(57) **CLAIM**

The ornamental design for a hand controller, as shown and
described.

DESCRIPTION

FIG. 1 is a top perspective front view of a hand controller of
the present invention.

FIG. 2 is a bottom perspective front view of a hand con-
troller of the present invention.

FIG. 3 is front view of a hand controller of the present
invention.

FIG. 4 is a rear view of a hand controller of the present
invention.

FIG. 5 is a first side view of a hand controller of the present
invention.

FIG. 6 is a second side view of a hand controller of the
present invention.

FIG. 7 is a top end view of a hand controller of the present
invention; and,

FIG. 8 is a bottom end view of a hand controller of the
present invention.

Any elements illustrated in broken lines form no part of the
claimed invention of this application, and are included to
show environmental structure associated with the claimed
invention.
