(57) **CLAIM**

The ornamental design for a display screen with a transitional graphical user interface for a product collection advertisement, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with a transitional graphical user interface for a product collection advertisement, showing a first image in a sequence according to the new design;

FIG. 2 is a second image in the sequence;

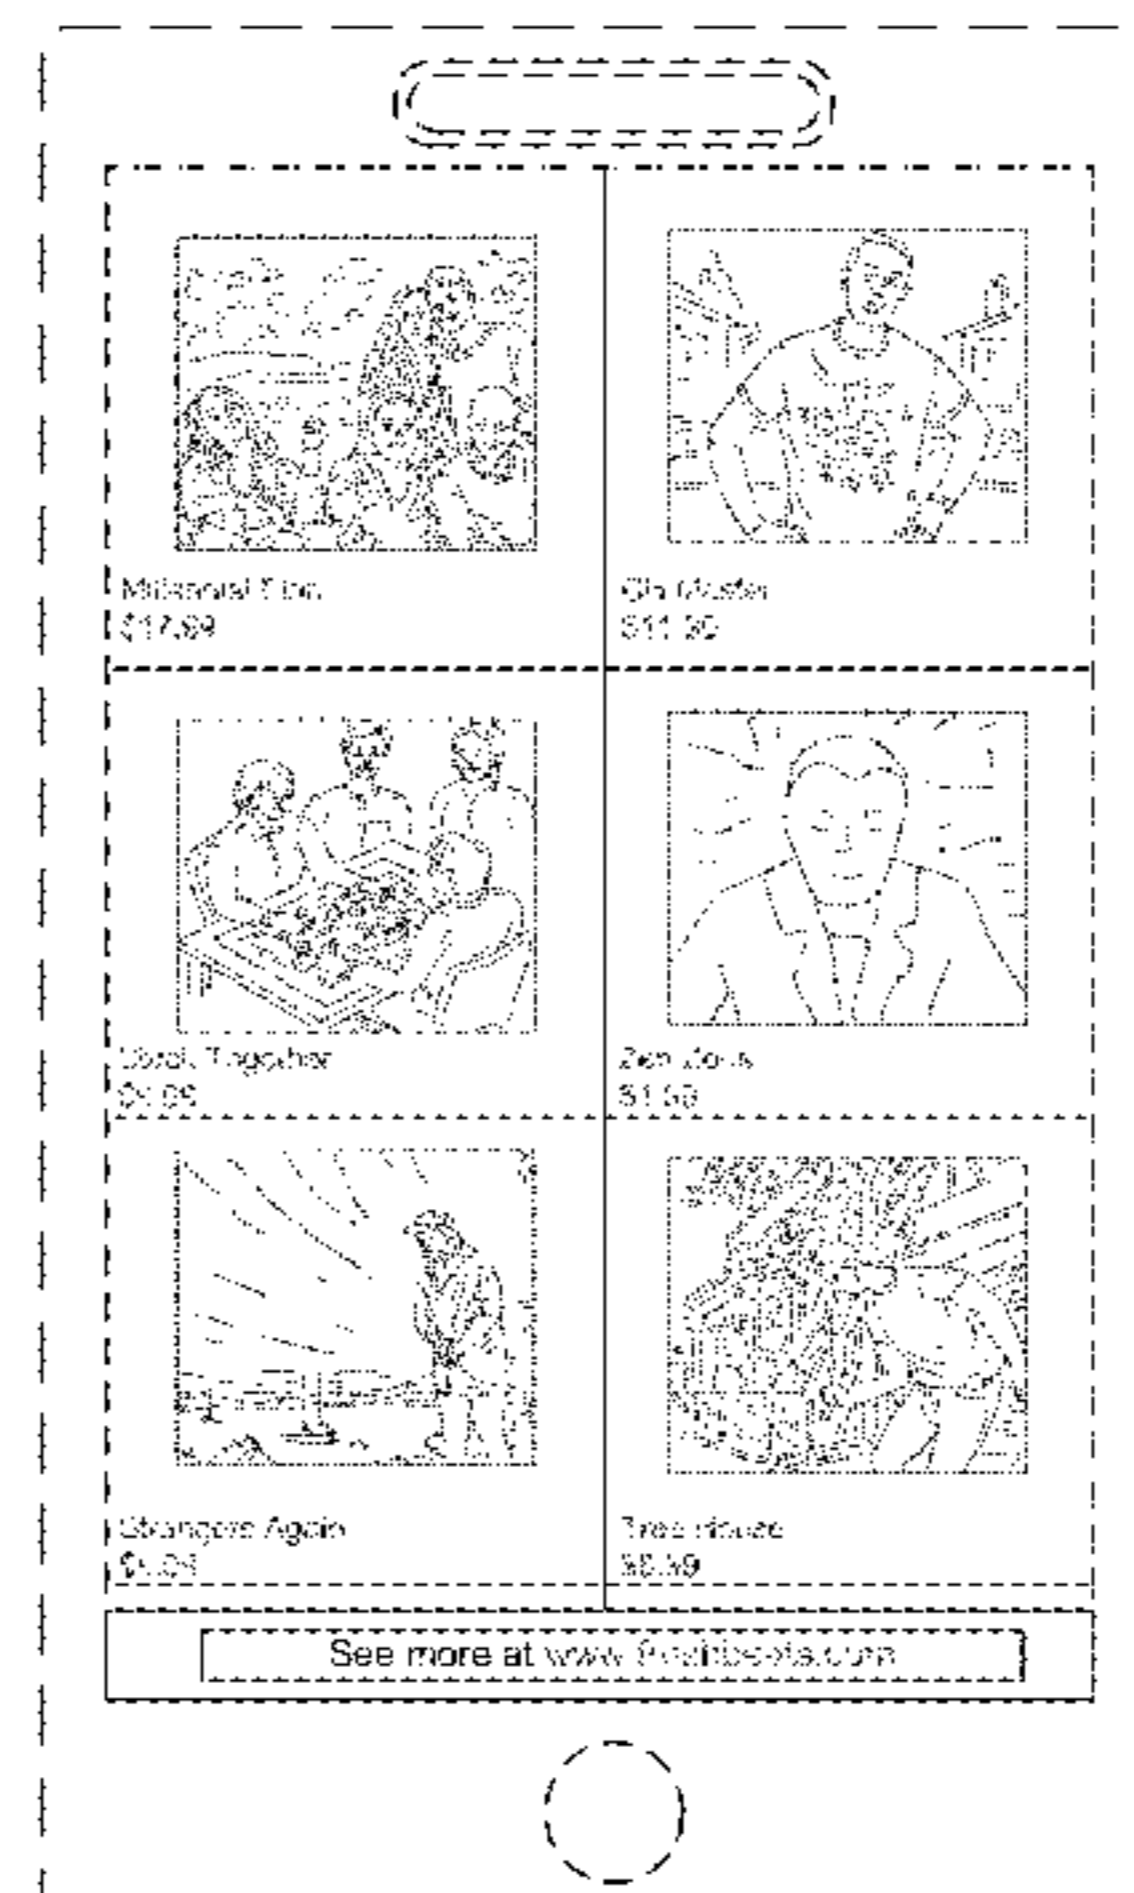

FIG. 3 is a third image in the sequence; and,

FIG. 4 is a fourth image in the sequence.

The broken line showing of portions of an electronic device illustrates environmental subject matter. The broken line showing of the display screen and all other broken lines showing portions of the graphical user interface illustrate portions of the article. No subject matter depicted in any of the aforementioned broken lines forms part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-4. The process or period in which one image transitions to another image forms no part of the claimed design.
