(57) **CLAIM**

The ornamental design for a personal computing device display screen with a graphical user interface for trading platform, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

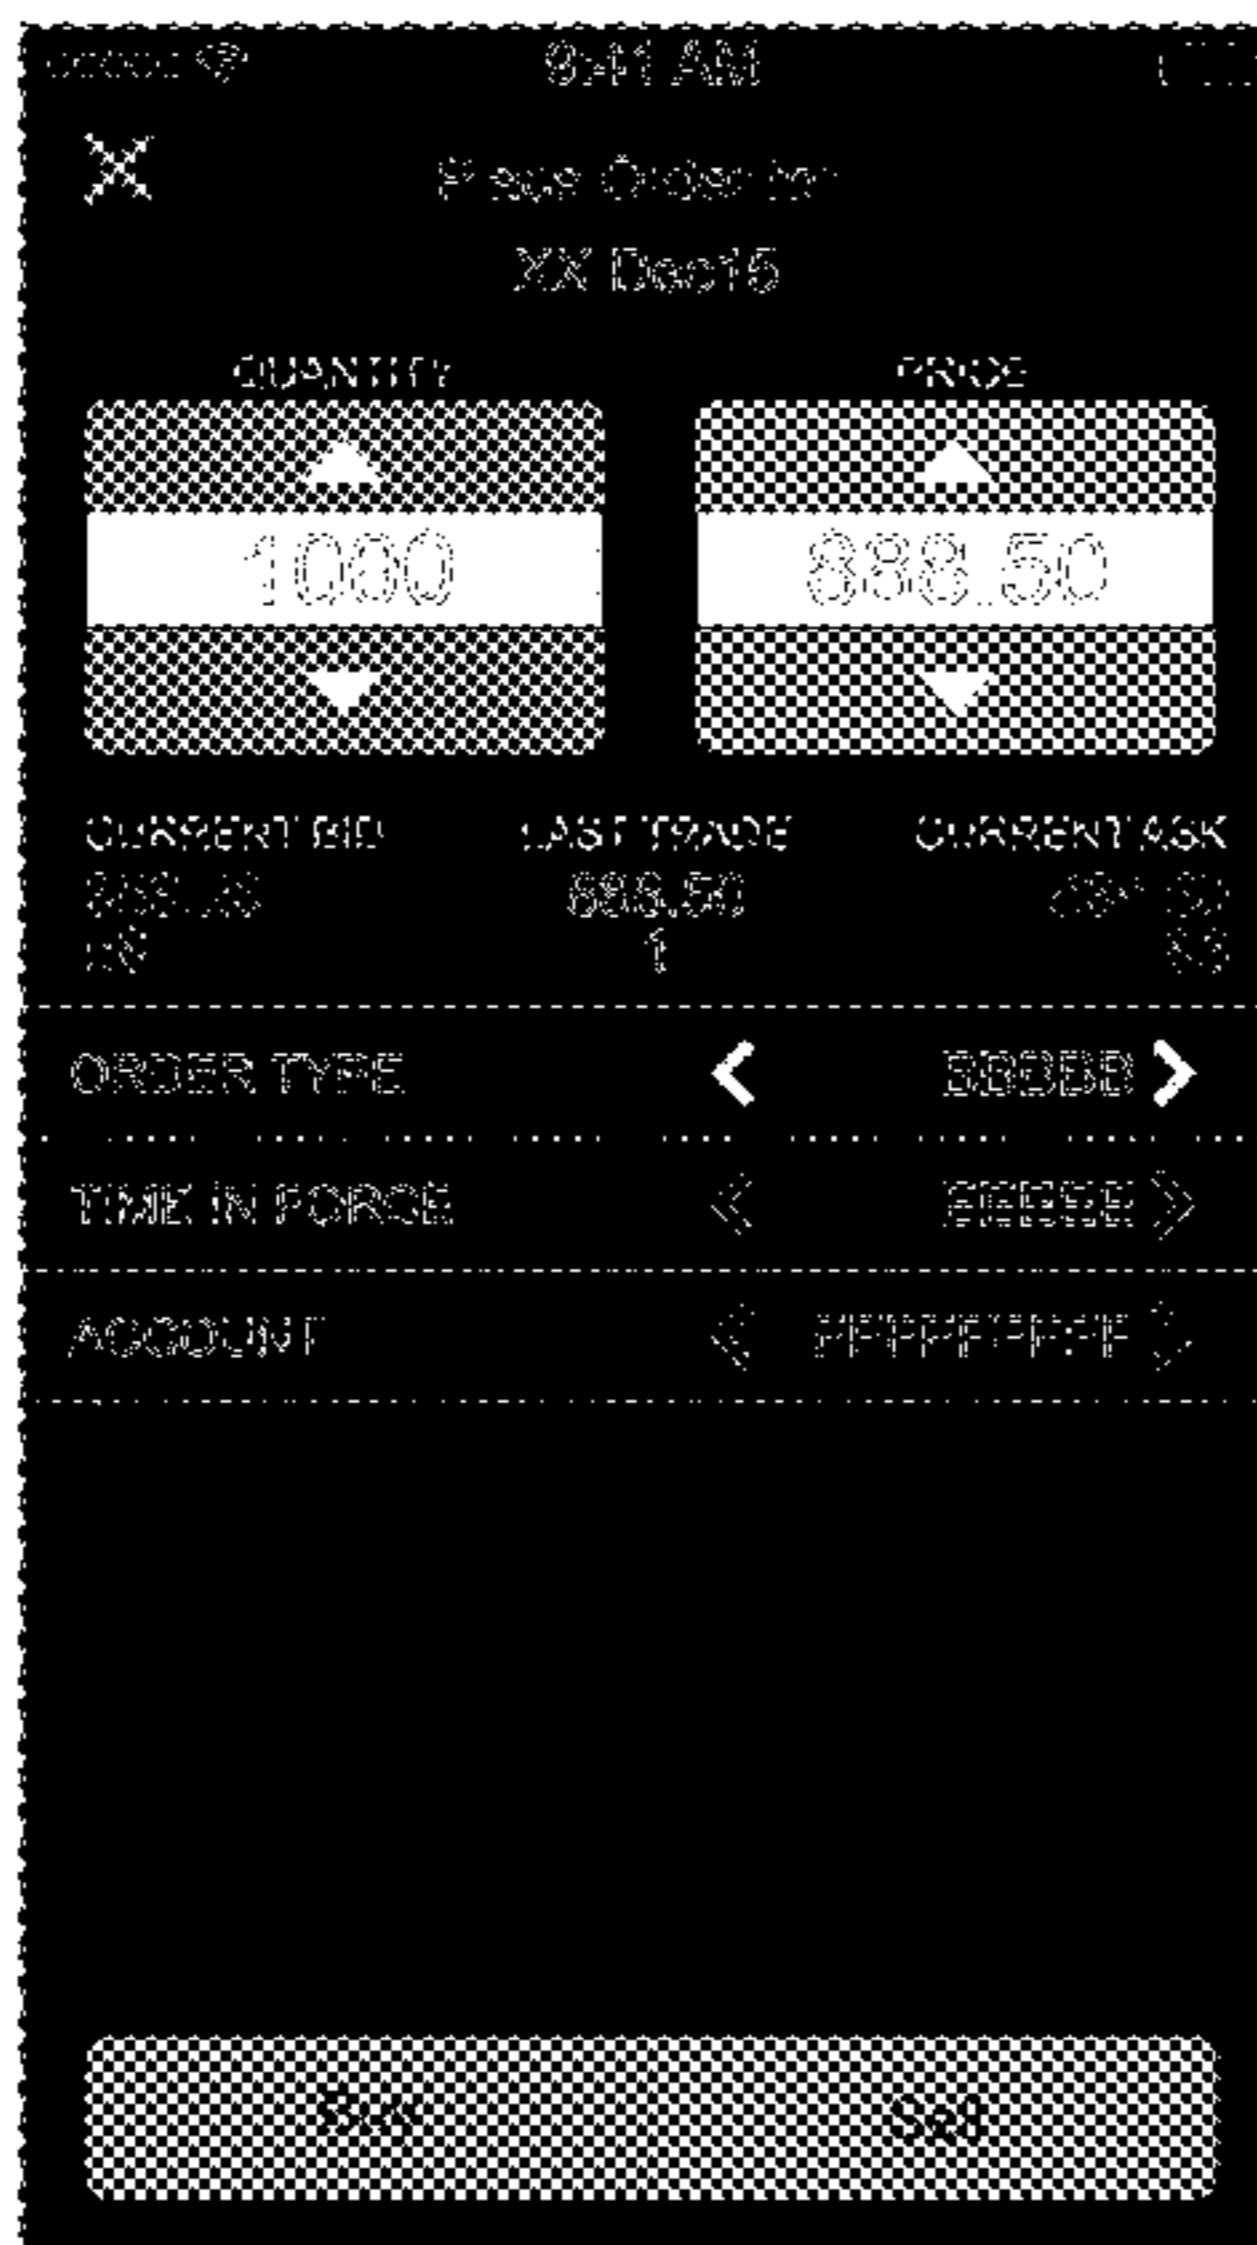

FIG. 1 is a front view of a personal computing device display screen with a graphical user interface for trading platform of a first embodiment of the present invention;

FIG. 2 is a front view of a personal computing device display screen with a graphical user interface for trading platform of a second embodiment of the present invention; and,

FIG. 3 is a front view of a personal computing device display screen with a graphical user interface for trading platform of a third embodiment of the present invention.

The outermost broken line showing the display screen forms no part of the claimed design. The interior broken line showing of the text and graphical elements form no part of the claimed design.
