(57) **CLAIM**

I claim the ornamental design for a retractable grasping device, as shown and described.

FIG. 1 is a top, front and right side perspective view of a retractable grasping device, showing my new design, wherein the grasping portion is shown in the retracted position;
FIG. 2 is a top, front and left side perspective view of the device, wherein the grasping portion is shown in the extended position;
FIG. 3 is a top, rear and right side perspective view of the device, wherein the grasping portion is shown in the extended position;
FIG. 4 is a top plan view of the device, wherein the grasping portion is shown in the retracted position;
FIG. 5 is a bottom plan view of the device, wherein the grasping portion is shown in the extended position;
FIG. 6 is a left side elevation view of the device, wherein the grasping portion is shown in the retracted position;
FIG. 7 is a right side elevation view of the device, wherein the grasping portion is shown in the extended position;
FIG. 8 is a front elevation view of the device; wherein the grasping portion is shown in the retracted position;
FIG. 9 is a rear elevation view of the device, wherein the grasping portion is shown in the extended position;
FIG. 10 is a left side elevation view of the device, which is partially in cross section;
FIG. 11 is a closeup front perspective view of the grasping portion of the device, in the closed position
FIG. 12 is a closeup front perspective view of the grasping portion of the device, in the open position;
FIG. 13 is a closeup rear perspective view of the grasping portion of the device, in the open position;
FIG. 14 is a closeup left side elevation view of the grasping portion of the device, in the closed position; and,
FIG. 15 is a closeup left side elevation view of the grasping portion of the device, in the open position.
The broken lines depict portions of the retractable grasping device in which the design is embodied that are not considered part of the claimed design.

1 Claim, 9 Drawing Sheets
