(57) **CLAIM**

An ornamental design for a display panel of an electronic device with a changeable computer generated icon, as shown and described.

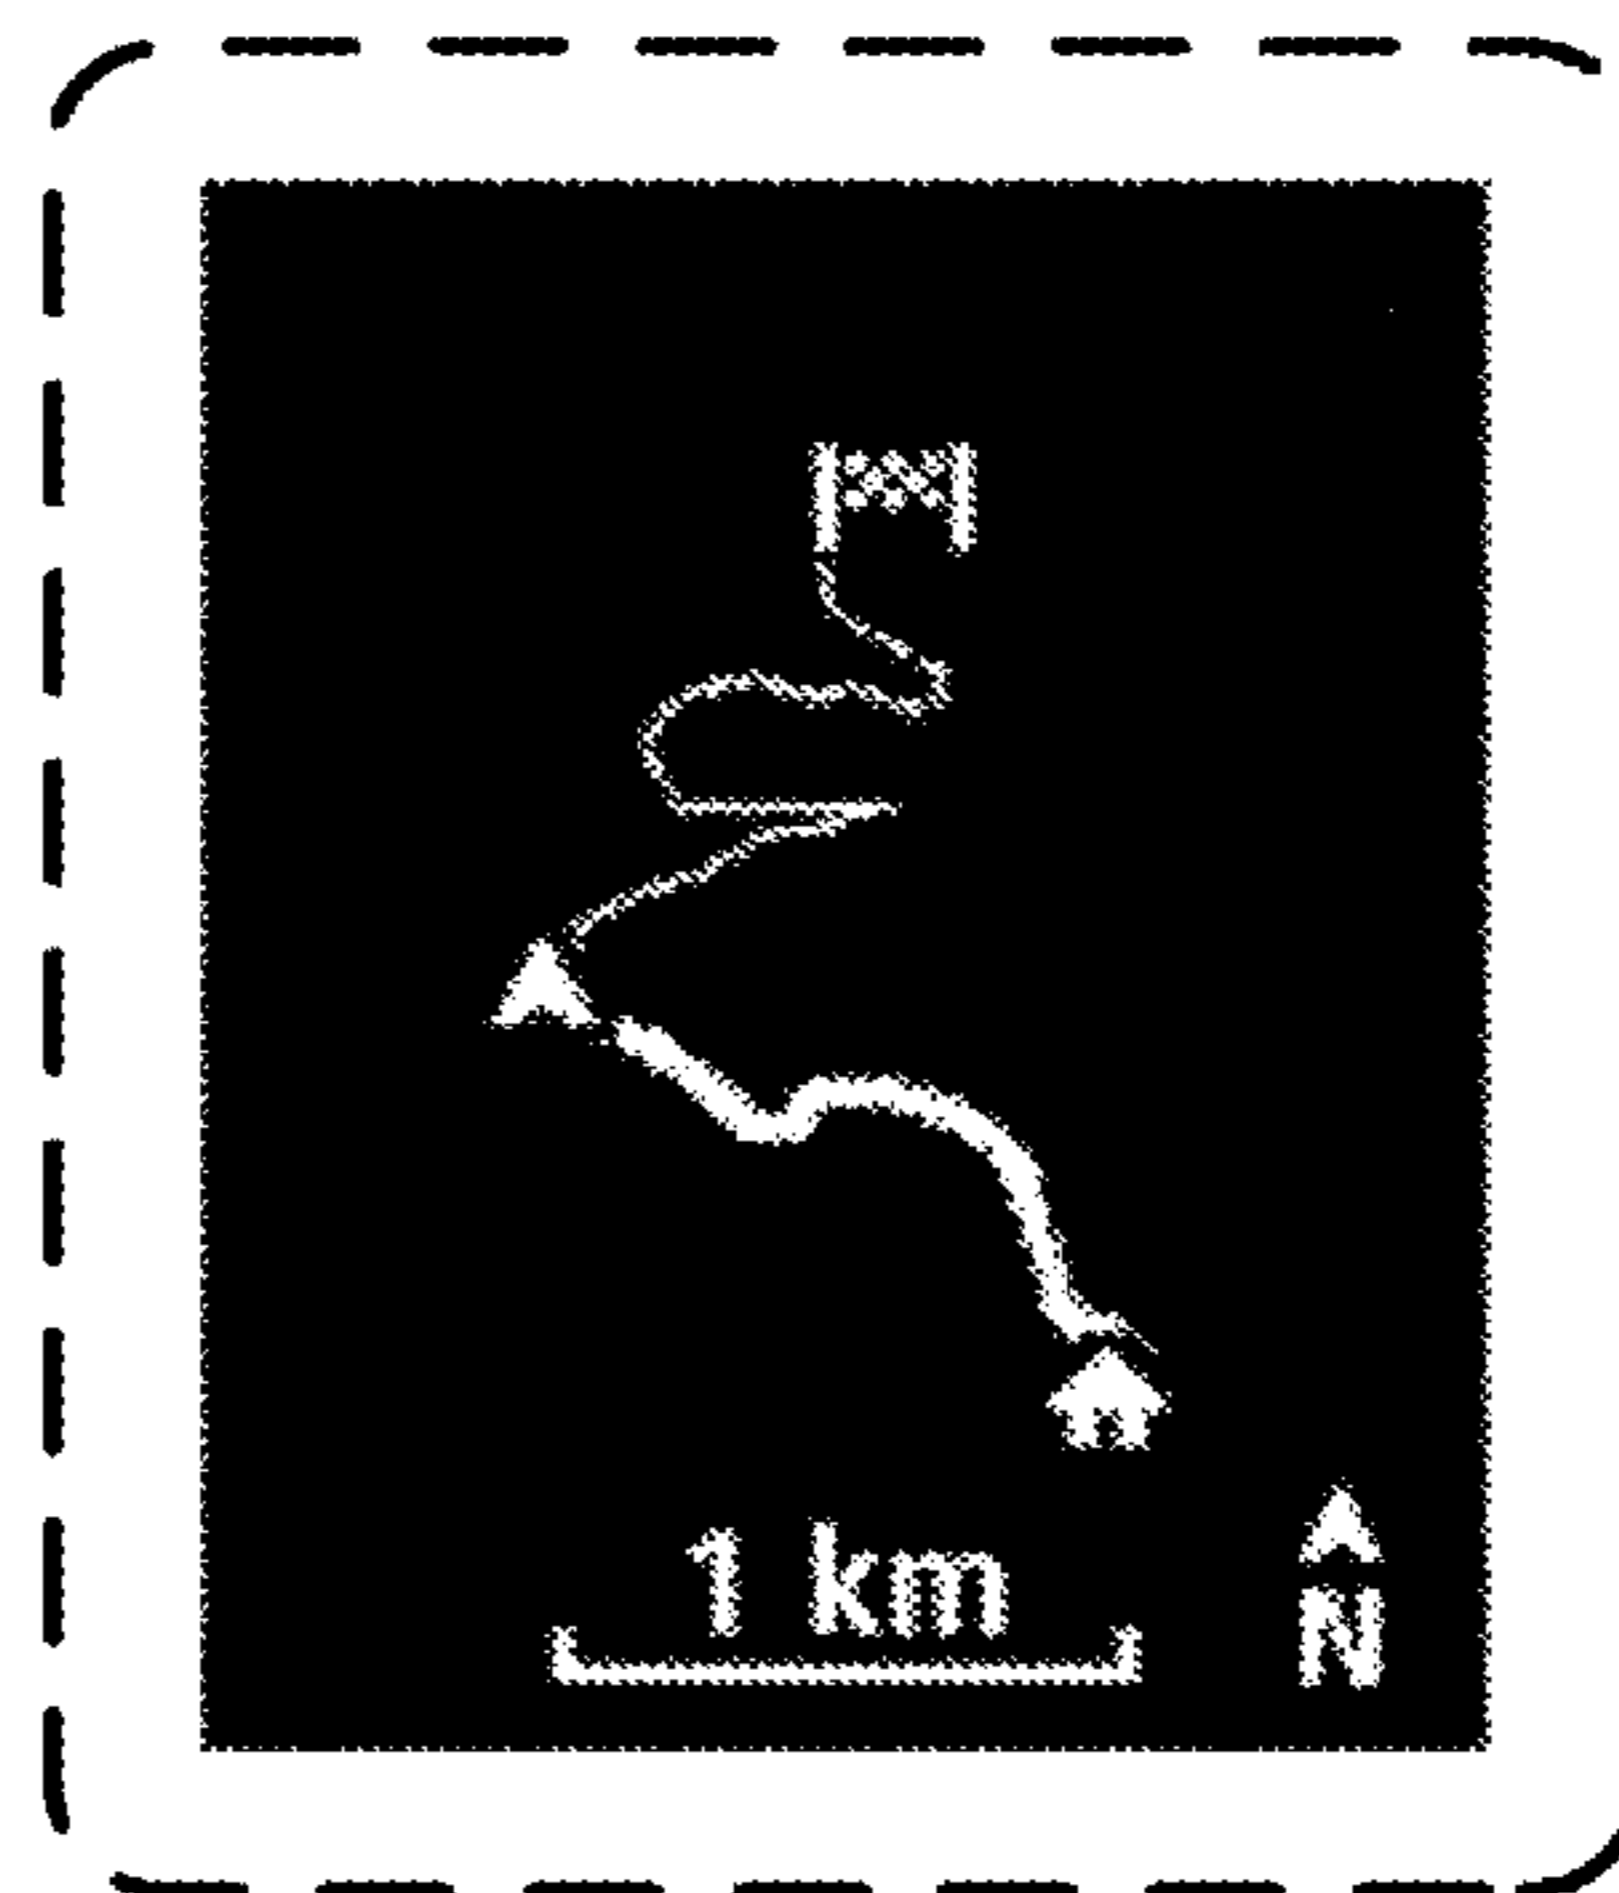

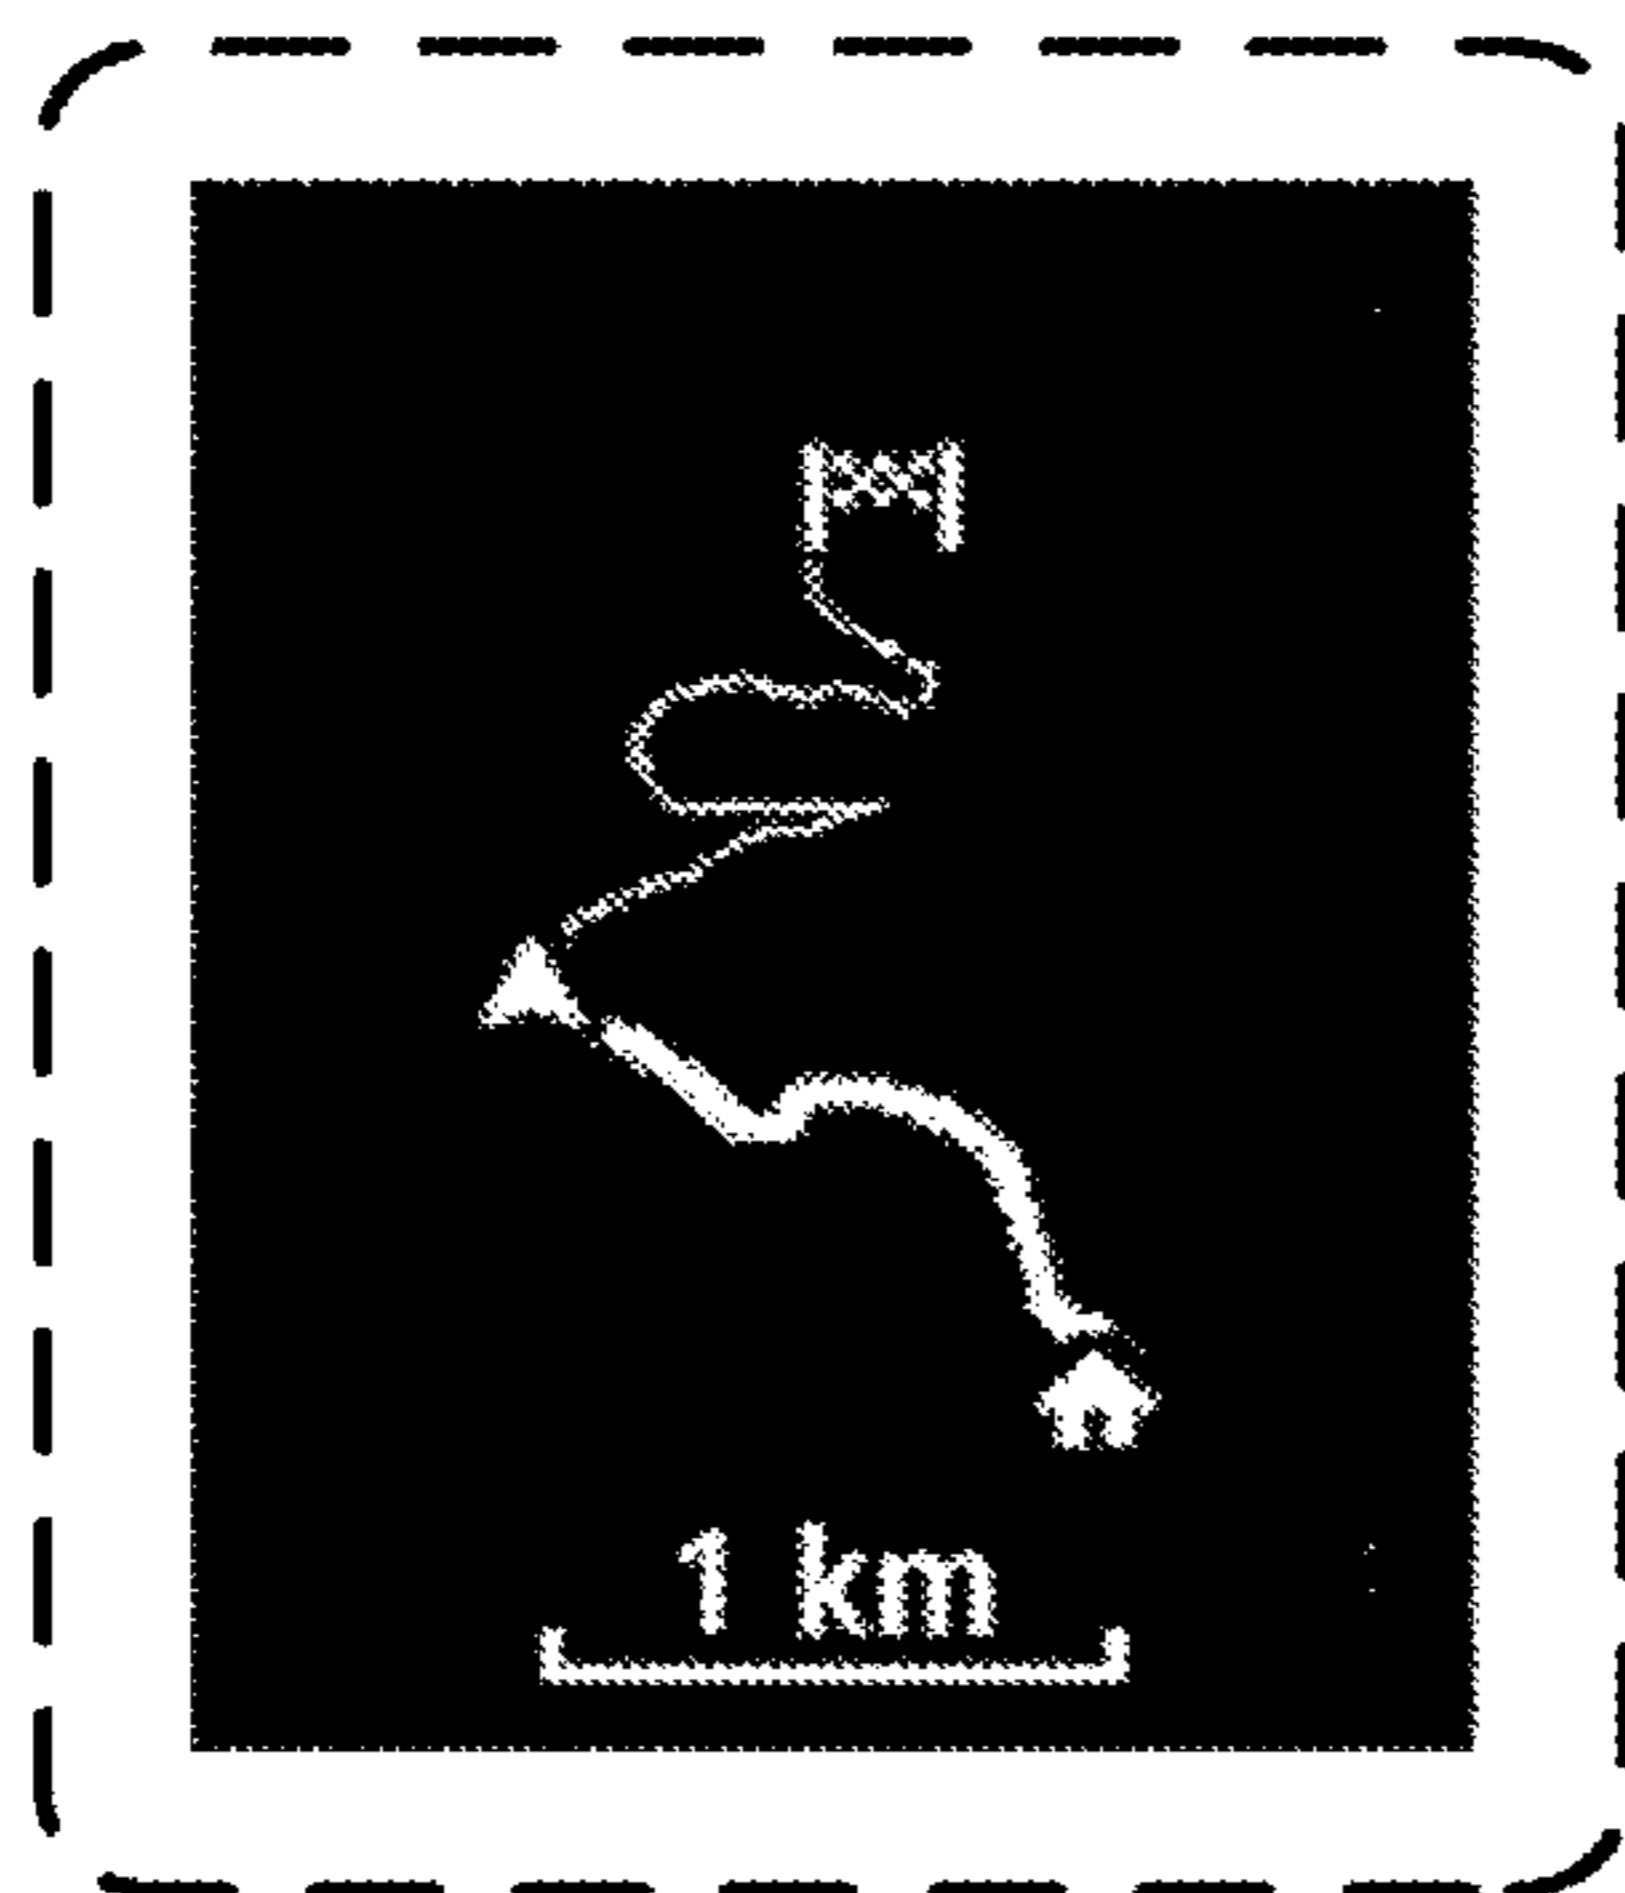

DESCRIPTION

FIG. 1 shows a front view of a first image of a first embodiment of a display panel of an electronic device with a changeable computer generated icon; FIG. 2 shows a front view of second image of the first embodiment of the display panel of the electronic device with the changeable computer generated icon; FIG. 3 shows a front view of a first image of a second embodiment of a display panel of an electronic device with a changeable computer generated icon; FIG. 4 shows a front view of a second image of the second embodiment of the display panel of the electronic device with the changeable computer generated icon; FIG. 5 shows a front view of a first image of a third embodiment of a display panel of an electronic device with a changeable computer generated icon; FIG. 6 shows a front view of a second image of the third embodiment of the display panel of the electronic device with the changeable computer generated icon; FIG. 7 shows a front view of a first image of a fourth embodiment of a display panel of an electronic device with a changeable computer generated icon; FIG. 8 shows a front view of a second image of the fourth embodiment of the display panel of the electronic device with the changeable computer generated icon; and, FIG. 9 shows a perspective view of the display panel of the electronic device with the changeable computer generated icon shown in FIG. 7.

The broken lines shown in FIGS. 1-9 are for the purpose of illustrating an electronic device and form no part of the claimed design.

The appearance of the changeable icon sequentially transitions between the images shown in FIGS. 1 and 2, 3 and 4, 5 and 6, and 7 and 8. The process or period in which one image transitions to another image forms no part of the claimed design.
