(57) **CLAIM**

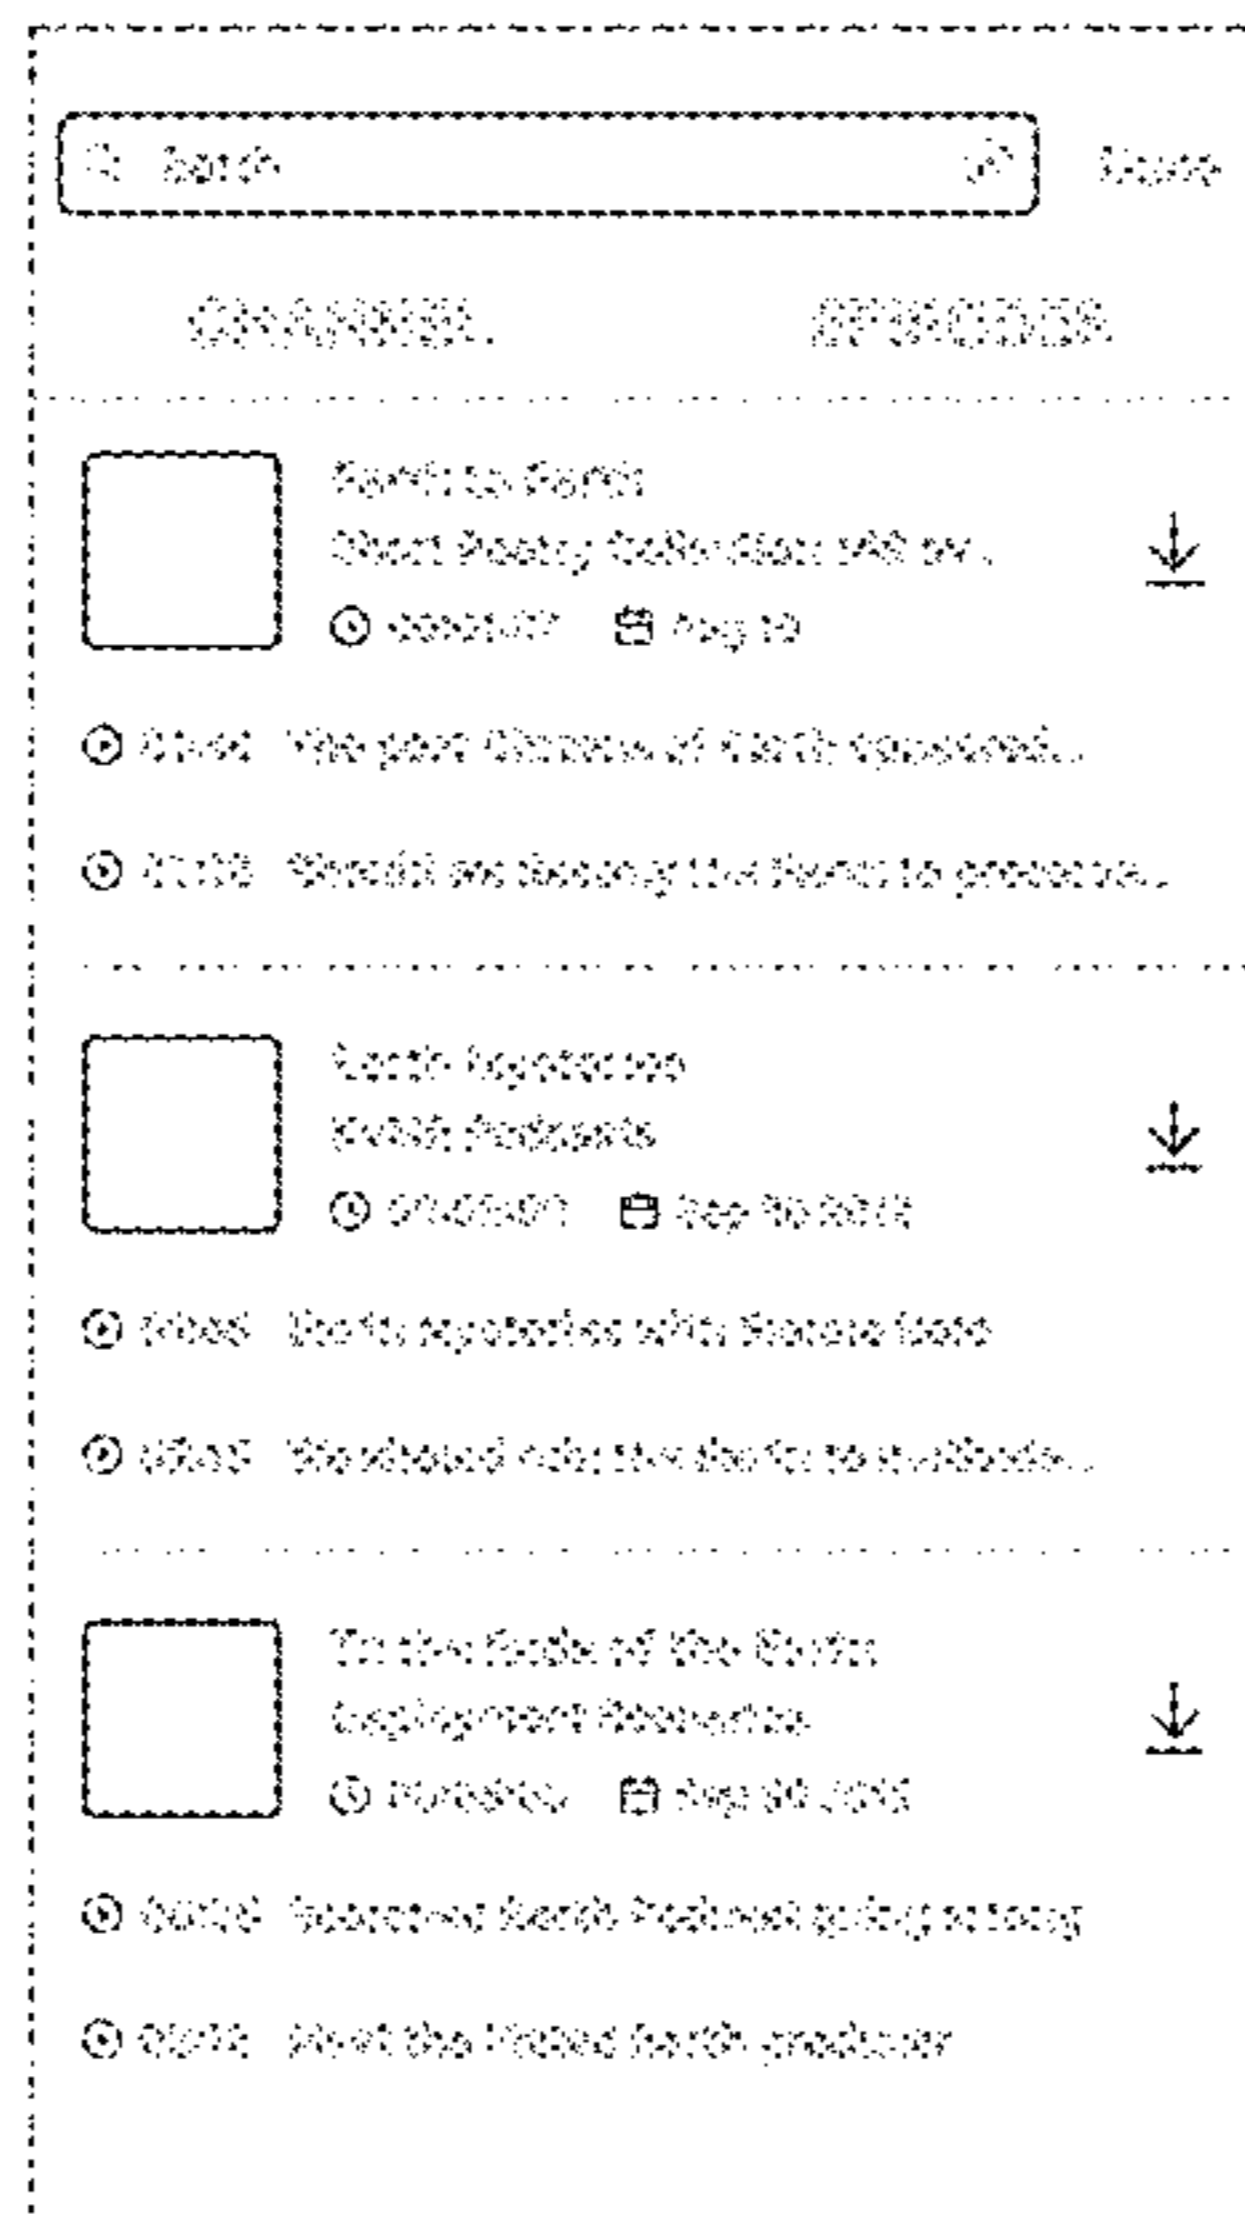

The ornamental design for a display screen with graphical user interface for a search engine result page, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface for a search engine result page according to our new design.

The outermost dot-dash broken lines showing a display screen and the other broken lines showing elements of the graphical user interface illustrate portions of the article, none of which form part of the claimed design.
