See application file for complete search history.

FIG. 1 is a front view of a first image of a first embodiment of a display screen with animated graphical user interface showing our new design; FIG. 2 is a front view of a second image; FIG. 3 is a front view of a third image; and, FIG. 4 is a front view of a first image of a second embodiment of a display screen with animated graphical user interface.

The appearance of the image sequentially transitions between the images shown in FIGS. 1-3 and in FIGS. 4, 2, and 3. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken lines of uneven length show a screen for displaying the animated graphical user interface and form no part of the claimed design. The broken lines of even length shown in the drawing illustrate portions of the animated graphical user interface that form no part of the claimed design. Appearance of translucency is shown with stippling shading in FIG. 2.
