(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

1. Display screen with animated graphical user interface

1.1 : Front view 1

1.2 : Front view 2

1.3 : Front view 3

1.4 : Front view 4

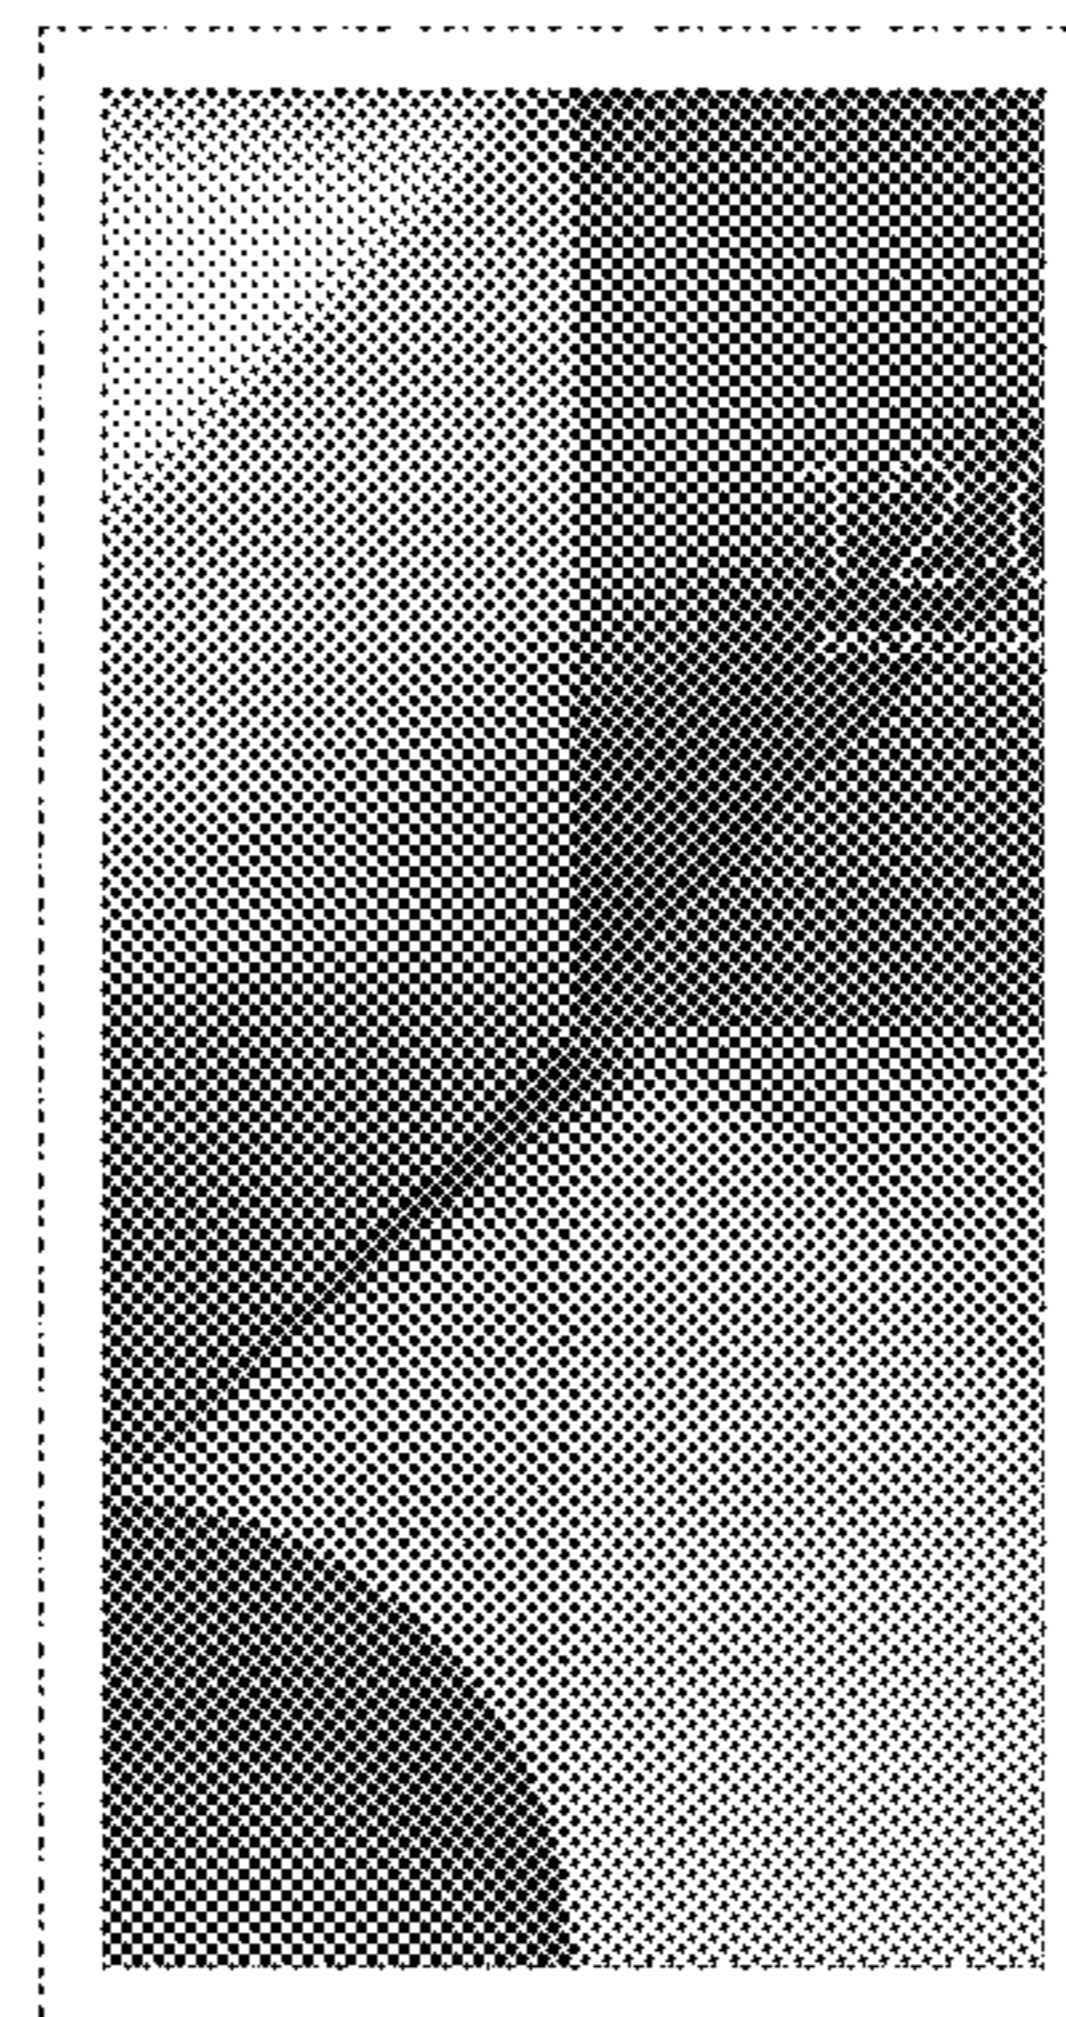

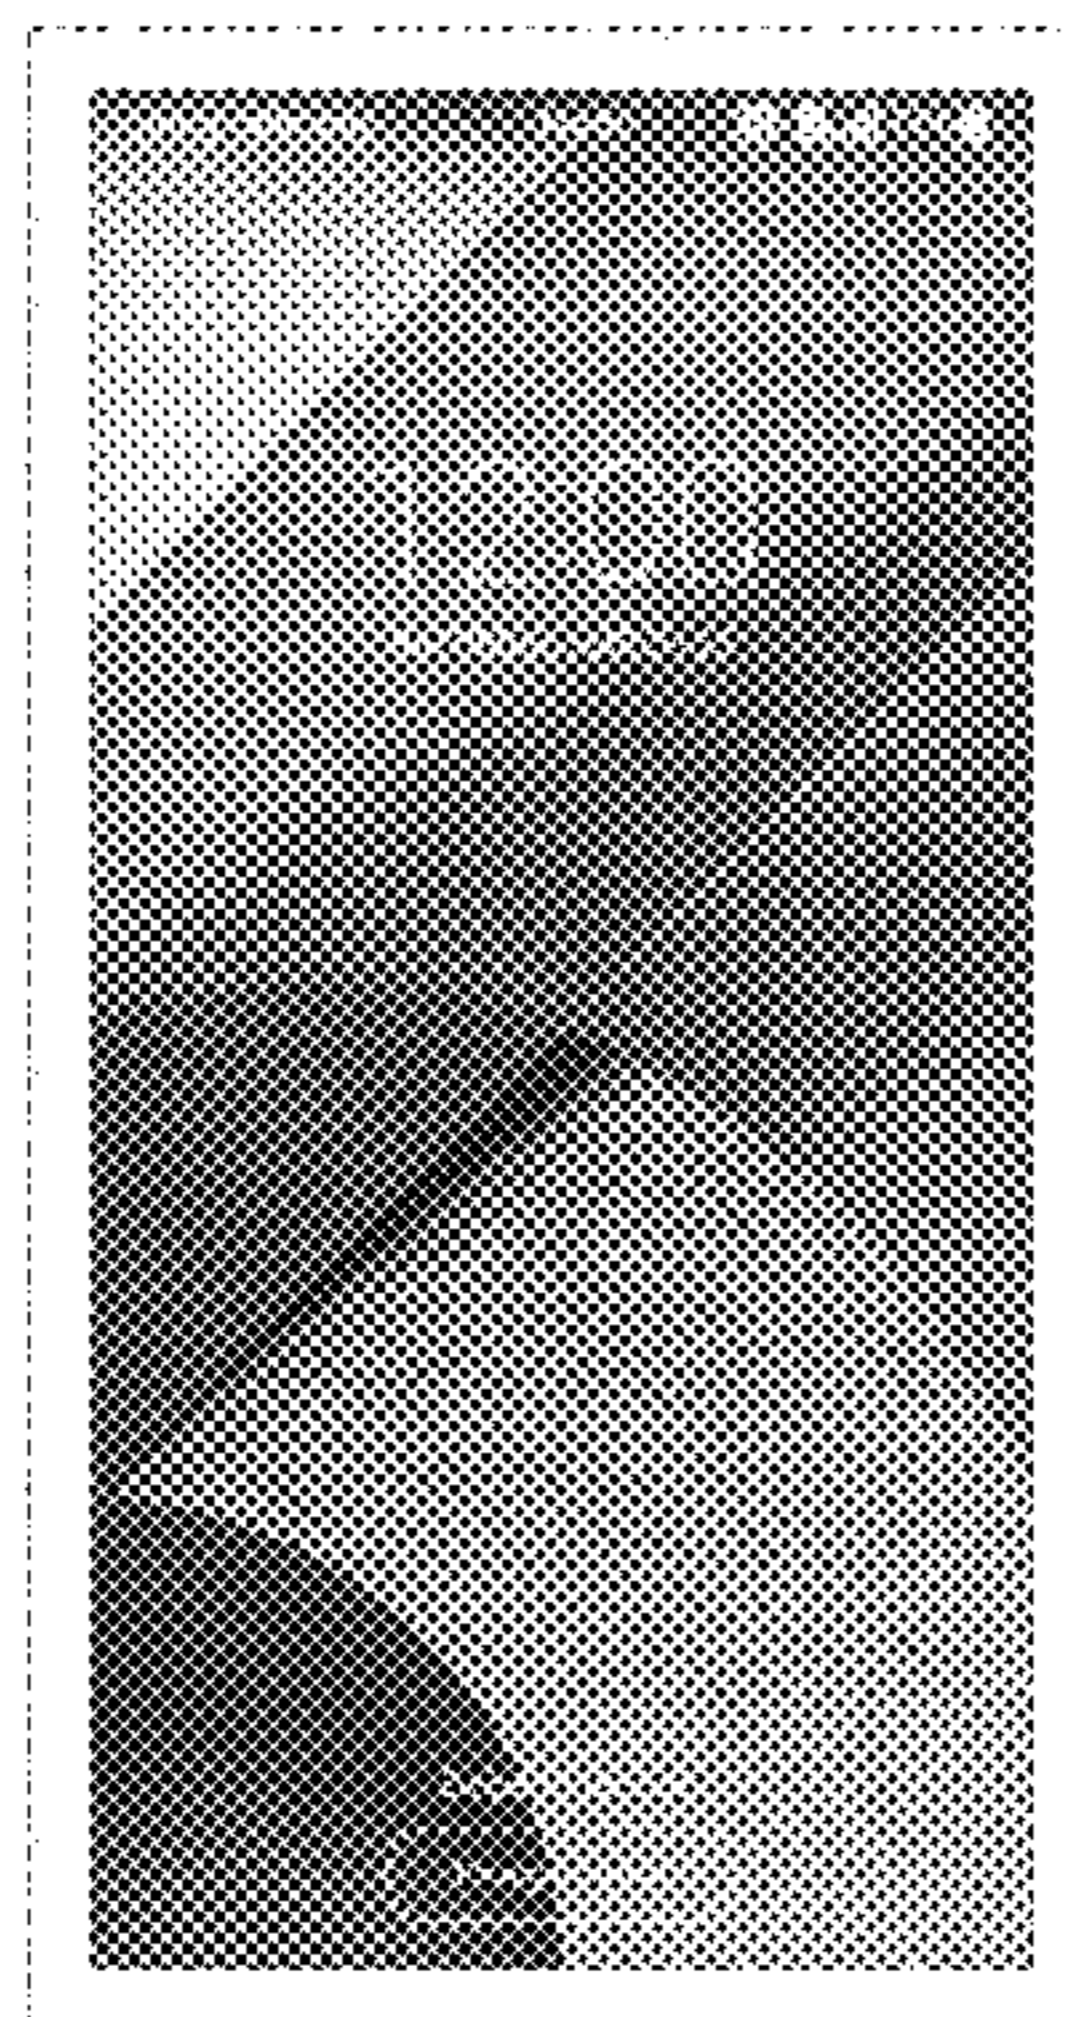

1.5 : Front view 5

The portions colored in yellow and the broken lines depict portions of the display screen with animated graphical user interface that form no part of the claimed design; this is a design for a graphical user interface for mobile phones that appears when the mobile phone is unlocked.

The attached Appendix includes reference views relating to the present design.

The appearance of the transitional image sequentially transitions between the images shown in reproductions 1.1-1.5. The process or period in which one image transitions to another image forms no part of the claimed design.
