(57) **CLAIM**

We claim the ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface showing the new design. The broken line immediately adjacent to the outer perimeter of the graphical user interface shows a display screen, and forms no part of the claimed design. All other broken lines show portions of the graphical user interface, and form no part of the claimed design.
