(57) **CLAIM**

I claim the ornamental design for a travel adapter set, as shown and described.

DESCRIPTION

FIG. **1** is a front perspective view of the rear portion of a travel adapter set, shown separately for ease of illustration;

FIG. **2** is a rear perspective view of the rear portion of the travel adapter set, shown separately for ease of illustration;

FIG. **3** is a front elevation view of the rear portion of the travel adapter set, shown separately for ease of illustration;

FIG. **4** is a rear elevation view of the rear portion of the travel adapter set, shown separately for ease of illustration;

FIG. **5** is a left side view of the rear portion of the travel adapter set, shown separately for ease of illustration;

FIG. **6** is a right side view of the rear portion of travel adapter set, shown separately for ease of illustration;

FIG. **7** is a top plan view of the rear portion of the travel adapter set, shown separately for ease of illustration;

FIG. **8** is a bottom plan view of the rear portion of the travel adapter set, shown separately for ease of illustration;

FIG. **9** is a front perspective view of the front portion of a travel adapter set, shown separately for ease of illustration;

FIG. **10** is a rear perspective view of the front portion of the travel adapter set, shown separately for ease of illustration;

FIG. **11** is a front elevation view of the front portion of the travel adapter set, shown separately for ease of illustration;

FIG. **12** is a rear elevation view of the front portion of the travel adapter set, shown separately for ease of illustration;

FIG. **13** is a left side view of the front portion of the travel adapter set, shown separately for ease of illustration;

FIG. **14** is a right side view of the front portion of the travel adapter set, shown separately for ease of illustration;

FIG. **15** is a top plan view of the front portion of the travel adapter set, shown separately for ease of illustration;

FIG. **16** is a bottom plan view of the front portion of the travel adapter set, shown separately for ease of illustration;

FIG. **17** is a perspective view of the travel adapter set, with the front and rear portions in a combined state;

FIG. **18** is a rear perspective view of the travel adapter set, with the front and rear portions in a combined state;

FIG. **19** is a front elevation view of the travel adapter set, with the front and rear portions in a combined stale;

FIG. **20** is a rear elevation view of the travel adapter set, with the front and rear portions in a combined state;

FIG. **21** is a left side view of the travel adapter set, with the front and rear portions in a combined state;

FIG. **22** is a right side view of the travel adapter set, with the front and rear portions in a combined state;

FIG. **23** is a top plan view of the travel adapter set, with the front and rear portions in a combined state;

(Continued)

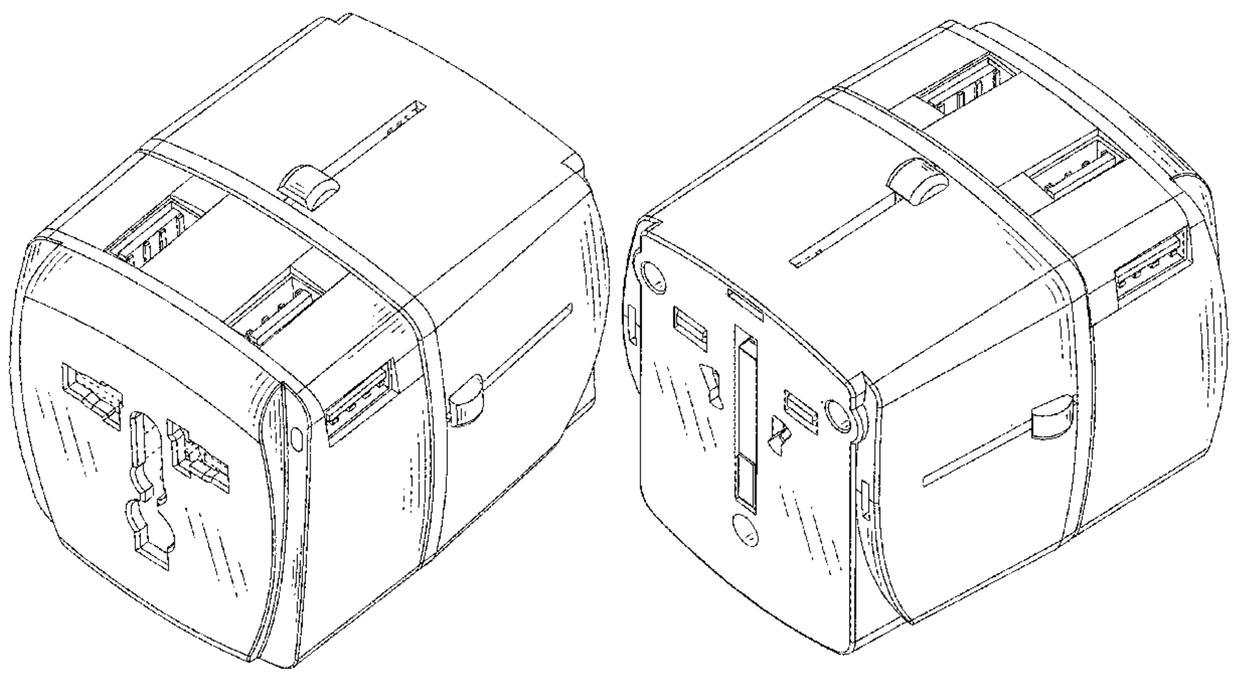

FIG. **24** is a bottom plan view of the travel adapter set, with the front and rear portions in a combined state;
FIG. **25** is a top, rear perspective view of the travel adapter set, shown with tree pins extended, and with the front and rear portions in a combined state; and,
FIG. **26** is a top, rear perspective view of the travel adapter set, shown with two pins extended, and with the front and rear portions in a combined state.
The broken lines in the drawings illustrate portions of the travel adapter set that forms no part of the claimed design.

1 Claim, 26 Drawing Sheets
