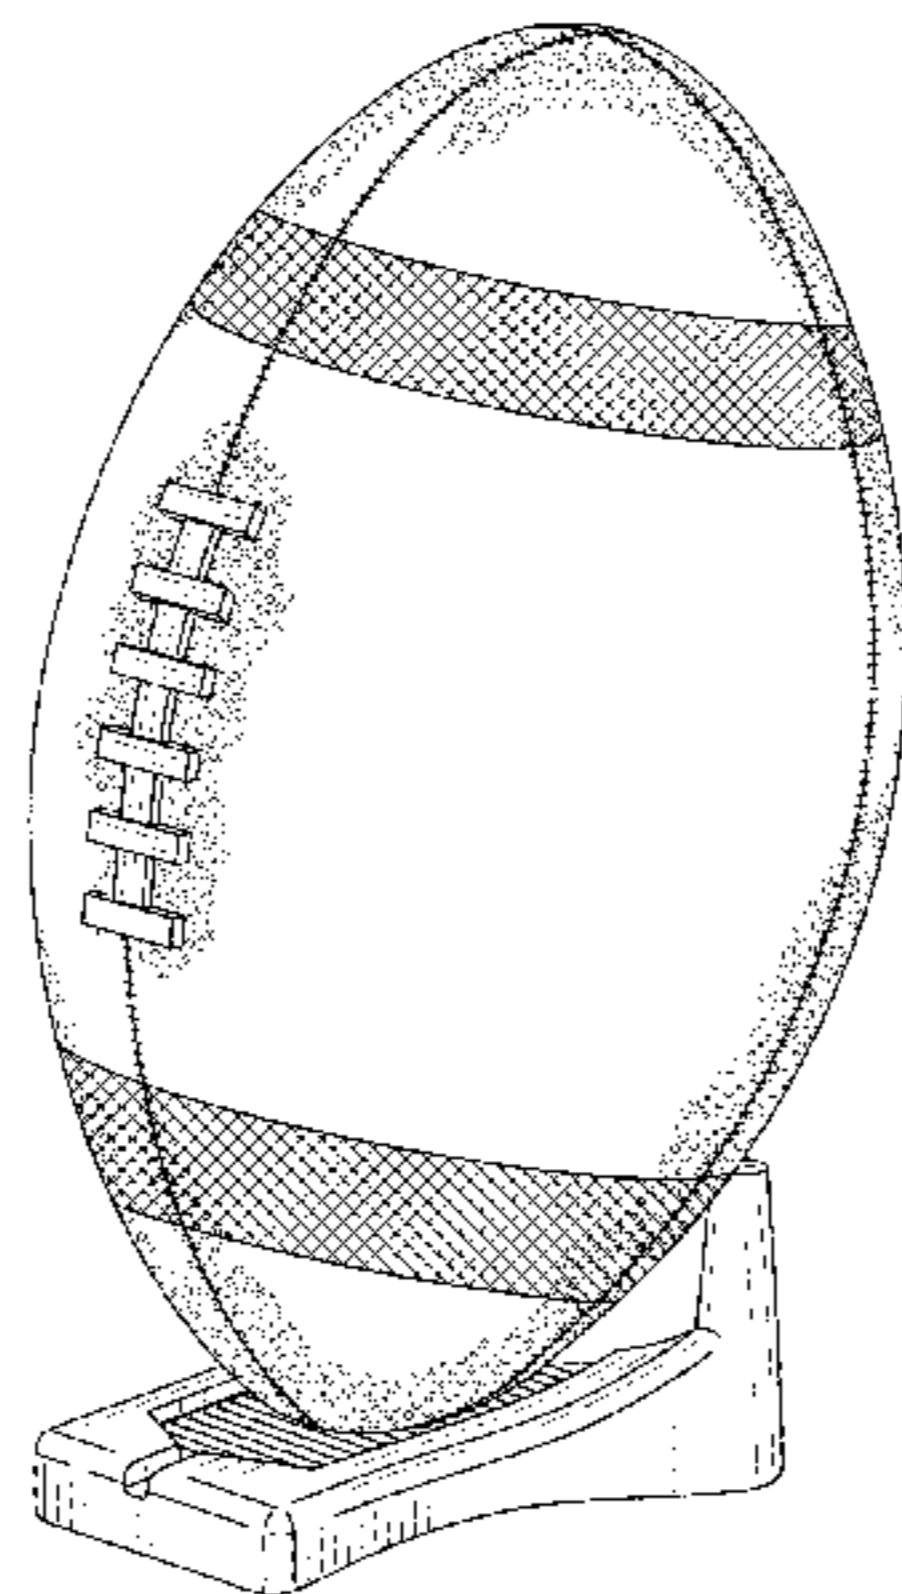

The tiny circular surface pattern is partially shown on the surface for convenience of illustration; it being understood to be uniformly continuous over the entire exterior of the container. The crosshatch pattern on the circumferential bands indicates contrast in appearance from that of the remaining surface of the container and not a specific pattern applied to the design. The broken lines shown on the bottom of the support stand are for the purpose of illustrating portions of the football shaped beverage container that form no part of the claimed design.
