(57) **CLAIM**

We claim the ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of an embodiment of the display screen or portion thereof with graphical user interface, wherein the diagonal and vertical line shading represent a contrasting appearance; and,

FIG. 2 is front view of another embodiment, showing color. The outer edge of the portion of the display screen is understood to be congruent with the outer edge of the graphical user interface. The diagonal lines in FIG. 1 represent a contrasting appearance. The broken lines in FIGS. 1 and 2 showing text, words, numbers, symbols, and other shapes in the graphical user interface form no part of the claimed design.
