See application file for complete search history.

FIG. 1 is a front perspective view of a repeater for communications apparatus showing our new design; FIG. 2 is a front elevational view thereof; FIG. 3 is a rear elevational view thereof; FIG. 4 is a left-side elevational view thereof; FIG. 5 is a right-side elevational view thereof; FIG. 6 is a top plan view thereof; FIG. 7 is a bottom plan view thereof; and, FIG. 8 is an enlarged view of the encircled portion in FIG. 1.

The broken lines in the figures depict environmental subject matter and form no part of the claimed design. The dot-dash broken lines in the figures illustrate a boundary of the claimed design and form no part thereof. The dot-dot-dash broken lines encircling portions of the claimed design that are illustrated in enlargements form no part of the claimed design. The unshaded surface that directly adjoins the solid line edge forms no part of the claimed design.
