(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

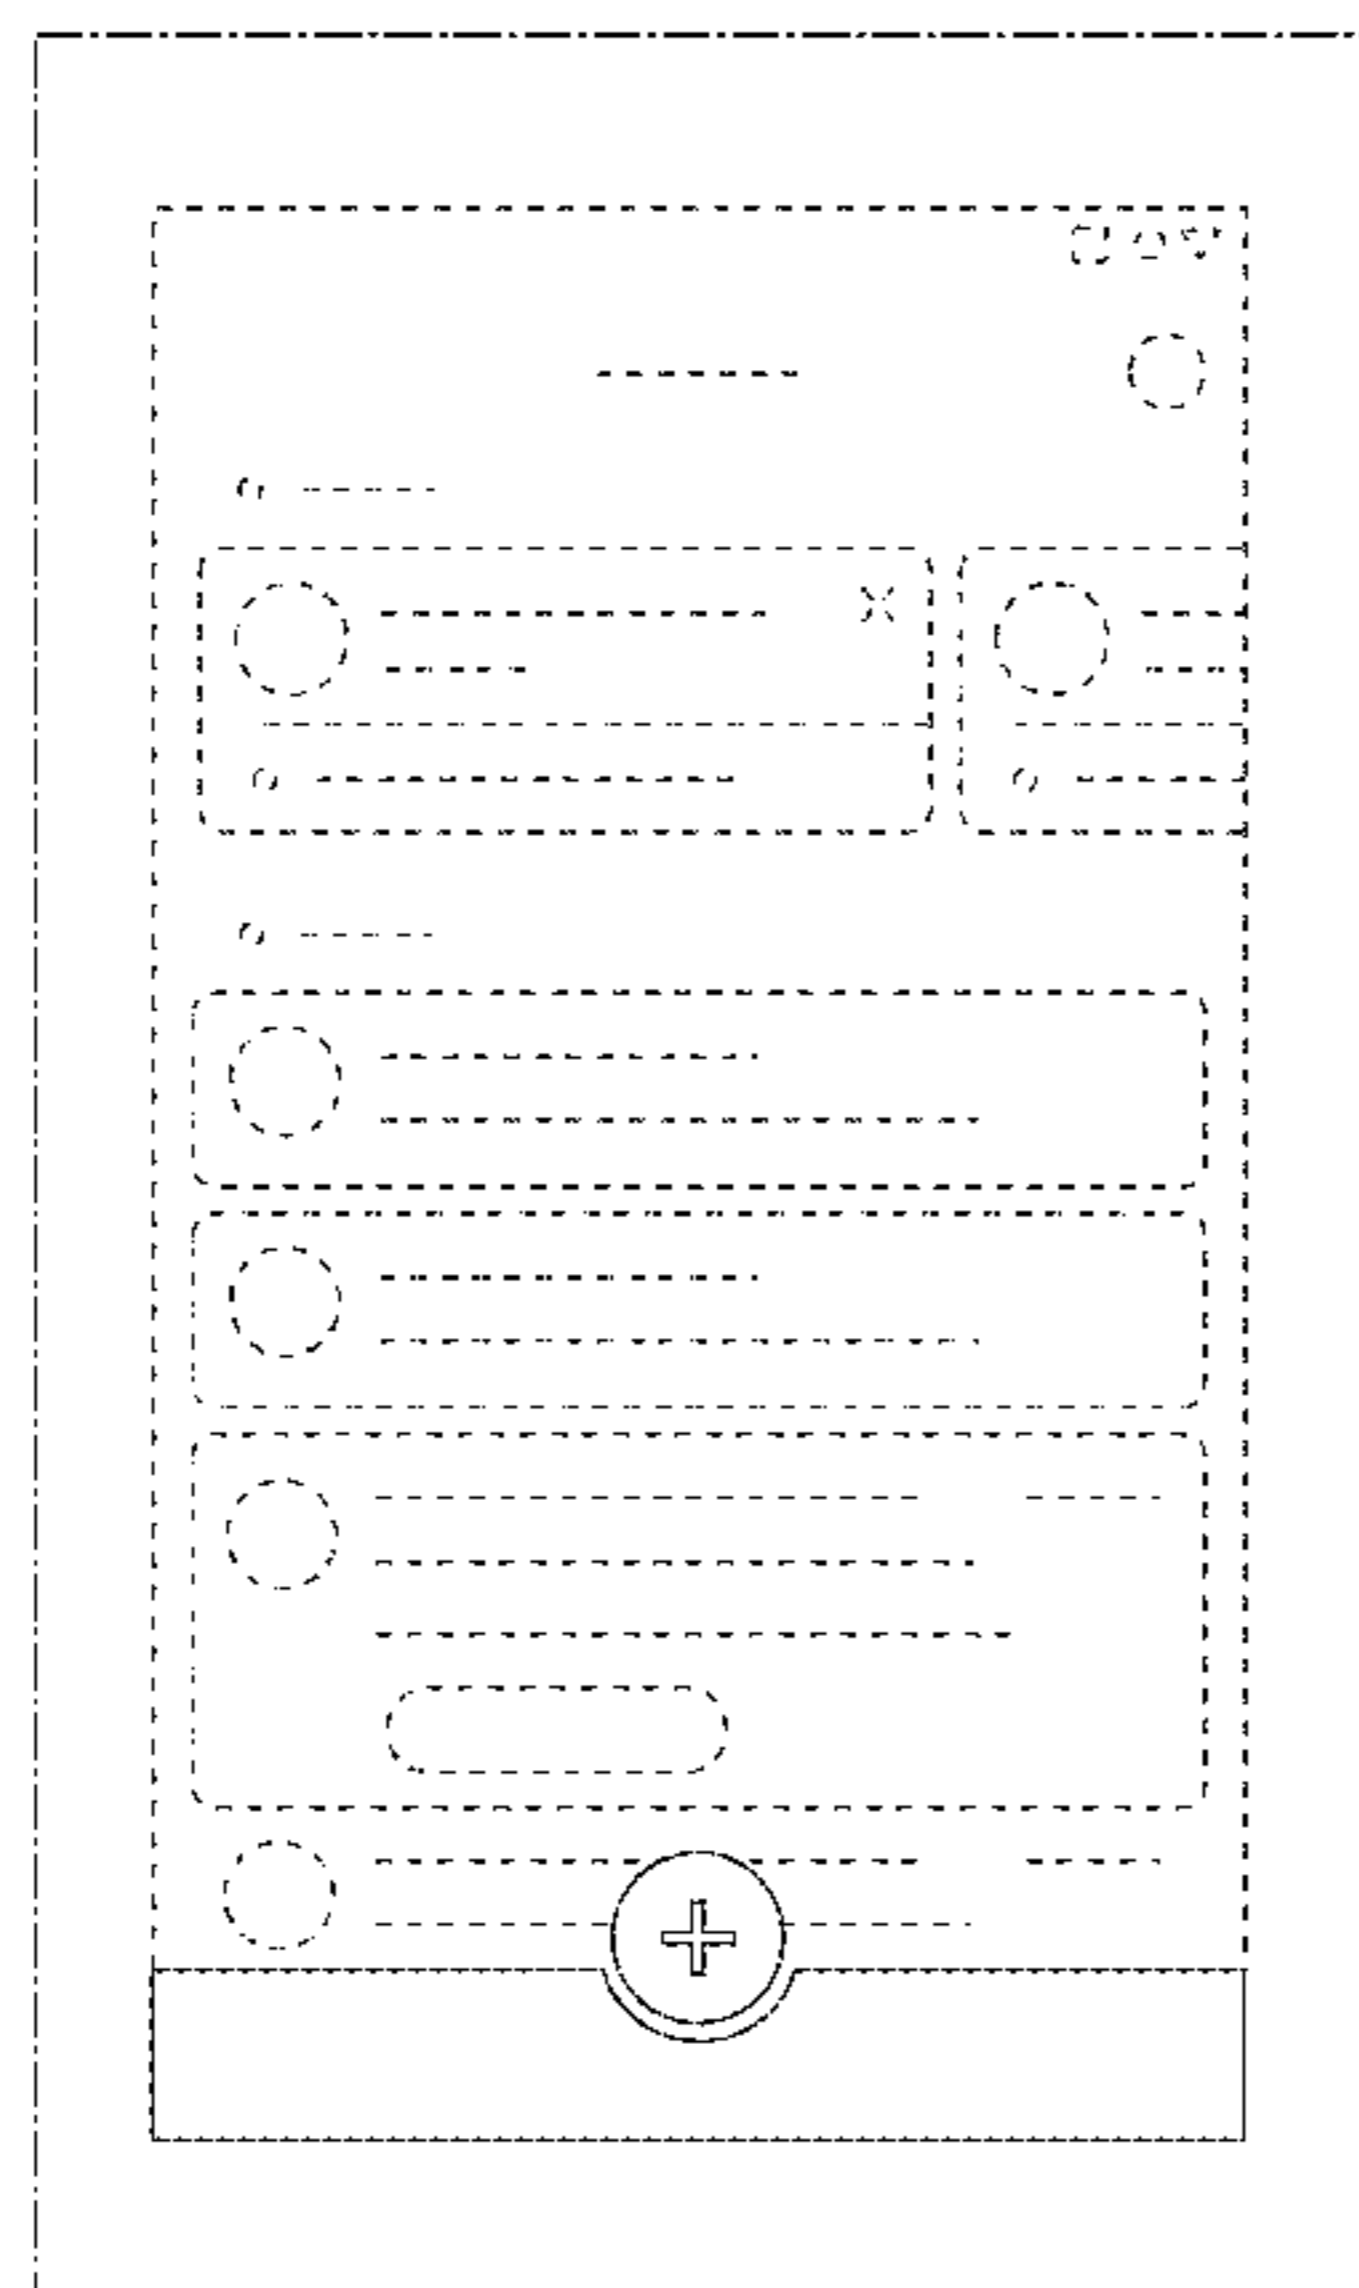

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface, showing the new design;
FIG. 2 is a front view of a second image thereof;
FIG. 3 is a front view of a third image thereof;
FIG. 4 is a front view of a fourth image thereof; and,
FIG. 5 is a front view of a fifth image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-5. The process or period in which one image transitions to another image forms no part of the claimed design.

The portions depicted in broken dashed lines of uneven length define the unclaimed boundary of the claimed design. The portions depicted in broken dashed lines of even length, including the graphical element within the claimed circle element in FIGS. 4 and 5, form no part of the claimed design.

1 Claim, 5 Drawing Sheets
