(57) **CLAIM**

The ornamental design for a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the tire of our design; FIG. 2 is a front elevation view of the tire of our design; FIG. 3 is a side elevation view of the tire of our design; FIG. 4 is a side elevation view of the tire of our design, taken from the opposite side of that shown in FIG. 3; FIG. 5 is an enlarged, partial view of the tire of FIG. 1, as indicated by the break lines; and, FIG. 6 is an enlarged, partial view of the tire of FIG. 2, as indicated by the break line.

The claimed design is the tread area, including the shoulder, of the tire. The dash-dot-dot-dash lines between the claimed tread area and the unclaimed sidewall define the peripheral boundaries of the claim. The broken line disclosure in the drawings, including the broken line disclosure indicating the grooves bordering, and between adjacent, tread blocks, depicts environmental subject matter forming no part of the claimed design. The tread pattern repeats over the circumference of the tire.

1 Claim, 6 Drawing Sheets
