(57) **CLAIM**

The ornamental design of a computing device display screen with graphical user interface for providing geographic-specific service information, as shown and described.

**DESCRIPTION**

The FIGURE illustrates a computing device display screen with graphical user interface for providing geographic-specific service information.

The line segments depicted by circular dots are claimed subject matter. The remaining broken lines, which depict the computing device and a portion(s) or element(s) of a graphical user interface, are provided for the purpose of illustrating environment and/or context, and form no part of the claimed design.
