(57) **CLAIM**

The ornamental design for a device for locating an artery and gaining percutaneous access thereto, as shown and described.

**DESCRIPTION**

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

1. Device for locating an artery  
Device to assist in locating an artery and gaining percutaneous access thereto.

Fig. 1.1: Perspective view of the device  
Fig. 1.2: Left side view of the device  
Fig. 1.3: Front view of the device  
Fig. 1.4: Perspective left view of the device  
Fig. 1.5: Perspective top left view of the device  
Fig. 1.6: Right side view of the device  
Fig. 1.7: Perspective bottom view of the device  
Fig. 1.8: Perspective right view of the device  
Portions of the device shown in color form no part of the claimed design.
